Fuel on the Fire Greg Muttitt, 2012-06-12 The departure of the last U.S. troops from Iraq at the end of 2011 left a broken country and a host of unanswered questions. What was the war really about? Why and how did the occupation drag on for nearly nine years, while most Iraqis, Britons, and Americans desperately wanted it to end? And why did the troops have to leave? Now, in a gripping account of the war that dominated U.S. foreign policy over the last decade, investigative journalist Greg Muttitt takes us behind the scenes to answer some of these questions and reveals the heretofore-untold story of the oil politics that played out through the occupation of Iraq. Drawing upon hundreds of unreleased government documents and extensive interviews with senior American, British, and Iraqi officials, Muttitt exposes the plans and preparations that were in place to shape policies in favor of American and British energy interests. We follow him through a labyrinth of clandestine meetings, reneged promises, and abuses of power; we also see how Iraqis struggled for their own say in their future, in spite of their dysfunctional government and rising levels of violence. Through their stories, we begin to see a very different Iraq from the one our politicians have told us about. In light of the Arab revolutions, the war in Libya, and renewed threats against Iran, *Fuel on the Fire* provides a vital guide to the lessons from Iraq and of the global consequences of America's persistent oil addiction.

Middle Egyptian Grammar James E. Hoch, Society for the Study of Egyptian Antiquities, 1997 This is a practical, modern introductory grammar for classroom and self-instruction. Unlike Alan Gardiner's monumental *Egyptian Grammar*, this is not intended as a reference work, and it is designed to be as user-friendly as possible by, for example, presenting simplified forms of genuine texts rather than diving straight into the originals. It is suggested that the 16 lessons be spread over about 30 weeks study. The book is widely used in North American courses.

The Bush Agenda Antonia Juhasz, 2009-10-06 In *The Bush Agenda*, Antonia Juhasz exposes a radical corporate globalization agenda that has been refined by leading members and allies of the Bush administration over decades and reached its fullest, most aggressive implementation under George W. Bush—and Bush Agenda adherents plan for it to outlast him. Juhasz uncovers the history and key role of U.S. corporations in the creation of this agenda—focusing on Bechtel, Lockheed Martin, Chevron, and Halliburton—then presents the Iraq War as its most brutal application to date. Expertly revealing the oil timeline driving the war, Juhasz charts exactly how the administration has fundamentally transformed Iraq's economy, locked in sweeping advantages to its corporate allies, and expanded its target to the whole Middle East. The results of these same corporate globalization policies—dislocation, extreme poverty, and increased violence and terrorism—have been demonstrated in regions from South America to Africa to the Middle East and Asia, and in the United States. Extensively researched and now updated with a new afterword, *The Bush Agenda* is a brilliant,

informative analysis, revealing the hard truths about where the Bush administration and its corporate allies are leading the modern world—and what we can do about it.

The Tale of Sinuhe and Other Ancient Egyptian Poems, 1940-1640 BC, 1998 This anthology contains all the substantial surviving works from the golden age of Ancient Egyptian fictional literature (c.1940-1640 B.C.). Composed by an anonymous author in the form of a funerary autobiography, the Tale tells how the courtier Sinuhe flees Egypt at the death of his king. His adventures bring wealth and happiness, but his failure to find meaningful life abroad is only redeemed by the new king's sympathy, and he finally returns to the security of his homeland. Other works from the Middle Kingdom include a poetic dialogue between a man and his soul on the problem of suffering and death, a teaching about the nature of wisdom which is bitterly spoken by the ghost of the assassinated King Amenemhat I, and a series of light-hearted tales of wonder from the court of the builder of the Great Pyramid.--Jacket.

Deshasheh William Matthew Flinders Petrie, Francis Llewellyn Griffith, 1898

The Iraq War Anthony H. Cordesman, 2003 In April of 2003, a stunned world looked on as the armed forces of the United States and Britain conducted a lightning-fast military campaign against Iraq. Confounding predictions of failure, the Anglo-American victory brought down not just the Iraqi regime, but also much of the conventional wisdom about modern war. But even as U.S. and British forces occupied Basra, Tikrit, and Mosul, the Iraqi nation slipped into anarchy - and new military and security challenges emerged. In this book, respected military analyst Anthony Cordesman provides the first in-depth examination of the key issues swirling around the most significant U.S. war since Vietnam. Finding answers is essential if we are to understand the United States' awesome power and its place in a new age of international terror and regional conflict. Finding answers is also essential if we are to draw the proper lessons and understand the new challenges of conflict termination, peacemaking, and nation building.--BOOK JACKET.

Exploring Thorikos Roald F. Docter, Maud Webster, 2018 Thorikos occupies the coastal northeast of the Lavrion area of Attica, Greece. The ancient town comprised the double-peaked Velatouri hill, which has seen human activity since the Final Neolithic period and been the focus of archaeological research for more than 50 years. This publication serves as a guide to ancient Thorikos, a presentation of ongoing work and a preview of new undertakings. Growing out of a Belgian initiative in the 1960s, the Thorikos Project is today an international program with a wide range of contexts and assemblages under study. Here, members of the international team present themes of current interest and aspects of recent work in a multi-authored collection of texts intended for the general public as well as for specialists [4e de couv.].
