Innovative Learning Environments in STEM Higher Education Jungwoo Ryoo, Kurt Winkelmann, 2021-03-11 As explored in this open access book, higher education in STEM fields is influenced by many factors, including education research, government and school policies, financial considerations, technology limitations, and acceptance of innovations by faculty and students. In 2018, Drs. Ryoo and Winkelmann explored the opportunities, challenges, and future research initiatives of innovative learning environments (ILEs) in higher education STEM disciplines in their pioneering project: eXploring the Future of Innovative Learning Environments (X-FILES). Workshop participants evaluated four main ILE categories: personalized and adaptive learning, multimodal learning formats, cross/extended reality (XR), and artificial intelligence (AI) and machine learning (ML). This open access book gathers the perspectives expressed during the X-FILES workshop and its follow-up activities. It is designed to help inform education policy makers, researchers, developers, and practitioners about the adoption and implementation of ILEs in higher education.

Trap Door Reina Gossett, Eric A. Stanley, Johanna Burton, 2017-12-15 Essays, conversations, and archival investigations explore the paradoxes, limitations, and social ramifications of trans representation within contemporary culture. The increasing representation of trans identity throughout art and popular culture in recent years has been nothing if not paradoxical. Trans visibility is touted as a sign of a liberal society, but it has coincided with a political moment marked both by heightened violence against trans people (especially trans women of color) and by the suppression of trans rights under civil law. *Trap Door* grapples with these contradictions. The essays,

conversations, and dossiers gathered here delve into themes as wide-ranging yet interconnected as beauty, performativity, activism, and police brutality. Collectively, they attest to how trans people are frequently offered “doors”—entrances to visibility and recognition—that are actually “traps,” accommodating trans bodies and communities only insofar as they cooperate with dominant norms. The volume speculates about a third term, perhaps uniquely suited for our time: the trapdoor, neither entrance nor exit, but a secret passageway leading elsewhere. *Trap Door* begins a conversation that extends through and beyond trans culture, showing how these issues have relevance for anyone invested in the ethics of visual culture. Web Search: Public Searching of the Web Amanda Spink, Bernard J. Jansen, 2004-07-21 *Web Search: Public Searching of the Web*, co-authored by Drs. Amanda Spink and Bernard J. Jansen, is one of the first manuscripts that address the human - system interaction of Web searching in a thorough and complete manner. The authors provide an examination of Web searching from multiple levels of analysis, from theoretical overview to detailed study of term usage, and integrate these different levels of analysis into a coherent picture of how people locate information on the

Web using search engines. Drawing primarily on their own research and work in the field, the authors present the temporal changes in, the growth of, and the stability of how people interact with Web search engines. Drs. Spink and Jansen present results from an analysis of multiple search engine data sets over a six year period, giving a firsthand account of the emergence of Web searching. They also compare and contrast their findings to the results of other researchers in the field, providing a valuable bibliographic resource. This research is directly relevant to those interested in providing information or services on the Web, along with those who research and study the Web as an information resource. Graduate students, academic and corporate researchers, search engine designers, information architects, and search engine optimizers will find the book of particular benefit.

Repairing Jefferson's American: A Guide to Civility and Enlightened Citizenship Clay S. Jenkinson, 2020-06 Thomas Jefferson (1743-1826) was the greatest idealist of the Founding Fathers of America. He believed that average citizens are up to the challenge of governing themselves. He envisioned a republic of well-educated, well-informed, engaged, and vigilant citizens. Jefferson's dream of a semi-

utopian American republic has nearly been swallowed up by cynical partisanship, government gridlock, consumer materialism, and the corrosive power of money in American politics. Jefferson believed in civility, majority rule, the primacy of science and reason, and harmony in all of our public and private relations. Public humanities scholar Clay S. Jenkinson believes we can return to Jeffersonian principles both in our private lives and the public sphere. Repairing Jefferson's America is a clear and concise guide for those who wish to live more rational, purposeful, and enlightened lives.

Twelve Years a Slave Solomon Northup, 2024-01-04
Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes

his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Doc Vincent Mallozzi, 2009-10-08 The definitive biography of basketball genius Julius Erving--the icon who transcended his sport and defined an era Julius Erving, aka Dr. J, was a wizard with the basketball, performing feats the world had never seen before: midair spins and whirls

punctuated by powerful slam dunks, which he was the first to glamorize. In a career that lasted from the 1970s well into the 1980s, he was one of the first players to make extemporaneous individual expression an integral part of the game, setting the style of play that has prevailed ever since. He's also long been respected as a gracious, dignified, and disciplined man. As there are great men of history, there are great men of sports, and Dr. J is just such a man. This book tells Dr. J's amazing story, following his basketball journey from his Long Island childhood to the street games of New York City to a college career as his skills, reputation, and character grew. It follows his entrance into the ABA, where he revolutionized the game by glamorizing the dunk, and his conquering of the NBA, where he was Michael Jordan before there was a Jordan. It relates the family struggles he's had since leaving the game and charts the transformation of the man into myth. The first complete biography of one of the greatest and most popular basketball players of all time Draws on interviews with Dr. J's childhood friends and his family to teammates and coaches at all levels Written by a New York Times sports journalist and author of Asphalt Gods: An Oral History of the Rucker Tournament Includes Erving's years as a player with the Virginia Squires, New York Nets, and Philadelphia 76ers Read Doc and follow the incredible journey of the basketball genius who elevated the game off the hardwood and helped make it America's passion.
