Successful Social Networking in Public Libraries Walt Crawford,2014 Most commentaries to date on library use of social networks such as Facebook and Twitter have focused on a handful of well-funded public libraries with high-profile employees. Now Crawford's Successful Social Networking in Public Libraries fills in the rest of the picture, offering for the first time an in-depth look at how a large variety of public libraries are using social networks. Examining nearly 6,000 libraries across the US, Crawford Analyzes social network usage by libraries of many different sizes and funding levels, showing how many of them are active and effective in quite different ways Offers many examples that will help other libraries establish or refine their own social networking activities Lays out several key questions that libraries should ask themselves, such as "Who do we want to reach?" and "What's the best way to interact with communities?" Gives libraries guidelines for setting social networking goals and conducting ongoing evaluation Includes illuminating comments from numerous librarians on the front lines of communication Based on broad research, Crawford draws a vivid portrait that shows how a wide range of public libraries is conducting digital outreach and marketing through social networking.

50 Specialty Libraries of New York City Terry Ballard,2016-01-22 Everyone knows that New York maintains one of the great library systems in the world - the two lions that guard the 42nd street library among the most important icons in the city. Less well known are a host of specialty libraries that have grown up around the rich intellectual and cultural life of New York City. There are a number of libraries that serve genealogical researchers, but also libraries catering to Spanish, German, French and Russian speakers. There is a library of books about dogs and one that is based on the work of Carl Jung. A library in Staten Island checks out tools to homeowners rebuilding after Hurricane Sandy. Fifty Specialty Libraries of New York City will be a tour of highly specialized but publicly accessible libraries in Manhattan and the Outer Boroughs. In each case, access is described, and an interview with the director or supervisor is presented. This book is a unique information source for all those librarians and researchers interested in the rich cultural heritage of New York's libraries. Goes beyond the directory format to give thoughtful commentary and interview material on each library Refers the reader to current information Written by a librarian with 50 years' experience of public, academic, and special libraries, and with a deep feeling for New York Gives an account of 50 speciality libraries of New York City, from small subscription libraries to the UN Library Presents information on libraries that are little-known and widely useful in New York
