Kevin Harvick Greg Roza,2009-01-15 Receiving a go-kart as a kindergarten graduation present, Kevin Harvick got behind the wheel early and has been racing ever since. By the age of 20, he became a NASCAR Rookie of the Year in the Featherlite Southwest series. Soon he was racing in all three of NASCAR's most prestigious nationwide series. In two of these series he would win Rookie of the Year honors. Only one year after being named the NASCAR Busch series Rookie of the Year, he would win the Busch series championship in 2001. He'd win it again in 2006. With 11 wins, 5 poles, 51 Top 5 finishes, 105 Top 10 finishes, and almost \$40 million in earnings during his still young NASCAR career, Harvick has certainly delivered on the early promise he showed as a 5-year-old in his go-kart. There's no telling how much farther and faster this speed demon will go!

Go Slow to Grow Fast Brent R. Tilson,2018-04-11 How To Maintain Positive Performance Through Your Company's Ups And Downs In this book, author Brent R. Tilson brings to life the classic challenge that all business leaders face as they push their businesses through the conflict of growth and business capability, often referred to as the S-curve life cycle. Through a fable drawn from his work with hundreds of businesses over twenty-five years of experience, he creates a case study that will take you, along with the characters Frank and Susan, on a journey of self-discovery. The practical tools, methodologies, and advice are thought provoking yet simple. Brent's innovative use of a business's Lifeline, combined with his Quad 4 methodology, helps leaders gain an understanding of how their business is performing today, and creates a road map for the future. Financial statements give leaders only a rearview-mirror look at a company's performance. The key is to have the information to look forward--through the dashboard showing where the company is going. In this book, Brent presents tools for leaders to zero in on the critical numbers and measurements they need to monitor. Some of the key issues he addresses are: -Is the company in the Driving Zone or Drama Zone? -Is revenue per employee growing? -What is the return on investment the company is getting from its employees? - What will put the company out of business? -Is the company outperforming the competition? The key is to Go Slow and truly understand the business's current capability; then you can make the necessary changes, adjustments, and improvements to prepare for the future--and get ready to Grow Fast.

The Bed I Made Robert Lynch,2018-02-28 Hope is not something that you conjure up in your own mind. Hope is an inspiration you get from the people you are around. Hope has to be shown and seen. Hope is something that is developed, that's learned. You must see the opportunity for hope. Ravenell Williams, IV The rekindled hope that Joe Lynch found as a young Marine when he ran away from his Brooklyn, NY home at the age of sixteen was short-lived. Over time, all hope was dashed and replaced by fear, uncertainty, and self-doubt. Joe's destiny was to fight the gruesome Korean War battles of Pusan, Inchon, Seoul, and the storied Chosin Reservoir for more than fifty years after the cannons of his beloved 11th Marines fell silent in Korea. Hope faded into a distant memory until, in his golden years, a glimmer on the horizon caught his weary eye. Joe only needed to seize that shimmering vision and muster the last vestiges of human spirit deep within him in order to survive. The Bed I Made is the true story of this Old Marine with one last fight left in him.

Visitors from Lanulos (Original Edition) Woodrow Derenberger,2021-07-30 New Saucerian Press proudly presents the original first edition of the lost ufological classic, Visitors From Lanulos! Initially published in 1971, this book became perhaps the rarest contactee book ever. Prior to its reissue, there were

only a half-dozen copies remaining in the world's library system, with the rest trading for thousands of dollars each. Woodrow Derenberger, the author of the book, claimed to have had a series of strange adventures beginning on November 2nd, 1966. While driving home from Parkersburg, West Virginia to his suburban home in Mineral Wells, he suddenly found the highway blocked by a large gray object. Someone emerged from the object and walked to the passenger side window of his car. The man introduced himself as a searcher, and offered words of comfort to Derenberger. After noting that he would come again, the spaceman, who called himself Indrid Cold, stepped back into the object and it rose out of sight. Derenberger went home and told his story to his wife. He then called the police and the press. Soon after, other witnesses came forward to say that they, too, had seen Cold talking to Derenberger by the side of the road. (In time, several locals would have their own encounters with Cold.) Two days later while driving in his car, Derenberger began to receive telepathic communications from Cold, who described himself as from the galaxy of Ganymede. Cold also supplied some information about his life, including the observation that people on his planet (Lanulos) lived to be 125 to 175 of our Earth years. Over the next weeks, other stories would accumulate that substantiated other parts of Derenberger's story, including independent UFO sightings on November 4th. An initial investigation concluded that Derenberger was not a fraud or hoaxer, and was mentally and psychologically sound. Throughout this period, Derenberger's direct contacts with Indrid Cold continued. He learned much about Cold's people and their desire for friendly contact. In 1967, Cold took Derenberger for a ride in his spaceship. Strangely, they visited the oilfields of Iraq and Afghanistan, as well as Cold's lush, jungle planet, which was populated by beautiful humanoids wearing no clothes. Derenberger told his story frequently over the next few years, and his story was given extended treatment by Fortean researcher John A. Keel, who wrote the Foreword to the book. Through the 1980s, Derenberger assumed a low profile, though he continued to correspond with a small group of people who believed his accounts. In fact, he forwarded many letters from Cold to these fans. (Cold actually lived in a house in Midway, West Virginia before moving to Cleveland in the 1980s.) In the years since, other evidence has been discovered pointing to Cold's possible intelligence connections, and the fact that he may have actually piloted an early aerial drone designed by the U.S. military. Was there an underground flying saucer manufacturing plant near Woody's home, perhaps in Point Pleasant, home of the Mothman? Were Cold and his associates trying to bamboozle locals into thinking the military drones were from outer space? Or were they really interdimensional Men in Black or spacemen? Check out this fascinating read for clues both astounding and confounding.

Good Boss, Bad Boss Robert I. Sutton,2010-09-07 Now with a new chapter that focuses on what great bosses really do. Dr. Sutton reveals new insights that he's learned since the writing of Good Boss, Bad Boss. Sutton adds revelatory thoughts about such legendary bosses as Ed Catmull, Steve Jobs, A.G. Lafley, and many more, and how you can implement their techniques. If you are a boss who wants to do great work, what can you do about it? Good Boss, Bad Boss is devoted to answering that question. Stanford Professor Robert Sutton weaves together the best psychological and management research with compelling stories and cases to reveal the mindset and moves of the best (and worst) bosses. This book was inspired by the deluge of emails, research, phone calls, and conversations that Dr. Sutton experienced after publishing his blockbuster bestseller The No Asshole Rule. He realized that most of these stories and studies swirled around a central figure in every workplace: THE BOSS. These heart-breaking, inspiring, and sometimes funny stories taught Sutton that most bosses - and their followers - wanted a lot more than just a jerk-free workplace. They aspired to become (or work for) an all-around great boss, somebody with the skill and grit to inspire superior work, commitment, and dignity among their charges. As Dr. Sutton digs into the nitty-gritty of what the best (and worst) bosses do, a theme runs throughout Good Boss, Bad Boss - which brings together the diverse lessons and is a hallmark of great bosses: They work doggedly to stay in tune with how their followers (and superiors, peers, and customers too) react to what they say and do. The best bosses are acutely aware that their success depends on having the self-awareness to control their moods and moves, to accurately interpret their impact on others, and to make adjustments on the fly that continuously spark effort, dignity, and pride among their people.

Scars and Stripes Tim Kennedy,Nick Palmisciano,2024-01-09 From decorated Green Beret sniper, UFC headliner, and all around badass, Tim Kennedy, a rollicking, inspirational memoir offering lessons in how to embrace failure and weather storms, in order to unlock the strongest version of yourself. Tim Kennedy has a problem; he only feels alive right before he's about to die. Kennedy, a Green Beret, decorated Army sniper, and UFC headliner, has tackled a bull with his bare hands, jumped out of airplanes, dove to the depths of the ocean, and traveled the world hunting poachers, human traffickers, and the Taliban. But he's also the same man who got kicked out of the police department, fire department, and as an EMT, before getting two women pregnant four days apart, and finally, been beaten up by his Special Forces colleagues for, quite simply, being a selfish asshole. In Scars and Stripes, Kennedy describes how these failures shaped him into the successful businessman and devoted husband and father he is today. Through unbelievably vivid, wild anecdotes Kennedy reveals all the dumb, violent, embarrassing, and undeniably heroic things he's done in his life, including multiple combat missions in Afghanistan, building a school in Texas for elementary kids, and creating two-multimillion-dollar businesses. You will learn that failure isn't the end-rather it's the first step towards unearthing the best version of yourself and finding success, no matter how overwhelming the setbacks may feel--

The Leisure Commons Payal Arora,2014-06-27 There is much excitement about Web 2.0 as an unprecedented, novel, community-building space for experiencing, producing, and consuming leisure, particularly through social network sites. What is needed is a perspective that is invested in neither a utopian or dystopian posture but sees historical continuity to this cyberleisure geography. This book investigates the digital public sphere by drawing parallels to another leisure space that shares its rhetoric of being open, democratic, and free for all: the urban park. It makes the case that the history and politics of public parks as an urban commons provides fresh insight into contemporary debates on corporatization, democratization and privatization of the digital commons. This book takes the reader on a metaphorical journey through multiple forms of public parks such as Protest Parks, Walled Gardens, Corporate Parks, Fantasy Parks, and Global Parks, addressing issues such as virtual activism, online privacy/surveillance, digital labor, branding, and globalization of digital networks. Ranging from the 19th century British factory garden to Tokyo Disneyland, this book offers numerous spatial metaphors to bring to life aspects of new media spaces. Readers looking for an interdisciplinary, historical and spatial approach to staid Web 2.0 discourses will undoubtedly benefit from this text.
