Without My Asking Robert Cording, 2019 In poems that range from New England to the Southwest, Without My Asking, takes its cue from Psalms 90's petition--teach us to number our days. That biblical sense of limits--of what we can know and not know--and, ultimately, the mystery of before and after that encloses our existence is the center around which these poems turn, both seasonally and from day-to-day. In poems that attend to

the events of our lives--from the deaths of parents to hummingbirds at a bird feeder--these poems work to utter Yes to all that happens, that peculiar affirmative that recognizes, as Elizabeth Bishop says, Life's like that . . . also death.

Four Seconds to Lose K.A. Tucker, 2014-04 Owning a strip club isn't the fantasy most guys expect it to be. With long hours, a staff with enough issues to keep a psych ward in business, and the police checking up on him regularly, twenty-seven year old Cain is starting to second guess his silent mission to save these women. That is, until a tiny angel named Charlie walks through his door. Blonde and blue-eyed, sweet as can be, this dancer's sad smile opens up old wounds. She reminds him so much of Penny. As much as Cain tries to avoid being that creepy strip club boss who dates his staff, he can't help but be attracted to Charlie. As he grows closer to her, waiting for her to turn her life around, he discovers that she's headed down a dangerous path, the same one that claimed the other important women in his life--

Brain Wars Mario Beauregard, 2012-04-24 The brain can be weighed, measured, scanned, dissected, and studied. The mind that we conceive to be generated by the brain, however, remains a mystery. It has no mass, no volume, and no shape, and it cannot be measured in space and time. Yet it is as real as neurons, neurotransmitters, and synaptic junctions. It is also very powerful. —from *Brain Wars* Is the brain a computer made of meat, and human consciousness a simple product of electrical impulses? The idea that matter is all that exists has dominated science since the late nineteenth century and led to the long-standing scientific and popular understanding of the brain as simply a collection of neurons and neural activity. But for acclaimed neuroscientist Mario Beauregard, Ph.D., along with a rising number of colleagues and others, this materialist-based view clashes with what we feel and experience every day. In *Brain Wars*, Dr. Beauregard delivers a paradigm-shifting examination of the role of the brain and mind. Filled with engaging, surprising,

and cutting-edge scientific accounts, this eye-opening book makes the increasingly indisputable case that our immaterial minds influence what happens in our brains, our bodies, and even beyond our bodies. Examining the hard science behind unexplained phenomena such as the placebo effect, self-healing, brain control, meditation, hypnosis, and near-death and mystical experiences, Dr. Beauregard reveals the mind's capabilities and explores new answers to age-old mind-body questions. Radically shifting our comprehension of the role of consciousness in the universe, *Brain Wars* forces us to consider the immense untapped power of the mind and explore the profound social, moral, and spiritual implications that this new understanding holds for our future.

When she discovers a notebook carefully concealed in an old Bible - and realising someone has gone to a great deal of trouble to hide a story of their own - Saskia finds herself drawn into a heart-rending tale of wartime love...

American Geography Matt Black, 2021-12-07 Award-winning photographer Matt Black traveled over 100,000 miles to chronicle the reality of today's unseen and forgotten America. When Magnum photographer Matt Black began exploring his hometown in California's rural Central Valley—dubbed “the other California,” where one-third of the population lives in poverty—he knew what his next project had to be. Black was inspired to create a vivid portrait of an unknown America, to photograph some of the poorest communities across the US. Traveling across forty-six states and Puerto Rico, Black visited designated “poverty areas,” places with a poverty rate above 20 percent, and found that poverty areas are so numerous that they're never more than a two-hour's drive apart, woven through the fabric of the country but cut off from “the land of opportunity.” American Geography is a visual record of this five-year, 100,000-mile road trip, which chronicles the vulnerable conditions faced by America's poor. This compelling compilation of black-and-white photographs is accompanied by Black's own travelogue—a collection of observations, overheard conversations in cafe's and public transportation, diner menus, bus timetables, historical facts, and

snippets from daily news reports. A future classic of photography, this monograph is supported by an international touring exhibition and is a must-have for anyone with an interest in witnessing the reality of an America that's been excluded from the American Dream.

Mothers and Daughters Erica James, 2022-03-17 A sweeping family drama of old secrets and new beginnings... Wildlife Under the Waves Jürgen Freund, 2015-03 This collection of stunning images is a showcase for the work of the world's greatest underwater wildlife photographers. It includes beautifully composed and rarely seen images illustrating the full diversity of marine life, from mighty whales and graceful turtles through to huge shimmering shoals of fish and riotously colored corals, anenomes, crustaceans and sponges. The book contains 120 superb images taken in locations around the world, and with strong representation from certain favored areas such as Asia, Australasia and the Pacific. Surprises include a selection of innovative compositions and some of the more esoteric yet remarkable forms of ocean wildlife such as the diverse and frequently jawdroppingly weird and colorful nudibranchs.

Man Walks Into A Pub Pete Brown, 2011-08-11 It's an extraordinary tale of yeast-obsessed monks and teetotal prime ministers; of how pale ale fuelled an Empire and weak bitter won a world war; of exploding breweries, a bear in a yellow nylon jacket and a Canadian bloke who changed the drinking habits of a nation. It's also the story of the rise of the pub from humble origins through an epic, thousand-year struggle to survive misunderstanding, bad government and misguided commerce. The history of beer in Britain is a social history of the nation itself, full of catastrophe, heroism and an awful lot of hangovers.

'a pleasant antidote to more po-faced histories of beer' Guardian
'Like a good drinking companion, Brown tells a remarkable story: a stream of fascinating facts, etymologies and pub-related urban phenomena' TLS
'Packed with bar-room bet-winning facts and entertaining digressions, this is a book into which every pub-goer will want to dip.' Express

The Shamrock and Peach Judith McLoughlin, 2011-09-14
The Shamrock and Peach is a unique book in many ways. It is a cookbook that explores the best of Ulster-Scots cuisine but is also the tale of an immigrant's journey, following in the footsteps of those Scots-Irish settlers who forged the trails of Appalachia years ago. It is a story of the many cultural overlaps that exist between the North of Ireland and the Deep South, celebrating those cultural expressions through the language of really good food. The first half of the book is set in the green fields of Ireland from where we cross the ocean to the American South to discover some wonderful food experiences that have their roots in the Emerald Isle.
