The Sanctuary of Athena at Sounion Barbara A. Barletta,2017-12-01 The Temple of Athena at Sounion has long been recognized as one of the most unusual buildings in the architectural history of

Greece. Its plan, with columns uniquely on the front and only one side, is unparalleled in the Greek world. Excavations of the temple and other buildings there, however, were complicated by the fact that many architectural pieces from the site had been reused in a Roman temple in the Athenian Agora. Here, Barletta provides a fascinating examination of the early excavations at Sounion, the debate over who was worshipped at the so-called Small Temple within the sanctuary, the varied architectural influences on the Temple of Athena, and the later use of its architectural pieces in the Athenian Agora. Building on unpublished work by William B. Dinsmoor Jr. and Homer A. Thompson, this study represents the first comprehensive view of the temple and its sanctuary.

Prosecuting Slobodan Milošević Nevenka Tromp, 2016-04-14 This book offers a comprehensive analysis of the trial of former Serbian leader Slobodan Milošević at the International Criminal Tribunal

for the former Yugoslavia (ICTY). With the premature death of Milošević in March 2006 his trial was left unfinished. Although the traditional objectives of criminal law, such as retribution, justice for victims, and deterrence, were not achieved, the Milošević trial archive is a significant historical resource for researchers from various fields. This book extracts details from the collection of documentary and transcript evidence that makes up the trial record – sources which would be almost impossible to extricate without an insider’s guiding hand – to allow readers to trace the threads of several historical narratives. The value of this methodology is particularly evident in the Milošević case as, acting as his own defence counsel, he responded to, and interacted with, almost all witnesses and evidence presented against him. By providing snapshots of the behaviour displayed by Milošević in court while conducting his defence, in combination with passages of carefully selected evidence from an immense archive familiar to few scholars, this volume reveals how these trial records, and trial records in general, are a truly invaluable historical source. The book underlines the premise that any record of a mass atrocities trial, whether finished or unfinished, establishes a record of past events, contributes to

interpretations of a historical period and influences the shaping of collective memory. This book will be of much interest to students of the Former Yugoslavia, war crimes, international law, human rights, international relations and European politics.
