The Making of European Women's Studies Rosi Braidotti,[Anonymus AC03173959],Esther Vonk,2000

What a Treasure! Jane Hillenbrand,2017-01-30 Dig deep with Mole to uncover the best treasures of all in this sweet story.

Hunting for buried treasure, Mole unearths a twig. It's not much use to him, but a bird flying by wants it for a nest. When he discovers a shell, Mole gives it to Snail for a cozy home. Happy to share, Mole keeps digging, and uncovers—another hole, with another little mole in it. A new friend—what a treasure indeed. Brightly colored illustrations enhance this simple story about friendship, sharing, and perseverance, created by husband and wife team Jane and Will Hillenbrand. Perfect for sharing with your own treasured friends, this is an ideal read-aloud for emerging readers.

Thinking Differently Gabrielle Griffin,Rosi Braidotti,Zed Books,2002-10 This book is the first to ask whether there is a specifically European dimension to certain major issues in Women's Studies. It strives to create a synergetic debate among different disciplines and cultural traditions in Europe, and, in doing so, fills some gaps in our knowledge about women and enriches debates hitherto dominated by Anglo-American influences. Among the new areas of enquiry opened up in this book by the specificities of European Women's Studies are: * The fact that Europe has repeatedly experienced warfare on its own territory which has impacted significantly on women. Hence the focus in this volume on women and militarism, and on ethnic cleansing as an attack on the family. * The abidingly problematic relationship between feminism and anti-semitism, and issues of migration and 'whiteness' in a context where racism reflects the colonial histories of particular European countries. * The importance of passion and the emotions, as well as psychoanalytical theory, for politics particularly in Southern and Eastern European countries. * Current problems facing Europe, including the decline of the welfare state, the phenomenon of the 'single' woman, and the relationship between women's rights and human rights. * The diverse faces of feminist movements in particular European countries. Reading feminism from a European perspective will enable readers to reflect upon the ways in which changes in political, social and cultural positions and practices over the past century in Europe have impacted on feminist thinking and theorizing. The volume raises important issues about the transfer of feminist concepts across cultures and languages. And to English-speaking audiences the volume also offers fresh viewpoints on some of the key debates in Women's Studies.

Theories and Methodologies in Postgraduate Feminist Research Rosemarie Buikema,Gabriele Griffin,Nina Lykke,2012-03-29 This volume centers on theories and methodologies for postgraduate feminist researchers engaged in interdisciplinary research. In the context of globalization, this book gives special attention to cutting-edge approaches at the borders between humanities and social sciences and specific discipline-transgressing fields, such as feminist technoscience studies.

Taking Night Ashley Bennion,2015-11-17 It's been a decade since the antidote discovered by Shay Andrews' parents stopped the world's deadliest virus. She was only six, too young to remember it, but its darkness lingers in the daily vitalimin boosters - one red, one yellow - and a yearly vaccine that are strictly enforced by Edict law. For Shay, everything is about to change. A side effect of the yearly burn vax is no one dreams anymore, ever. So when Shay starts dreaming again, she's terrified. And rightly so; if anyone found out, she could be mistaken for an Abstainer and thrown into an internment camp for the rest of her life. What if everything you've been taught is a lie? When her dreams become nightmares, she struggles to navigate between her real life and a chilling dream world

where nothing is as it seems. As everything she's ever known gets thrown upside down she's left facing the toughest question of all: How far will she go to uncover the truth?

Feminist Visual Culture Fiona Carson, Claire Pajackowska, 2016-05-06 Visual culture is all around us: television, dance, film, fashion, painting, sculpture, installation and fine art are only a few of its many faces. Feminist Visual Culture looks at feminist theory, the role of women, and the contribution of women artists to the world of visual culture. This substantial introduction provides an overview of visual culture and of the origins of feminist practice. In the volume's three sections--Fine Art, Design, and Mass Media--the authors discuss the visual media specific to that area, incorporating wider issues such as class, culture, and ethnicity. Each chapter is written by a woman working in a different field of visual culture. A topical and comprehensive introduction, Feminist Visual Culture will be a valuable tool for readers and students in women's studies, visual studies, and media studies.

Doing Gender in Media, Art and Culture Rosemarie Buikema, Liedeke Plate, Iris van der Tuin, Kathrin Thiele, 2009-06-02 Doing Gender in Media, Art and Culture is an introductory text for students specialising in gender studies. The truly interdisciplinary and intergenerational approach bridges the gap between humanities and the social sciences, and it showcases the academic and social context in which gender studies has evolved. Complex contemporary phenomena such as globalisation, neo-liberalism and 'fundamentalism' are addressed that stir up new questions relevant to the study of culture. This vibrant and wide-ranging collection of essays is essential reading for anyone in need of an accessible but sophisticated guide to the very latest issues and concepts within gender studies. 'Doing Gender in Media, Art, and Culture' is an indispensable introduction to third wave feminism and contemporary gender studies. It is international in scope, multidisciplinary in method, and transmedial in coverage. It shows how far feminist theory has come since Simone de Beauvoir's Second Sex and marks out clearly how much still needs to be done.'.....Hayden White, Professor of Historical Studies, Emeritus, University of California, and Professor of Comparative Literature, Stanford University, US

Active Collections Elizabeth Wood, Rainey Tisdale, Trevor Jones, 2017-11-07 In recent years, many museums have implemented sweeping changes in how they engage audiences. However, changes to the field's approaches to collections stewardship have come much more slowly. Active Collections critically examines existing approaches to museum collections and explores practical, yet radical, ways that museums can better manage their collections to actively advance their missions. Approaching the question of modern museum collection stewardship from a position of tough love, the authors argue that the museum field risks being constrained by rigid ways of thinking about objects. Examining the field's relationship to objects, artifacts, and specimens, the volume explores the question of stewardship through the dissection of a broad range of issues, including questions of quality over quantity, emotional attachment, dispassionate cataloging, and cognitive biases in curatorship. The essays look to insights from fields as diverse as forest management, library science, and the psychology of compulsive hoarding, to inform and innovate collection practices. Essay contributions come from both experienced museum professionals and scholars from disciplines as diverse as psychology, education, and history. The result is a critical exploration that makes the book essential reading for museum professionals, as well as those in training.

The First American Frontier Wilma A. Dunaway, 2000-11-09 In The First American Frontier, Wilma Dunaway challenges many

assumptions about the development of preindustrial Southern Appalachia's society and economy. Drawing on data from 215 counties in nine states from 1700 to 1860, she argues that capitalist exchange and production came to the region much earlier than has been previously thought. Her innovative book is the first regional history of antebellum Southern Appalachia and the first study to apply world-systems theory to the development of the American frontier. Dunaway demonstrates that Europeans established significant trade relations with Native Americans in the southern mountains and thereby incorporated the region into the world economy as early as the seventeenth century. In addition to the much-studied fur trade, she explores various other forces of change, including government policy, absentee speculation in the region's natural resources, the emergence of towns, and the influence of local elites. Contrary to the myth of a homogeneous society composed mainly of subsistence homesteaders, Dunaway finds that many Appalachian landowners generated market surpluses by exploiting a large landless labor force, including slaves. In delineating these complexities of economy and labor in the region, Dunaway provides a perceptive critique of Appalachian exceptionalism and development.

Basic Study Manual L. Ron Hubbard, 2004-01-01 An in-depth presentation of Study Technology. Learn the reasons for academic failures, as well as how to identify the barriers to learning and vital remedies for handling each of them. This book can be studied by middle and high school students and adults to improve their ability to use what they study, and also professionals to improve their competence in the workplace. Fully illustrated.

Central Works of Philosophy: The twentieth century: Quine and after John Shand, 2005 Volume 1 gives readers a deep understanding of the contribution that the ancient Greek and medieval philosophers have made to contemporary philosophical debate. From Plato to William of Ockham, the philosophical texts covered offer a remarkable insight into a world out of which our present way of thinking emerged.

Colonialism in Modern America Helen Matthews Lewis, Linda Johnson, Donald Askins, 2017 Colonialism in Modern America is a series of essays exploring the economic and social problems of the region within the context of colonialism. It is a relatively simple task to document the social ills and the environmental ravage that beset the people and land of Appalachia. However, it is far more difficult and problematic to uncover the causes of these tragic conditions.

Putting People in the Picture Naydene De Lange, Claudia Mitchell, Jean Stuart, 2007 Getting the picture, constructing (and deconstructing) the picture, finding the picture, viewing the picture, being in the picture, changing the pictures--these are all phrases that apply to the fascinating world of 'putting people in the picture' in visual research within the Social Sciences. Putting People in the Picture: Visual Methodologies for Social Change focuses on the ways in which researchers, practitioners and activists are using such techniques as photo voice, collaborative video, drawings and other visual and arts-based tools as modes of inquiry, as modes of representation and as modes of disseminating findings in social research. The various chapters address methodological, analytical, interpretive, aesthetic, technical and ethical concerns in using visual methodologies in work with young people, teachers, community health care workers--and even the self-as-researcher. The range of issues addressed in the work is broad, and includes work in the areas of HIV & AIDS, schooling, poverty, gender violence, race, and children's visions for the future. While the studies are situated within a variety of social contexts, the focus is primarily on work in Southern Africa. The book takes up some of the theoretical and

practical challenges offered by Visual Sociology, Image-based Research, Media Studies, Rural Development, and Community-based and Participatory Research, and in so doing offers audiences an array of visual approaches to studying and bringing about social change.

Dorie Florence Cope Bush, 1992 Dorie's story begins with her childhood on an isolated mountain farm, where we see first-hand how her parents combined back-breaking labor with intense personal pride to produce everything their family needed--from food and clothing to tools and toys--from the land. Lumber companies began to invade the mountains, and Dorie's family took advantage of the financial opportunities offered by the lumber industry, not realizing that in giving up their lands they were also letting go of a way of life. Along with their machinery, the lumber companies brought in many young men, one of whom, Fred Cope, became Dorie's husband. After the lumber companies stripped the mountains of their timber, outsiders set the area aside as a national park, requiring Dorie, now married with a family of her own, to move outside of her beloved mountains.

The Appalachians Mari-Lynn Evans, Holly George-Warren, Robert Santelli, 2012-11 A beautifully produced companion volume to the public television documentary The Appalachians fills the void in information about the region, offering a rich portrait of its history and its legacy in music, literature, and film. The text includes essays by some of Appalachia's most respected scholars and journalists; excerpts from never-before-published diaries and journals; firsthand recollections from native Appalachians including Loretta Lynn, Ricky Skaggs, and Ralph Stanley; indigenous song lyrics and poetry; and oral histories from common folk whose roots run strong and deep. The book also includes more than one hundred illustrations, both archival and newly created. Here is a wondrous book celebrating a unique and valuable heritage.
