The View from Murney Tower Richard Allen, 2008-01-01 Salem

Goldworth Bland (1859-1950) was among the most significant religious leaders in Canadian history. A Methodist and, later, United Church minister, Bland's long career and widespread influence made him a leading figure in the popularizing of liberal theology, social reform, and the Social Gospel movement. He was also a man who struggled with the polarities of evangelical faith and worldly culture, and who sought a unifying world-view in the mentoring of Sir J. William Dawson in the sciences, George Monro Grant in public affairs, and John Watson in philosophy. *The View from the Murney Tower* is a two-volume biography of Salem Bland by Richard Allen, author of *The Social Passion: Religion and Reform in Canada, 1914-28*. This first volume begins with Bland's upbringing in the home of an educated industrialist turned preacher. It goes on to explore his emergence as a liberating mind and eloquent speaker prepared to support new currents of scientific and social thought, as well as to discuss their implications for Christian faith and life. Allen concludes this first volume with Bland's departure from central Canada for the west in 1903, by which time he had become a somewhat controversial figure

amongst conservative evangelicals throughout the country. More than just biography, however, *The View from the Murney Tower* is also an examination of progressive religion in late-Victorian Canada, a time in which Darwinism and other Biblical, social, and intellectual controversies were profoundly affecting the growth of a young nation.

Progress in Combustion Diagnostics, Science and Technology

Paul Medwell, Michael Evans, Shaun Chan, 2020-03-25 The role that combustion plays in the world's energy systems will continue to evolve with the changes in technological demands. For example, the challenges that we face today are more focused on the conservation of energy and addressing environmental concerns, which together necessitate cleaner and more efficient combustion processes using a range of fuel sources. This book includes contributions to highlight the recent progress in theory and experiments, development, and demonstration of technologies and systems involving combustion processes, for the production, storage, use, and conservation of energy.

The Hidden Saga: Beginnings (1-3) Amy Patrick,2019-04-04

Includes the first three books in the award-winning Hidden Saga series by bestselling author Amy Patrick-- over 750 pages of fantasy, magic, romance, and mystery! He isn't supposed to even talk to a human, much less fall in love with one... Ryann Carroll has just run into the guy who saved her life ten years ago. You might think she'd be happy to see him again. Not exactly. She's a bit underdressed (as in skinny-dipping) and he's not supposed to exist. Lad knows the law of his people all too well: Don't get careless and Don't get caught. It's allowed his race to live undetected in this world for thousands of years, mentioned only in flawed and fading folklore. Lad's never been able to forget about Ryann since that night ten years ago. When he sees her again, his fascination re-ignites and becomes a growing desire that tempts him to break all the rules. He isn't supposed to even talk to a human, much less fall in love with one. And the timing is atrocious.

The Assemblage is coming, the rift between the Light and Dark is widening. Lad may have to trade his own chance at happiness to keep the humans, especially Ryann, blissfully ignorant and safe.

*100,000's of downloads and millions of pages read for the series.

The Night and Its Moon Piper CJ,2022-09-20 An addictive fantasy romance from TikTok sensation Piper CJ, now newly revised and edited. Two orphans grow into powerful young women as they face countless threats to find their way back to each other. Farleigh is just an orphanage. At least, that's what the church would have the people believe, but beautiful orphans Nox and fae-touched Amaris know better. They are commodities for sale,

available for purchase by the highest bidder. So when the madame of a notorious brothel in a far-off city offers a king's ransom to purchase Amaris, Nox ends up taking her place – while Amaris is drawn away to the mountains, home of mysterious assassins. Even as they take up new lives and identities, Nox and Amaris never forget one thing: they will stop at nothing to reunite. But the threat of war looms overhead, and the two are inevitably swept into a conflict between human and fae, magic and mundane. With strange new alliances, untested powers, and a bond that neither time nor distance could possibly break, the fate of the realms lies in the hands of two orphans – and the love they hold for each other.
