You don't need to walk it alone. The Bible says that "God is near to the brokenhearted," but what does that look like when you're lost in the darkness of agonizing grief? How do you engage with your sorrow when the world tells you to shoulder through or move on? Award-winning writer and podcaster Clarissa Moll knows this landscape of loss all too well. Her life changed forever in 2019 when her husband, Rob, died unexpectedly while hiking—leaving her with four

children to raise alone. In the pages of *Beyond the Darkness*, you'll learn how to meet and engage with loss in your everyday life, uncover the lies the world has told you about your grief, and point your feet toward hope and find a way to navigate your new life with loss and God beside you. Whether you've lost someone dear to you or you're supporting a loved one as they mourn, you can learn to walk with grief. And as you do, you might be surprised to discover the path is wide enough for another companion, the Good Shepherd of your soul. Grief may walk with us for the rest of our lives, but Jesus will too.

Theoretical Approaches to Multi-Cultural Positive Psychological Interventions Llewellyn Ellardus Van Zyl,Sebastiaan Rothmann Sr.,2019-06-11 This volume provides theoretical perspectives on and approaches to the development or enhancement of positive psychological capacities within various multi-cultural professional and organizational contexts. Specifically, it presents theoretical frameworks for the identification, development and optimization of positive psychological capacities

through a contemporary, multi-cultural and multi-disciplinary lens. In recent years, the applicability of positive psychological intervention (PPI) techniques has transposed the boundaries of clinical practice into a wide array of complementary domains such as law, education, business and even design sciences such as architecture. These interventions target the enhancement of positive psychological capacities (e.g. strength-identification and use; high-performance learning; appreciative design; job-crafting) in order to not only improve individual functioning, well-being and the treatment of various forms of psychopathology but also to enhance team functioning/performance, organizational growth and community development. Despite its importance, very little research has been done on the design of PPIs applicable to multi-cultural contexts. The contributions to this volume provide insights into this hitherto neglected area of research.
