CONCUR 2000 - Concurrency Theory Catuscia Palamidessi, 2000-08-11 This volume contains the proceedings of the 11th International Conference on Concurrency Theory (CONCUR 2000) held in State College, Pennsylvania, USA, during 22-25 August 2000. The purpose of the CONCUR conferences is to bring together researchers, developers, and students in order to advance the theory of concurrency and promote its applications. Interest in this topic is continuously growing, as a consequence of the importance and ubiquity of concurrent systems and their applications, and of the scientific relevance of their foundations. The scope covers all areas of semantics, logics, and verification techniques for concurrent systems. Topics include concurrency related aspects of: models of computation, semantic domains, process algebras, Petri nets, event structures, real-time systems, hybrid systems, decidability, model-checking, verification techniques, refinement techniques,

term and graph rewriting, distributed programming, logic constraint programming, object-oriented programming, typing systems and algorithms, case studies, tools, and environments for programming and verification. The first two CONCUR conferences were held in Amsterdam (NL) in 1990 and 1991. The following ones in Stony Brook (USA), Hildesheim (D), Uppsala (S), Philadelphia (USA), Pisa (I), Warsaw (PL), Nice (F), and Eindhoven (NL). The proceedings have appeared in Springer LNCS, as Volumes 458, 527, 630, 715, 836, 962, 1119, 1243, 1466, and 1664.

Civil War Issues in Philadelphia, 1856-1865 William Dusinger, 2017-11-15 Philadelphia, before the Confederate bombardment of Fort Sumter, was not simply a Northern city. Unlike proslavery Washington but also unlike antislavery Boston, Philadelphia lay in the Northern border area, where mixed sympathies led to divided loyalties and to frequent convulsions over the great issues that preceded the war. In *Civil War Issues in Philadelphia, 1856-1865*, author William Dusinger examines three traditional interpretations of the war and shows how each has to be modified to fit Philadelphia's experience. In Part I he portrays the fundamental Philadelphia attitudes as they appeared in 1856 and the two main controversies—the fugitive slave question and the territorial issue—as they developed until 1858. Part II is devoted to the John Brown affair and the secession crisis. Part III analyzes wartime issues: the treatment of dissenters, the Negro question, and the recruitment of short-term soldiers when Confederate armies approached Pennsylvania. From this investigation emerges a vivid portrait of the North's second greatest city and its leading citizens—racist sympathizers with the South, cautious conciliators, firm conservatives, unconstrained anti-Southerners, outnumbered idealists—contending with the crisis of the Civil War periods.
