**Tolley's Tax Planning for Farm and Land Diversification** Julie Butler, 2004  
Tax Planning for Farm and Land Diversification has been written to offer practical help and guidance to ensure that tax planning opportunities are used to their maximum, helping farmers and landowners through this often complicated process. It is a pragmatic and strategic guide, written in an accessible and user-friendly style. With the 2005 deadline for applying international accounting standards approaching the question of valuing agricultural stocks is becoming more important. This new edition provides valuable guidance on the tax consequences of pursuing alternative types of farming and land use rather than traditional methods. There are many tax issues relating to the diversification of farmland and this book is a guide to the tax benefits and pitfalls the farmer is exposed to.
