The Nexus Vision Carlos Andromeda,2023-09-08 To the Stargazer, the Maverick, the Dreamer, and the Doer. In an age where screens flash with endless feeds and algorithms dictate our desires, comes a tome that invites you to pause, to think, and to transcend. For those who've ever gazed at the stars and wondered what's beyond, The Nexus Vision is your telescope to the future-a future shaped by pioneers who dared to ask what if? and then pursued the answer with relentless vigor. Encounter Kurzweil, who defies linearity, forecasting an era where growth isn't just progressive-it's exponential. Journey with Silva, who in a digital storm, seeks the sanctuary of human wonder, reminding us of our organic roots even as we evolve. Delve into Schmachtenberger's profound inquiries, crafting societies that are not just sustainable but symbiotic. Stand beside Musk, a titan not of industry, but of imagination, whose dreams often bear tangible, revolutionary fruits. And walk the path with Robbins, who asserts that in an age of AI and quantum leaps, the most profound journey remains inward. These five visionaries aren't just architects of tomorrow; they're the compasses for our own odysseys. Here, theories aren't cold and distant; they are living, breathing manifestos that confront, challenge, and catalyze. The pages aren't filled with predictions; they're saturated with promises of what we can co-create. As you hold this book, feel its weight-a blend of ink, paper, and possibility. The Nexus Vision is more than a read. It's an awakening. It asks not just for your attention, but for your aspiration. ****Dare to transcend.**** Because the future isn't something that just happens-it's something we craft together.

Russian-Speakers in Post-Soviet Latvia Ammon Cheskin,2016-01-18 The political shocks of the 2014 Ukrainian crisis have been felt in many former Soviet countries, not least Latvia, where over 35 per cent of the population are native Russian speakers. At a time when analysts and commentators are unsure about Russia's future plans to intervene on behalf of their 'compatriots', this study provides a detailed political and cultural analysis of Russian-speaking identity in Latvia. By using Russian-speakers in Latvia as a specific case study, this volume also offers a fresh methodological approach to the study of discourses and discursive strategies. It outlines a coherent methodology to study the evolution of discourses over time, rather than a single de-contextualised and static time period. Drawing on media analysis, elite interviews, focus groups and survey data, this

volume situates the identity strategies of Russian speakers within the transformations of the post-Soviet era. By assessing political, cultural and economic links with their home state (Latvia) and their potential kin-state (Russia), it offers important insights into the complex identity positions of Latvia's Russian speakers, and how these positions have evolved in Latvia since the late Soviet period. At a historical moment when many will question the loyalty of Russian speakers to their various 'host states', this book provides a timely, scholarly account of ethnic politics in Latvia. It also offers a methodological framework that allows for the mapping of trends in discursive strategies, exploring how they evolve through time.

Nexus - Middleware for Decentralized Service-Oriented Information Fusion ,2006 We present Nexus a robust and scalable middleware for decentralized service-oriented information fusion. As a project in the UK Ministry of Defense, Defense Technology Center, Nexus is driven by the goals of Network Enabled Capability (NEC). It provides support for discovering, structuring and fusing information key operations enabling the NEC vision. It is built on top of three key concepts--- service oriented computing based on web services, a peer-to-peer architecture and goal-oriented automatic service composition. Combining these three concepts, Nexus delivers agile information fusion capability via a loosely collaborating set of information and fusion services deployed in the service network. Although no strict restrictions are imposed, the fusion services are supposed to provide a higher-level fusion capability on the level 2 and 3 of the JDL data fusion hierarchy [12]. Implementation of peer-to-peer service oriented information fusion based on JXTA and web services is described, together with a demonstration application exploiting these fusion capabilities to support an emergency response scenario.

Mobilizing Mutations Daniel Navon,2019-09-20 With every passing year, more and more people learn that they or their young or unborn child carries a genetic mutation. But what does this mean for the way we understand a person? Today, genetic mutations are being used to diagnose novel conditions like the XYY, Fragile X, NGLY1 mutation, and 22q11.2 Deletion syndromes, carving out rich new categories of human disease and difference. Daniel Navon calls this form of categorization “genomic designation,” and in Mobilizing Mutations he shows how mutations, and the social factors that surround them, are reshaping human classification. Drawing on a wealth of fieldwork and historical material, Navon presents a sociological account of the ways genetic mutations have been mobilized and transformed in the sixty years since it became possible to see abnormal human genomes, providing a new vista onto the myriad ways contemporary genetic testing can transform people’s lives. Taking us inside these shifting worlds of research and advocacy over the last half century, Navon reveals the ways in which knowledge about genetic mutations can redefine what it means to be ill, different, and ultimately, human.

Buddhism, Meditation, and Free Will Rick Repetti,2018-07-17 Traditionally, Buddhist philosophy has seemingly rejected the autonomous self. In Western philosophy, free will and the philosophy of action are established areas of research. This book presents a comprehensive analytical review of extant scholarship on perspectives on free will. It studies and refutes the most powerful Western and Buddhist philosophical objections to free will and explores the possibility that a form of agency may in fact exist within Buddhism. Providing a detailed explanation of how Buddhist meditation increases self-regulative mind-control abilities, the author argues that the Buddhist path is designed to produce meditation virtuosos exhibiting mind-control abilities far exceeding the free-will advocate’s ability to ‘do otherwise’ or have their choices be ‘up to’ them. Based on the empirically-supported mind-control cultivated by these meditation virtuosos, the book proposes the principle of, ‘Buddhist Soft Compatibilism’, a theory of ‘freedom of the mind’ that entails freedoms of the will, attention, emotion and action, compatible with both determinism and indeterminism. Buddhism, Meditation and Free Will will be of interest to Buddhist and Western philosophers and academics interested in comparative philosophy, free will, philosophy of action, metaphysics, ethics and Religious Studies.

In Our Own Image Wesley J. Wildman,2017 Annotation This study provides a comprehensive systematic classification, comparison and evaluation of the major classes of theories of ultimate reality. It offers compelling analyses of anthropomorphism and apophaticism, including tracing multiple dimensions of anthropomorphism in various models of ultimate reality.

Baptism and Christian Identity Gordon S. Mikoski,2009-07-02 In this book Gordon Mikoski examines how the sacrament of baptism, the doctrine of the Trinity, and the practice of Christian education together constitute a dynamic nexus that has the potential to foster congregations marked by the formation of both deep Christian identity and creative engagement in public arenas for the common good. / After establishing the necessity of holding baptism, Trinity, and ecclesial pedagogy together through his careful study of both Gregory of Nyssa and John Calvin, Mikoski outlines how this nexus can function for contemporary Christian communities as they carry out the work of educational ministry. He then explores the dynamics of faith formation in the contemporary American context, concluding with a suggestive treatment of implications of the baptism-Trinity-pedagogy nexus for the educational ministry of a given congregation.
