Scientific Americans Susan Branson,2022-01-15 In Scientific Americans, Susan Branson explores the place of science and technology in American efforts to achieve cultural independence from Europe and America's nation building in the early republic and antebellum eras. This engaging tour of scientific education and practices among ordinary citizens charts the development of nationalism and national identity alongside roads, rails, and machines. Scientific Americans shows how informal scientific education provided by almanacs, public lectures, and demonstrations, along with the financial encouragement of early scientific societies, generated an enthusiasm for the application of science and technology to civic, commercial, and domestic improvements. Not only that: Americans were excited, awed, and intrigued with the practicality of inventions. Bringing together scientific research and popular wonder, Branson charts how everything from mechanical clocks to steam engines informed the creation and expansion of the American nation. From the Exhibition of the Industry of All Nations to the fate of the Amistad captives, Scientific Americans shows how the promotion and celebration of discoveries, inventions, and technologies articulated Americans' earliest ambitions, as well as prejudices, throughout the first American century.

Out of the Pocket Kirk Herbstreit,2022-08-02 This powerfully intimate, plain-spoken memoir about fathers and sons, fortitude, and football from the face and voice of college football—Kirk Herbstreit—is not just “a window into the game, but also a peek into what makes him special: his heart” (David Shaw, head coach, Stanford University). Kirk Herbstreit is a reflection of the sport he loves, a reflection of his football-crazed home state of Ohio, where he was a high school star and Ohio State captain, and a reflection of another Ohio State football captain thirty-two years earlier: his dad Jim, who battled Alzheimer’s disease until his death in 2016. In Out of the Pocket, Herbstreit does what his father did for him: takes you inside the locker rooms, to the practice fields, to the meeting rooms, to the stadiums. Herbstreit describes how a combination of hard work, perseverance, and a little luck landed him on the set of ESPN’s iconic College GameDay show, surrounded by tens of thousands of fans who treat their Saturdays like a football Mardi Gras. He takes you into the television production meetings, on to the GameDay set, and into the broadcast booth. You’ll live his life during a football season, see the things he sees, experience every chaotic twist and turn as the year unfolds. Not to mention the relationships he’s established and the insights he’s learned from the likes of coaches and players such as Nick Saban, Tim Tebow, Dabo Swinney, and Peyton Manning, as well as his colleagues, including Chris Fowler, Rece Davis, and his “second dad,” the beloved Coach Lee Corso. Yes, Kirk Herbstreit is the undeniable face and voice of college football—but he’s also a survivor. He’s the quiet kid who withstood the

collapse of his parents’ marriage. The boy who endured too many overbearing stepdads and stepmoms. The painfully shy student who always chose the last desk in the last row of the classroom. The young man who persevered through a frustrating Ohio State playing career. The new college graduate who turned down a lucrative sales job after college to pursue a “no way you’ll make it” dream career in broadcasting. Inspiring and powerful, Out of the Pocket “proves the importance of perseverance and family” (Peyton Manning).
