The Digital Glocalization of Entertainment Paolo Sigismondi,2011-08-31 In this volume, Paolo Sigismondi explores the dynamics of global media and entertainment, specifically analyzing the implications of the global rise of non-scripted entertainment (as reality TV programs) and the impact and consequences of the Information and Communication Technology (ICT) revolution on the content, delivery platforms, and overall business models of the media and entertainment landscape. This work aims at bridging the gap between media theories and industry practices in a rapidly evolving global mediascape, building on scholarship in the field and enriched by case studies and insights from business practice. This work demonstrates that the paradigms of the landscape are shifting, introducing the digital “glocalization” of entertainment, through which successful media crossing national and cultural borders incorporate both global and local features. Key questions raised include: Is the ICT revolution an example of disruptive technology for the global media and entertainment industry? Is the existing status quo challenged, and in, particular Hollywood’s global leadership? What are the global entities emerging as Hollywood’s main competitors in this technologically evolving landscape? Sigismondi argues that as new players are entering the field, new threats to Hollywood’s dominance are emerging. The global leaders in non-scripted entertainment, for example, are European-based global entities operating outside the Hollywood system. Meanwhile, the ICT revolution is modifying the contours and boundaries of the global mediascape. Sigismondi’s approach provides unique insight into how the forces of technology and globalization are transforming television, cinema, and online entertainment.

Nanny 911 Deborah Carroll,Stella Reid,2014-02-25 Regain control of your children with simple, direct, nanny-tested measures! Is your life chaotic? Are your kids running the show? Do you feel like you're more of a zookeeper than a parent? Take heart, America. When your family's in trouble, Nanny 911 is there on the double. Because brats are not born, they're made. No one knows that better than Deborah Carroll and Stella Reid—Nanny Deb and Nanny Stella—the stars of the overnight hit television show on the Fox network. Each week, up to ten million viewers tune in to see the nannies take charge and transform one family's utter chaos into serenity. No matter how loud the tantrums or how clueless the parents, Nanny Deb and Nanny Stella help them become the families they always wanted to be. Now the nannies share their remarkable wisdom with millions of overwhelmed parents desperate for foolproof parenting advice at their fingertips. They'll show that parents need to change their behavior first—because when there are no consequences for naughty behavior, kids quickly realize there's no reason for the naughtiness to stop. And when mom and dad just don't know what to do, the kids take over. You'll learn how to confront problems head-on, with firm but loving discipline, effective communication, and the implementation of clear House Rules. Nanny 911 is the perfect sourcebook for dealing with everyday problems that have escalated to levels that are out of control. For parenting emergencies call 911. Nanny 911, that is. Exposing Lifestyle Television Gareth Palmer,2016-04-15 In the last decade lifestyle television has become one of the most dominant television genres, with certain shows now global brands with formats exploited by producers all over the world. What unites these programmes is their belief that the human subject has a flexible, malleable identity that can be changed within television-friendly frameworks. In contrast to the talk shows of the eighties and nineties where modest transformation was discussed as an ideal, advances in technology, combined with changing tastes and demands of viewers, have created an appetite for dramatic transformations. This volume presents case studies from across the lifestyle genre, considering a variety of themes but with a shared understanding of the self as an evolving project, driven by enterprise. Written by an international team of scholars, the collection will appeal to sociologists of culture and consumption, as well as to scholars of media studies and media production throughout the world.

Tripping the Prom Queen Susan Shapiro Barash,2007-03-06 Tripping the Prom Queen is a groundbreaking investigation into the dark secret of female friendship: rivalry. Susan Shapiro Barash has exploded the myth that women help one another, are supportive of one another, and want each other to succeed. Based on interviews with women across a broad social spectrum, she has discovered that the competition between women is more vicious precisely because it is covert. She tells us: * Why women can't and won't admit to rivalry. * How women are trained from an early age to compete with one another. * In which areas women most heatedly compete. * How rivalry is different among women than among men. * The differences between competition, envy, and jealousy. * When competition is healthy and when it isn't. * Why women find it irresistible to trip the prom queen. * Useful strategies to stop the competition and forge a new kind of relationship with other women. Whether you've tripped the prom queen or been tripped yourself, you will discover an engrossing exploration of this female phenomenon, as well as a beacon of hope for better, more fulfilling relationships.

Black Women's Portrayals on Reality Television Donnetrice C. Allison,2016-01-14 This book critically analyzes the portrayals of Black women in current reality television. Audiences are presented with a multitude of images of Black women fighting, arguing, and cursing at one another in this manufactured world of reality television. This perpetuation of negative, insidious racial and gender stereotypes influences how the U.S. views Black women. This stereotyping disrupts the process in which people are able to appreciate cultural and gender difference. Instead of celebrating the diverse symbols and meaning making that accompanies Black women's discourse and identities, reality television scripts an artificial or plastic image of Black women that reinforces extant stereotypes. This collection's contributors seek to uncover examples in reality television shows where instantiations of Black women's gendered, racial, and cultural difference is signified and made sinister.

The Nanny Time Bomb Jacalyn S. Burke,2015-12-01 From your baby's perspective, choosing the right nanny is probably the most important decision a parent can ever make: this book is about making the best possible choice. Coming home to an abused, badly injured, or even deceased child is a parent's most horrific, unimaginable scenario. And yet it happens: In 2012, two small children died while in the care of a nanny. The Nanny Time Bomb is the most accurate and comprehensive analysis of the current crisis in child care, offering case studies and practical advice to help parents make the most educated, well-informed decision when choosing a nanny for their child. The book takes the reader through various types of nannies—from graduates to undocumented workers—thus allowing parents to see how the industry has evolved far past schoolgirl babysitters. Setting itself apart, Jacalyn S. Burke's exploration of the different types of nannies offers a new perspective on child care not only for parents but also for those interested in larger sociological trends. This book gives a voice to the often-unheard grievances of nannies, showing why they may snap; explaining how to prevent tragedies; and describing how parenting has evolved. The author's examination of current cultural and social trends will be useful for a wide readership beyond parents.

Now I Can Die in Peace Bill Simmons,2009-03-24 ESPN's beloved Sports Guy replays the years leading up to the Boston Red Sox historic championship season and says goodbye to a lifetime of suffering. At least for now.The Red Sox won the World Series. To Citizen No. 1 of Red Sox Nation, those seven words meant No more 1918 chants. No more smug glances from Yankee fans. No more worrying about living an entire life -- that's 80 years, followed by death without seeing the Red Sox win a Series. But once he was able to type those life-changing words, Bill Simmons decided to look back at his Sports Guy columns for the last five years to find out how the miracle came to pass. And that's where the trouble began. Why didnt he see it coming? Why didn't it happen sooner? What was the key deal, the lucky move, the funny bounce, the sign from above that he failed to spot? Pretty soon, The Sports Guy was second-guessing himself, rewriting history, sniping at his own past predictions, pounding the table -- that's what sports guys do, right And doing so, he let himself get sidetracked by the suffering of the Boston Bruins, frustrated by the false promise of the Celtics -- and driven into a state of ecstasy by the dynastic New England Patriots. The result is Now I Can Die in Peace, a hilarious and fresh new look at some of the best sportswriting in America, with sharp critical commentary (and fresh insights) from the guy who wrote it in the first place.
