Statistical Power Analysis for the Behavioral Sciences Jacob Cohen, 2013-05-13 Statistical Power Analysis is a nontechnical guide to power analysis in research planning that provides users of applied statistics with the tools they need for more effective analysis. The Second Edition includes: * a chapter covering power analysis in set correlation and multivariate methods; * a chapter considering effect size, psychometric reliability, and the efficacy of qualifying dependent variables and; * expanded power and sample size tables for multiple regression/correlation.

The Only Language They Understand Nathan Thrall, 2017-05-16 In a myth-busting analysis of the world's most intractable conflict, a star of Middle East reporting argues that only one weapon has yielded progress: confrontation. Scattered over the territory between the Jordan River and the Mediterranean Sea lie the remnants of failed peace proposals, international summits, secret negotiations, UN resolutions and state-building efforts. The conventional story is that these well-meaning attempts at peacemaking were repeatedly thwarted by the use of violence. Through a rich interweaving of reportage, historical narrative and forceful analysis, Nathan Thrall presents a startling counter-history. He shows that Israelis and Palestinians have persistently been marching toward partition, but not through the high politics of diplomacy or the incremental building of a Palestinian state. In fact, negotiation, collaboration and state-building--the prescription of successive American administrations--have paradoxically entrenched the conflict in multiple ways. They have created the illusion that a solution is at hand, lessened Israel's incentives to end its control over the West Bank and Gaza and undermined Palestinian unity. Ultimately, it is those who have embraced confrontation through boycotts, lawsuits, resolutions imposed by outside powers, protests, civil disobedience, and even violence who have brought about the most significant change. Published as Israel's occupation of East Jerusalem, the West Bank, and Gaza reaches its fiftieth year, which is also the centenary of the Balfour Declaration that first promised a Jewish national home in Palestine, *The Only Language They Understand* advances a bold thesis that shatters ingrained positions of both left and right and provides a new and eye-opening understanding of this most vexed of lands.

Discipline and Punish Michel Foucault, 2012-04-18 A brilliant work from the most influential philosopher since Sartre. In this indispensable work, a brilliant thinker suggests that such vaunted reforms as the abolition of torture and the emergence of the modern penitentiary have merely shifted the focus of punishment from the prisoner's body to his soul.

Economics and Preventing Healthcare Acquired Infection Nicholas Graves, Kate Halton, William Jarvis, 2009-06-12 Reasons for Writing This Book The published literature on the economic appraisal of healthcare acquired infection (HAI) is described by phrases such as: "With so many virtues of the cost-benefit approach identified, it is perhaps puzzling why greater use of economic appraisal has not been made in the area of infection control" [1] "Clinicians should partner with economists and policy analysts to expand and improve the economic evidence available" [2] "the quality of economic evaluations should be increased to inform decision makers and clinicians" [3] "The economics of preventing hospital-acquired infections is most often described in general terms. The underlying concepts and mechanisms are rarely made explicit but should be understood for research and policy-making" [4] The aim of this book is to describe how economics should be used to inform decision-making about infection control. Our motivation stems from the previous quotes which show economics is being used within the infection control community, but not to its full potential. Our expectation is that you do not have any formal training in economic analyses. Economic analyses have been used for many decades to argue for increased funding for hospital infection-control. In 1957, Clarke [5]

investigated bed wastage in British hospitals due to *Staphylococcus aureus* in patient's wounds. She concluded "the average length of stay in hospital of patients whose wounds were infected with Staph.

Postwar Tony Judt, 2006-09-05 Finalist for the Pulitzer Prize • Winner of the Council on Foreign Relations Arthur Ross Book Award • One of the New York Times' Ten Best Books of the Year "Impressive . . . Mr. Judt writes with enormous authority." —The Wall Street Journal "Magisterial . . . It is, without a doubt, the most comprehensive, authoritative, and yes, readable postwar history." —The Boston Globe Almost a decade in the making, this much-anticipated grand history of postwar Europe from one of the world's most esteemed historians and intellectuals is a singular achievement. Postwar is the first modern history that covers all of Europe, both east and west, drawing on research in six languages to sweep readers through thirty-four nations and sixty years of political and cultural change—all in one integrated, enthralling narrative. Both intellectually ambitious and compelling to read, thrilling in its scope and delightful in its small details, Postwar is a rare joy. Judt's book, *Ill Fares the Land*, republished in 2021 featuring a new preface by bestselling author of *Between the World and Me* and *The Water Dancer*, Ta-Nehisi Coates.

Understanding Public Policy Paul Cairney,2019-11-08 The fully revised second edition of this textbook offers a comprehensive introduction to theories of public policy and policymaking. The policy process is complex: it contains hundreds of people and organisations from various levels and types of government, from agencies, quasi- and non-governmental organisations, interest groups and the private and voluntary sectors. This book sets out the major concepts and theories that are vital for making sense of the complexity of public policy, and explores how to combine their insights when seeking to explain the policy process. While a wide range of topics are covered – from multi-level governance and punctuated equilibrium theory to 'Multiple Streams' analysis and feminist institutionalism – this engaging text draws out the common themes among the variety of studies considered and tackles three key questions: what is the story of each theory (or multiple theories); what does policy theory tell us about issues like 'evidence based policymaking'; and how 'universal' are policy theories designed in the Global North? This book is the perfect companion for undergraduate and postgraduate students studying public policy, whether focussed on theory, analysis or the policy process, and it is essential reading for all those on MPP or MPM programmes. New to this Edition: - New sections on power, feminist institutionalism, the institutional analysis and development framework, the narrative policy framework, social construction and policy design - A consideration of policy studies in relation to the Global South in an updated concluding chapter - More coverage of policy formulation and tools, the psychology of policymaking and complexity theory - Engaging discussions of punctuated equilibrium, the advocacy coalition framework and multiple streams analysis
