Gibraltar International Monetary Fund, 2007-05-21 Gibraltar's Detailed Assessment Report on Anti-Money Laundering (AML) and Combating the Financing of Terrorism is reviewed. The principal AML risk to Gibraltar is lodged in its professional sector, which is likely to be involved in the layering and integration of proceeds of crime. There is also some risk to Gibraltar at the placement stage, in connection with drug trafficking, migrant smuggling, and organized crime in southern Spain. The Financial Services Commission in Gibraltar has established a strong, risk-based framework for financial institutions for AML.

The Sugarless Plum Zippora Karz, 2011-02-01 It started as the perfect story. Zippora Karz was a member of the famed New York City Ballet by the age of eighteen. By twenty she was starring as the Sugar Plum Fairy in The Nutcracker, dancing roles created by Jerome Robbins, and traveling the world. It was the stuff dreams are made of until, at age twenty-one, Karz was diagnosed with diabetes. Balancing ballet and her blood sugar would be a long and difficult struggle for Karz. In The Sugarless Plum, Karz shares her journey from denial, shame and miseducation about her illness to how she led an active, balanced and satisfying life as an insulin-dependent diabetic and soloist with one of the world's most famous ballet companies. The Sugarless Plum takes readers deep into the heart and soul of a young dancer, and is a remarkable testament to determination and perseverance.

Political Economy Perspectives on the Greek Crisis Ioannis Bournakis,Christopher Tsoukis,Dimitris K. Christopoulos,Theodore Palivos,2017-11-27 This book offers a comprehensive guide to the on-going Greek debt crisis. It identifies and explains Greece's idiosyncratic weaknesses, and highlights the existing rigidities in the EU architecture that make the recovery prospects of the Greek economy challenging. Chapters from expert contributors highlight aspects of the performance of the Greek economy with focus on export performance, labour market conditions, political cycles and regional income disparities. The book then goes on to outline the banking system in Greece in the post-crisis era, and includes analysis that explains how the credit rating score affected Greece's borrowing capacity prior to the start of the insolvency crisis. The final part analyses and compares alternative scenarios of fiscal consolidation, seeking to identify

whether there are alternatives to fiscal austerity and the impact of each one of them. This section also clarifies various misconceptions about the significant determinants of international competitiveness. Despite the focus of the book, the lessons drawn from the chapters are not limited to Greece. This volume will be of interest to academics, practitioners and policy makers who wish to take a closer look at the Greek debt crisis and learn more about the challenges the Greek economy is currently facing.
