The Road to East Slope Michael Anthony Fuller, 1990 Su Shi (1037-1101) is the greatest

poet of the Song Dynasty, a man whose writings and image defined some of the enduring central themes of the Chinese cultural tradition. Su Shi was not only the best poet of his time, he was also a government official, a major prose stylist, a noted calligrapher, an avid herbalist, a dabbler in alchemy, and a broadly learned scholar. The author shows how this complex personality was embodied in Su Shi's work and traces the evolution of his poems from juvenilia to the poems written in exile in Huangzhou, where Su settled on a farm at East Slope.

A Resumé of the Heavy Snowfall and Persistent Cold of the Winter of 1968-1969 in the Upper Midwest and the Flood Situation Resulting Therefrom United States. Weather Bureau. Central Region,1969 The past winter was an extraordinary one, weatherwise, for most residents of the Upper Midwest. There were numerous heavy snowstorms in various sections of the area during the winter and more especially within the 75-day period beginning in mid-December and running through February. Some of these heavy snowstorms were widespread. A number of them were accompanied by strong winds and much drifting and blowing of snow resulting in blizzard or near blizzard conditions. Several were interspersed with ice storms in some localities. One of the cumulative effects of the numerous heavy snowstorms, accompanied by persistently below normal temperatures, has been the development of an unusually deep mantle of snow with a very high water content over much of the area. This has resulted in the imminence of severe flooding on many streams in the area of the Upper and Central Midwest as the spring snowmelt period begins to come to the area. The following sections and the accompanying figures and table

point up the nature of the past winter's weather in the Upper Midwest and the seriousness of the flood situation that exists and is even now rapidly unfolding from the snowmelt--
