NaMo Aroop Datta,2015-06-19 Narendra Damodardas Modi stands for hope. Hope for billions of Indians. Love him, Hate him, NaMo is India’s last chance. His story fascinates almost every community in India and many abroad. His ever growing huge fan following has made him the most-searched political personality on Google in 2014. While several books have already been written about the Man, very few have been written about him by a “true- fan”, one of several Millions across the world. This honest endeavor written in totally “non-controversial” style, on his struggle of early years, rise as a CM of Gujarat and his stupendous success over a 13 year stint, his magnanimous election campaign to lead India to an almost single handedly historic verdict to his becoming India’s fifteenth Prime Minister is purely directed at his fans to enjoy the wonderful moments of their truest Leader. His rise hasn’t been a fairy tale story to say the least. It’s been an uphill struggle, battling his way to the top, fighting several battles both within and outside including his media ‘love-hate’ in India and abroad. NaMo has only one way forward, to take India to a glorious future and convert his multi Trillion-dollar dream of India into a reality. The book contains an interesting foreward by Shantanu Guha Ray, a Wharton-trained business journalist who scooped the Coal Scam in 2011 and won many national and international awards for a series of investigations. A unique Chapter on Shri Modi’s visit to Siachen with some “rarely-seen” visuals will form part of the Visual Delight for all and one. Several images of Shri Modi have been included in the Book. Enjoy reading “NaMo A Name, A Cult. A Visual Delight”.

The Art Lesson Tomie dePaola,2001-12-21 Tommy knows he wants to be an artist when he grows up. He can't wait to get to school and have real art lessons. When Tommy gets to school and finds out that the art lessons are full of rules, he is surprised and dismayed. How the wise art teacher finds a way to give Tommy the freedom to create and stay within the rules makes a wonderfully perceptive picture book about growing up and keeping one's individuality. Tomie dePaola is the author and illustrator of many beloved books for children, including the Caldecott Honor Book *Strega Nona*. Fans of all ages will be pleased to hear that *The Art Lesson* is, in fact, based on the artist's own experiences growing up, and offers a welcome glimpse into his past. This bright picture book is as covered with drawings as the walls of Tommy's parents' and grandparents' houses, and sends an inspirational message to budding artists and individualists. Break out the crayons!

Secrets of Cold War Technology Gerry Vassilatos,2000 The death knell has struck. Wave Radio is dead. How have 70 years of Military Research succeeded in producing a completely new and superior communications technology? Radio History gives a stranger walk than paranoid writers ever tell! While citizens were watching television, military research was directed to create an amazing radiation technology far in advance of any system known. Currently and routinely utilised, it has remained a well guarded 'open secret' for decades. The proof patents and relevant research papers have just been retrieved. Facts quell hysteria, but Truth is stranger than fiction. Want the answers? The complete technical history of military projects will show the development of every relevant project preceding HAARP. Only the facts. No hysteria. Complete with communications and weapons patent citations, this book will forever change your view of world events and technology.
