Karin Nielsen-Saines

*Current Issues in Shipping, Ports and Logistics* Theo Notteboom,2011 Bringing together an international network of leading scholars, this multidisciplinary book unravels some of the most pressing challenges to shipping, ports, and logistics. Divided into five parts--shipping, the analysis of flows and networks, terminal operations and performance, logistics, and port development and governance--this record is an essential read for practitioners in the maritime and logistics world, postgraduate students, policy makers, and professional organizations. As market players expand and improve their services in line with increased requirements on rates, reliability, environmental footprint, and safety and security, this compendium encourages further systematic thinking.

**The New Geographies of Energy** Karl S. Zimmerer,2013-09-13 The New Geographies of Energy: Assessment and Analysis of Critical Landscapes is a pioneering collection of new geographic scholarship. It examines such vitally important research topics as energy dilemmas of the United States, large trends and patterns of energy consumption including China's role, peak oil, energy poverty, and ethanol and other renewable energy sourcing. The book offers advances in key emerging areas of energy research, each distinguished in the following sections: (i) geographic approaches to energy modeling and assessment; (ii) fossil fuel landscapes; (iii) the landscapes of renewable energy; (iv) landscapes of energy consumption; and (v) an overview of the new geographies of energy (Karl Zimmerer, Annals Nature-Society and Energy issue editor) and an essay on America's oil dependency (Vaclav Smil, renowned energy geographer). In addition there is a specially commissioned book review. This book was published as a special issue of the Annals of the Association of American Geographers.

The Global Coal Market Mark C. Thurber,Richard K. Morse,2015-07-20 A major study of the modern global coal market and its impacts both on energy markets and on climate policy.
