Helmut Schneider

Tiger Battalion 507 Helmut Schneider,2020-08-05 'May the army of millions of dead of all nations bear witness to humanity for the hope that future generations may learn to discard war as the best way to resolve their differences.' - Helmut Schneider This is the little-known story of Heavy Panzer (Tiger) Battalion 507 told through the recollections of the men who fought with the unit. The book was conceived during a reunion of the '507' at Rohrdorf in 1982, where it was agreed to set up an editorial committee under Helmut Schneider, himself a veteran of the battalion, to search for as many survivors of the unit as possible and gather their reminiscences. The resulting account is a treasure trove of first-hand material, from personal memories, diary entries and letters to leave passes, wartime newspaper cuttings, Wehrmacht bulletins and more than 160 photographs. The account follows the unit from its formation in 1943 and the catastrophic events on the Eastern Front, through battles on the Western Front and engagements against the American 3rd Armoured Division to the confusion of retreat, panic-stricken flight and Soviet captivity in the closing stages of the war. Honest and unflinching, this remarkable collection of autobiographies offers a glimpse into life in Hitler's panzer division and is a stark testimony of a generation that sacrificed its best years to the war. This is the first English-language translation of the work.

Routledge Library Editions: Wyndham Lewis Various Authors,2022-07-30 The 3 volumes in this set, originally published between 1963 and 1980 include the first biography of Wyndham Lewis (1882 - 1957) by the award winning biographer, Jeffrey Meyers, and 2 volumes edited by personal friends of Wyndham Lewis which give a unique insight into the man, his output and his concern with the conflict between the artist-intellectual and the rest of society. Lewis is arguably one of the major intellectual figures of the 20th Century. Equally talented as a writer and painter, Lewis was innovative and controversial and well-known as the driving force behind Vorticism, the avant-garde movement that flourished in London before the First World War. A versatile painter, Lewis' literary output was prodigious and he mastered a variety of genres – novels, poetry, philosophy, sociology, travel writing, literary and art critic. A leading revolutionary in British painting and a writer of creative genius, Wyndham Lewis also knew personally Augustus John, Ford Madox Ford, James Joyce, Ezra Pound and T. S. Eliot, who called Lewis 'the most fascinating personality of our time'.

New Light From Heaven Jesus Christ, Virgin Mary,2017-01-17 Messages From Heaven About the Future of Our World. Mary, God's Final Preacher, God is always trying to lead man away from self-destruction. He sends his preachers. He sends his teachers. But these are snuffed out. Their words are not listened to and their invitations are rejected. So, finally, he has sent me. I am his final teacher, his final prophet. I am his last opportunity to change the course of history. There is no one behind me, no other message, no other signs than the ones that I will give. When I tell the world that it must listen to me, I am

not speaking from a selfish and arrogant spirit. I am speaking as one who sees the destruction, the hopelessness of mankind if my words are not heeded.

Calendrical Calculations Edward M. Reingold, Nachum Dershowitz, 2018-04-05 An invaluable resource for working programmers, as well as a fount of useful algorithmic tools for computer scientists, astronomers, and other calendar enthusiasts, The Ultimate Edition updates and expands the previous edition to achieve more accurate results and present new calendar variants. The book now includes coverage of Unix dates, Italian time, the Akan, Icelandic, Saudi Arabian Umm al-Qura, and Babylonian calendars. There are also expanded treatments of the observational Islamic and Hebrew calendars and brief discussions of the Samaritan and Nepalese calendars. Several of the astronomical functions have been rewritten to produce more accurate results and to include calculations of moonrise and moonset. The authors frame the calendars of the world in a completely algorithmic form, allowing easy conversion among these calendars and the determination of secular and religious holidays. LISP code for all the algorithms is available in machine-readable form.

Everyday Writing in the Graeco-Roman East Roger S. Bagnall, 2011-01-05 Most of the everyday writing from the ancient world—that is, informal writing not intended for a long life or wide public distribution—has perished. Reinterpreting the silences and blanks of the historical record, leading papyrologist Roger S. Bagnall convincingly argues that ordinary people—from Britain to Egypt to Afghanistan—used writing in their daily lives far more extensively than has been recognized. Marshalling new and little-known evidence, including remarkable graffiti recently discovered in Smyrna, Bagnall presents a fascinating analysis of writing in different segments of society. His book offers a new picture of literacy in the ancient world in which Aramaic rivals Greek and Latin as a great international language, and in which many other local languages develop means of written expression alongside these metropolitan tongues.

The Northern Isles Alexander Fenton, 1997 The Northern Isles stand at a crossroads of North Atlantic Europe, subject to the competing influences of Scandinavia and Scotland. Sandy Fenton's detailed study of the material culture of Orkney and Shetland is combined with thorough linguistic analysis and is based on

years of study and sifting of a mass of detail. Much of the material is new, based on extensive research by the author, on manuscript and other written sources and on knowledge freely imparted by many local inhabitants. It illuminates the complexity of numerous interlocking factors, draws a picture of a fascinating and varied existence and reveals the past not as a static tableau but a process of continuous change. This book recreates the physical environment in which the people lived, their crops and livestock, the harvest of the sea, their houses, the food they ate. These things dominated their lives and form the background which is the key to understanding the character of these fascinating islands. This major work has earned its place as a key contribution to European ethnology and won the Dag Stromback Award of the Royal Gustav Academy, Sweden.

Earthquakes in the Mediterranean and Middle East Nicholas Ambraseys,2009-10-22 This book examines historical evidence from the last 2000 years to analyse earthquakes in the eastern Mediterranean and Middle East. Early chapters review techniques of historical seismology, while the main body of the book comprises a catalogue of more than 4000 earthquakes identified from historical sources. Each event is supported by textual evidence extracted from primary sources and translated into English. Covering southern Rumania, Greece, Turkey, Lebanon, Israel, Egypt, Jordan, Syria, and Iraq, the book documents past seismic events, places them in a broad tectonic framework, and provides essential information for those attempting to prepare for, and mitigate the effects of, future earthquakes and tsunamis in these countries. This volume is an indispensable reference for researchers studying the seismic history of the eastern Mediterranean and Middle East, including archaeologists, historians, earth scientists, engineers and earthquake hazard analysts.
