Neo-Noir as Post-Classical Hollywood Cinema Robert Arnett, 2020-08-31 Neo-Noir as Post-Classical Hollywood Cinema suggests the terms "noir" and "neo-noir" have been rendered almost meaningless by overuse. The book seeks to re-establish a purpose for neo-noir films and re-consider the organization of 60 years of neo-noir films. Using the notion of post-classical, the book establishes how neo-noir breaks into many movements, some based on time and others based on thematic similarities. The combined movements then form a mosaic of neo-noir. The time-based movements examine Transitional Noir (1960s-early 1970s), Hollywood Renaissance Noir in the 1970s, Eighties Noir, Nineties Noir, and Digital Noir of the 2000s. The thematic movements explore Nostalgia Noir, Hybrid Noir, and Remake and Homage Noir. Academics as well as film buffs will find this book appealing as it deconstructs popular films and places them within new contexts.

Russian Neo-Kantianism Thomas Nemeth, 2022-03-07 This, the first in-depth and comprehensive book-length study of the Russian neo-Kantian movement in English language, challenges the assumption of the isolation of neo-Kantianism to Germany. The present investigation demonstrates that neo-Kantianism had an international dimension by showing the emergence of a parallel movement in Imperial Russia spanning its emergence in the late 19th century to its gradual dissolution in the aftermath of the Bolshevik Revolution. The author presents a systematic portrait of the development of Russian neo-Kantianism starting with its rise as a philosophy of science. However, it was with the stream of young students returning to Imperial Russia after a period of study at German universities that the movement accelerated. More often than not, these enthusiastic, young philosophers returned home imbued with the neo-Kantianism of their respective but divergent host institutions. As a result, clashes were inevitable concerning the proper approach to philosophical issues as well as the very understanding of Kant's philosophy and his legacy for contemporary thought. In the end, the broad promise of a Western-oriented neo-Kantianism could not withstand the pressures it confronted on all sides.

Advances in Multimedia Modeling Tat-Jen Cham, Jianfei Cai, Chitra Dorai, Deepu Rajan, Tat-Seng Chua, Liang-Tien Chia, 2007-07-05 The two volume set LNCS 4351 and LNCS 4352 constitutes the refereed proceedings of the 13th International Multimedia Modeling Conference, MMM 2007, held in Singapore in January 2007. Based on rigorous reviewing, the program committee selected 123 carefully revised full papers of the main technical sessions and 33 revised full papers of four special sessions from a total of 392 submissions for presentation in two volumes.

The Oxford Handbook of Neo-Latin Stefan Tilg, Sarah Knight, 2015 From the dawn of the early modern period around 1400 until the eighteenth century,

Latin was still the European language and its influence extended as far as Asia and the Americas. At the same time, the production of Latin writing exploded thanks to book printing and new literary and cultural dynamics. Latin also entered into a complex interplay with the rising vernacular languages. This Handbook gives an accessible survey of the main genres, contexts, and regions of Neo-Latin, as we have come to call Latin writing composed in the wake of Petrarch (1304-74). Its emphasis is on the period of Neo-Latin's greatest cultural relevance, from the fifteenth to the eighteenth centuries. Its chapters, written by specialists in the field, present individual methodologies and focuses while retaining an introductory character. The Handbook will be valuable to all readers wanting to orientate themselves in the immense ocean of Neo-Latin literature and culture. It will be particularly helpful for those working on early modern languages and literatures as well as to classicists working on the culture of ancient Rome, its early modern reception and the shifting characteristics of post-classical Latin language and literature. Political, social, cultural and intellectual historians will find much relevant material in the Handbook, and it will provide a rich range of material to scholars researching the history of their respective geographical areas of interest.

A Guide to Neo-Latin Literature Victoria Moul, 2017-01-16 Latin was for many centuries the common literary language of Europe, and Latin literature of immense range, stylistic power and social and political significance was produced throughout Europe and beyond from the time of Petrarch (c.1400) well into the eighteenth century. This is the first available work devoted specifically to the enormous wealth and variety of neo-Latin literature, and offers both essential background to the understanding of this material and sixteen chapters by leading scholars which are devoted to individual forms. Each contributor relates a wide range of fascinating but now little-known texts to the handful of more familiar Latin works of the period, such as Thomas More's *Utopia*, Milton's Latin poetry and the works of Petrarch and Erasmus. All Latin is translated throughout the volume.

Neo-Industrial Organising Eskil Ekstedt, Rolf A. Lundin, Anders Soderholm, Hans Wirderius, 2003-09-02 *Neo-Industrial Organising* explores an emerging area of importance in management and organisation studies, namely the trend towards a projectization of the economy as a whole and the inter- and intra-organisational relations of renewal projects. By reporting on the experiences of twenty-five renewal projects from a wide variety of both local and international organisations, the authors develop a theoretical framework based on action and knowledge, in order to answer such key questions as: What is neo-industrial management? What does the future hold for organisations? How will institutions be formed? What effects will neo-industrial organising have on the individual and his/her work situation? Topics covered include: * industrial renewal, organisation and management * project management and temporary organisation * personnel recruitment, selection and training * societal infrastructure Distinctive, relevant and accessibly written, this book will interest researchers and students in the field of organisational behaviour.

The Genesis of Neo-Kantianism, 1796-1880 Frederick C. Beiser, 2014-11-27
Frederick C. Beiser tells the story of the emergence of neo-Kantianism from the late 1790s until the 1880s. He focuses on neo-Kantianism before official or familiar neo-Kantianism, i.e., before the formation of the various schools of neo-Kantianism in the 1880s and 1890s (which included the Marburg school, the Southwestern school, and the Göttingen school). Beiser argues that the source of neo-Kantianism lies in three crucial but neglected figures: Jakob Friedrich Fries,

Defending Planet Earth National Research Council, Division on Engineering and Physical Sciences, Aeronautics and Space Engineering Board, Space Studies Board, Committee to Review Near-Earth-Object Surveys and Hazard Mitigation Strategies, 2010-07-21
The United States spends approximately \$4 million each year searching for near-Earth objects (NEOs). The objective is to detect those that may collide with Earth. The majority of this funding supports the operation of several observatories that scan the sky searching for NEOs. This, however, is insufficient in detecting the majority of NEOs that may present a tangible threat to humanity. A significantly smaller amount of funding supports ways to protect the Earth from such a potential collision or mitigation. In 2005, a Congressional mandate called for NASA to detect 90 percent of NEOs with diameters of 140 meters or greater by 2020. Defending Planet Earth: Near-Earth Object Surveys and Hazard Mitigation Strategies identifies the need for detection of objects as small as 30 to 50 meters as these can be highly destructive. The book explores four main types of mitigation including civil defense, slow push or pull methods, kinetic impactors and nuclear explosions. It also asserts that responding effectively to hazards posed by NEOs requires national and international cooperation. Defending Planet Earth: Near-Earth Object Surveys and Hazard Mitigation Strategies is a useful guide for scientists, astronomers, policy makers and engineers.

Hybrid Intelligent Systems Ajith Abraham, Tzung-Pei Hong, Ketan Kotecha, Kun Ma, Pooja Manghirmalani Mishra, Niketa Gandhi, 2023-05-24
This book highlights the recent research on hybrid intelligent systems and their various practical applications. It presents 97 selected papers from the 22nd International Conference on Hybrid Intelligent Systems (HIS 2022) and 26 papers from the 18th International Conference on Information Assurance and Security, which was held online, from 13 to 15 December 2022. A premier conference in the field of artificial intelligence and machine learning applications, HIS-IAS 2022, brought together researchers, engineers and practitioners whose work involves intelligent systems, network security and their applications in industry. Including contributions by authors from over 35 countries, the book offers a valuable reference guide for all researchers, students and practitioners in the fields of Computer Science and Engineering.

New Approaches to Neo-Kantianism Nicolas de Warren, Andrea Staiti, 2015-06-11
After the demise of German Idealism, Neo-Kantianism flourished as the defining philosophical movement of Continental Europe from the 1860s until the Weimar Republic. This collection of new essays by distinguished scholars offers a fresh examination of the many and enduring contributions that Neo-Kantianism has made to a diverse range of philosophical subjects. The essays

discuss classical figures and themes, including the Marburg and Southwestern Schools, Cohen, Cassirer, Rickert, and Natorp's psychology. In addition they examine lesser-known topics, including the Neo-Kantian influence on theory of law, Husserlian phenomenology, Simmel's study of Rembrandt, Cassirer's philosophy of science, Cohen's philosophy of religion in relation to Rawls and Habermas, and Rickert's theory of number. This rich exploration of a major philosophical movement will interest scholars and upper-level students of Kant, twentieth-century philosophy, continental philosophy, sociology, and psychology.

Neo-Confucianism Stephen C. Angle, Justin Tiwald, 2017-03-27 Neo-Confucianism is a philosophically sophisticated tradition weaving classical Confucianism together with themes from Buddhism and Daoism. It began in China around the eleventh century CE, played a leading role in East Asian cultures over the last millennium, and has had a profound influence on modern Chinese society. Based on the latest scholarship but presented in accessible language, *Neo-Confucianism: A Philosophical Introduction* is organized around themes that are central in Neo-Confucian philosophy, including the structure of the cosmos, human nature, ways of knowing, personal cultivation, and approaches to governance. The authors thus accomplish two things at once: they present the Neo-Confucians in their own, distinctive terms; and they enable contemporary readers to grasp what is at stake in the great Neo-Confucian debates. This novel structure gives both students and scholars in philosophy, religion, history, and cultural studies a new window into one of the world's most important philosophical traditions.

Neo's Realm: A Box Set Carol Lynne, 2019-12-10 Liquid Crimson Neo Manos, son of Zeus, was to become King of the Realm, governing the Blessed Creatures that roamed the earth. Everything changed when Neo was kidnapped and tortured for over four hundred years at the hands of a vampire. After being turned into one of the monsters he'd come to despise, Neo refused to take his rightful place as king. How could he fairly govern the Realm if he hated what he'd become? In an attempt to make amends to his son, Zeus created a perfect mate for Neo. Michael was everything Neo had ever wanted and everything he knew he didn't deserve. With blood designed only for Neo, Michael quickly becomes the target of Neo's enemies. Soon it will become a daily battle to keep his mate safe and deal with his increasing addiction to the blood flowing from Michael's veins. Blood Trinity For over four hundred years, werewolf mates, Kern and Haig fought and loved side by side. Although they've had a few rocky moments along the way, their love for each other has never wavered. That is, until Kern is kidnapped and forced to mate with the outsider, Audric. Hurt and confused, Haig runs from Neo's Realm and, most especially, Kern. How is Haig supposed to accept another man in his marriage, especially when that man isn't a werewolf at all but a vampire? Centuries spent as the whipping boy to the other vampires in his coven have left Audric hungry for affection. His goal isn't to come between the mated pair of werewolves, but to become part of their family. Unfortunately, his yearning for love and companionship soon threatens to damage that which he desired. Kern hates that his unwilling actions have hurt the only person he's ever loved, but with Haig gone, he's left alone to introduce Audric to a new life on the vineyard. Kern didn't expect to like the puny vampire, but Audric begins to ease his way under Kern's skin. When Haig returns after a two month absence, Kern is afraid his newfound love for Audric might tear apart his

marriage with Haig. Three men, two species, one bed. Is it possible to put aside jealousies and establish a new kind of family or will this forced union destroy everything? Crimson Moon After his capture by a rogue vampire coven, Gunnar, alpha werewolf and head of Neo's Realm security, was viciously turned into a vampire. Although Gunnar was eventually rescued, he refuses to accept the vampiric side of himself. Centuries earlier, Ramiro was also changed against his will, but he's learned to accept himself and make the best of his new life. He knows he has his hands full with Gunnar, but there is something about the confused werevamp that pulls at his once-human side. As head of security for the vampire king, Ramiro has the reputation of being a cold-hearted warrior, but he wasn't always that way. As he continues to coach Gunnar through the transition, he begins to yearn for things he hasn't wanted in centuries, love. Gunnar hates being seen as weak by Ramiro. Never has he allowed someone to take care of him, especially someone he considers an equal in battle. Giving in to his body's desires won't come easy, but Gunnar begins to fear for his own sanity if he continues to push the vampire away. Royal Blood Will Nialo be able to put retribution aside in the name of love, or will his anger and untapped power rip The Realm apart? Spiro Manos ruled over the Realm of Blessed Creatures for centuries in his brother's stead. Time spent solving everyone else's problems helped divert his mind from his own. Bound to a powerful but lost god, Spiro has spent a lifetime alone. Although sexual diversions have kept his body satisfied, his soul has never known the touch of the one lover he was born to satisfy. Betrayed and hunted by his brother, Nialo fought valiantly until his mother, Gaia, hid him away. Forced to live life as a jaguar
