Unthinkable Brad Parks, 2021-07-27 From international bestselling author Brad Parks comes a new thriller about an ordinary man who may be able to save the world as we know it--but to do so, he must make an impossible choice. Nate Lovejoy is a self-proclaimed nobody, a stay-at-home dad who doesn't believe he's important to anyone but his wife and their two daughters. So it's a shock when members of a powerful secret society kidnap and spirit Nate away to a mansion at the behest of their leader, Vanslow DeGange, who claims to know the future. He's foreseen that a billion people could die--unless Nate acts. It seems improbable, especially given what DeGange says will set this mass casualty incident in motion: a lawsuit against the biggest power company in Virginia, being brought by Nate's wife, Jenny. Nate quickly smells a scam being perpetrated by the power company. But at every turn, it becomes apparent there's more to DeGange's gift than Nate wants to acknowledge. A

billion people really could die, and Nate might be the only one who can save them. All he has to do is the unthinkable.

Reframing Bodies Roger Hallas, 2009-12-02 In *Reframing Bodies*, Roger Hallas illuminates the capacities of film and video to bear witness to the cultural, political, and psychological imperatives of the AIDS crisis. He explains how queer films and videos made in response to the AIDS epidemics in North America, Europe, Australia, and South Africa challenge longstanding assumptions about both historical trauma and the politics of gay visibility. Drawing on a wide range of works, including activist tapes, found footage films, autobiographical videos, documentary portraits, museum installations, and even film musicals, Hallas reveals how such “queer AIDS media” simultaneously express both immediacy and historical consciousness. Queer AIDS media are neither mere ideological critiques of the dominant media representation of homosexuality and AIDS nor corrective attempts to produce “positive images” of people living with HIV/AIDS. Rather, they perform complex, mediated acts of bearing witness to the individual and collective trauma of AIDS. Challenging the entrenched media politics of who gets to

speak, how, and to whom, Hallas offers a bold reconsideration of the intersubjective relations that connect filmmakers, subjects, and viewers. He explains how queer testimony reframes AIDS witnesses and their speech through its striking combination of direct address and aesthetic experimentation. In addition, Hallas engages recent historical changes and media transformations that have not only displaced queer AIDS media from activism to the archive, but also created new witnessing dynamics through the logics of the database and the remix. Reframing Bodies provides new insight into the work of Gregg Bordowitz, John Greyson, Derek Jarman, Matthias Müller, and Marlon Riggs, and offers critical consideration of important but often overlooked filmmakers, including Jim Hubbard, Jack Lewis, and Stuart Marshall.

Chain of Title David Dayen, 2016-05-17 In the depths of the Great Recession, a cancer nurse, a car dealership worker, and an insurance fraud specialist helped uncover the largest consumer crime in American history—a scandal that implicated dozens of major executives on Wall Street. They called it

foreclosure fraud: millions of families were kicked out of their homes based on false evidence by mortgage companies that had no legal right to foreclose. Lisa Epstein, Michael Redman, and Lynn Szymoniak did not work in government or law enforcement. They had no history of anticorporate activism. Instead they were all foreclosure victims, and while struggling with their shame and isolation they committed a revolutionary act: closely reading their mortgage documents, discovering the deceit behind them, and building a movement to expose it. Fiscal Times columnist David Dayen recounts how these ordinary Floridians challenged the most powerful institutions in America armed only with the truth—and for a brief moment they brought the corrupt financial industry to its knees.

Shattered Love Richard Chamberlain, 2013-06-11 In *Shattered Love*, Richard Chamberlain poignantly recounts his lifelong struggle to find happiness. Tracing a fascinating path over his meteoric rise to success, he chronicles his struggle to come to terms with his own imperfections, his growing desire to be honest about his sexual orientation, and his yearning to live with an open heart. And along the way he imparts the lessons he has learned about overcoming our own self-imposed obstacles to happiness.

Grow Your Own Angus Stewart, Simon Leake, 2017-10-25 Urban environments require specific techniques to optimise growing conditions for plants. Two leading experts in horticulture and soil science teach the reader how to grow their own food—from the ground up—in this authoritative, accessible, generously photographed guide. *Grow Your Own* provides simple step-by-step methods and information enabling the average city dweller to grow food plants at whatever scale their time and resources permit and no matter their location, be it suburban backyard or apartment balcony. Some of the many

topics covered include creating the best environment for growing (influenced by water/temperature/light/air quality), setting up the soil; fertilisers, compost and worm farms; choosing crops (annual/perennial/heirloom/modern); propagation, planting and maintenance; pest and disease management; seed saving; rooftop spaces and vertical gardens; and integrated urban farming including bees and poultry.

Profit First Mike Michalowicz, 2017-02-21 Author of cult classics The Pumpkin Plan and The Toilet Paper Entrepreneur offers a simple, counterintuitive cash management solution that will help small businesses break out of the doom spiral and achieve instant profitability. Conventional accounting uses the logical (albeit, flawed) formula: Sales - Expenses = Profit. The problem is, businesses are run by humans, and humans aren't always logical. Serial entrepreneur Mike Michalowicz has developed a behavioral approach to accounting to flip the formula: Sales - Profit = Expenses. Just as the most effective weight loss strategy is to limit portions by using smaller plates, Michalowicz shows that by taking profit first and apportioning only what remains for expenses, entrepreneurs will transform their businesses from cash-eating monsters to profitable cash cows. Using Michalowicz's Profit First system, readers will learn that: · Following 4 simple principles can simplify accounting and make it easier to manage a profitable business by looking at bank account balances. · A small, profitable business can be worth much more than a large business surviving on its top line. · Businesses that attain early and sustained profitability have a better shot at achieving long-term growth. With dozens of case studies,

practical, step-by-step advice, and his signature sense of humor, Michalowicz has the game-changing roadmap for any entrepreneur to make money they always dreamed of.
