Introduction to Information Retrieval Christopher D. Manning,Prabhakar Raghavan,Hinrich Schütze,2008-07-07 Class-tested and coherent, this textbook teaches classical and web information retrieval, including web search and the related areas of text classification and text clustering from basic concepts. It gives an up-to-date treatment of all aspects of the design and implementation of systems for gathering, indexing, and searching documents; methods for evaluating systems; and an introduction to the use of machine learning methods on text collections. All the important ideas are explained using examples and figures, making it perfect for introductory courses in information retrieval for advanced undergraduates and graduate students in computer science. Based on feedback from extensive classroom experience, the book has been carefully structured in order to make teaching more natural and effective. Slides and additional exercises (with solutions for lecturers) are also available through the book's supporting website to help course instructors prepare their lectures.

It Comes from the People Mary Ann Hinsdale, Helen Matthews Lewis, S. Maxine Waller, 1995 The closing of local mines and factories collapsed the economic and social structure of Ivanhoe, Virginia, a small, rural town once considered a dying community on the rough side of the mountain. Documenting the creative survival techniques developed by Ivanhoe citizens in the aftermath, *It Comes from the People* tells how this community organized to revitalize the town and demand participation in its future. Photos, interviews, stories, songs, poems, and scenes from a local theater production tell how this process of rebuilding gradually uncovered the community's own local theology and a growing consciousness of cultural and religious values. A significant aspect of this social transformation in Ivanhoe, as in many rural areas, was the emergence of women as leaders, educators, and organizers, developing new approaches to revive the economy and the people simultaneously. This book is unusually open about the difficult process faced by outside researchers working with community members to describe community life. It discusses the inherent dilemmas frankly and presents a model for those who engage in community studies and ethnographic research. Author note: Mary Ann Hinsdale is Associate Professor of Religious Studies at Boston College. Helen M. Lewis is Interim Director of the Appalachian Center at Berea College in Kentucky. S. Maxine Waller is President of the Ivanhoe Civic League and directs community-based student volunteer programs in Virginia.
