Historical and interpretive rooms are included; new construction, additions, and new kitchens and baths take their place along with restoration work. A feature on furniture appears in every issue. Product coverage is extensive. Experts offer advice for homeowners and designers on finishing, decorating, and furnishing period homes of every era. Growing Old with the Welfare State Nick Hubble, Jennie Taylor, Philip Tew, 2019-05-16 The combined effect of the welfare state and medical advances means that more people now live longer lives than ever before in history. As a consequence, the experience of ageing has

been transformed. Yet our cultural and social perceptions of ageing remain governed by increasingly dated images and narratives. *Growing Old with the Welfare State* challenges these stereotypes by bringing together eight previously unpublished stories of ordinary British people born between 1925 and 1945 to show contemporary ageing in a new light. These biographical narratives, six of which were written as part of the Mass Observation Project, reflect on and compare the experience of living in two post-war periods of social change, after the first and second world wars. In doing so, these stories, along with their accompanying contextual chapters, provide a valuable and accessible resource for social historians, and expose both historical and contemporary views of age and ageing that challenge modern assumptions.

**Placemaker** Christie Purifoy, 2019-03-12 *Placemaker* is a call to tend our souls, our land, and our homes--to cultivate comfort, beauty, and peace in the places God has us. Images of comfortable kitchens and flower-filled gardens stir something deep within us--we instinctively long for home. In a world of chaos and conflict, we want a place of comfort and peace. In *Placemaker*, Christie Purifoy invites us to notice our soul's desire for beauty, our need to create and to be created again and again. As she reflects on the joys and sorrows of two decades as a placemaker and her recent years living in and restoring a Pennsylvania farmhouse, Christie shows us that we are all gardeners. No matter our vocation, we spend much of our lives tending, keeping, and caring. In each act of creation, we reflect the image of God. In each moment of making beauty, we

realize that beauty is a mystery to receive. Weaving together her family's journey with stories of botanical marvels and the histories of the flawed yet inspiring placemakers who shaped the land generations ago, Christie calls us to cultivate orchards and communities, to clap our hands along with the trees of the fields, to step into our calling to create, to make a place in the place God made for us. Placemaker is a timely yet timeless reminder that the cultivation of good and beautiful places is not a retreat from the real world but a holy pursuit of a world that is more real than we know.

Forgotten Fruits Christopher Stocks,2009-05-07 In Forgotten Fruits, Christopher Stocks tells the fascinating - often rather bizarre - stories behind Britain's rich heritage of fruit and vegetables. Take Newton Wonder apples, for

instance, first discovered around 1870 allegedly growing in the thatch of a Derbyshire pub. Or the humble gooseberry which, among other things, helped Charles Darwin to arrive at his theory of evolution. Not to mention the ubiquitous tomato, introduced to Britain from South America in the sixteenth century but regarded as highly poisonous for nearly 200 years. This is a wonderful piece of social and natural history that will appeal to every gardener and food aficionado.

**Old Herbaceous (Classic Reprint)** Reginald Arkell, 2017-02-17 Excerpt from Old Herbaceous It was one of those mild autumn mornings when early mist had turned to soft rain and water dripped from everything. No real touch of winter yet; just a soft pause between the seasons, giving you the best of both. Not too warm, as it had been; not too cold, as it would be. This was the time of year and the time of day that the old man loved best. He couldn't get around so much now, but they had made up his bed by the cottage window, and there he would sit, half waking and half sleeping, dreaming of this and that. From where he sat, propped up among his cushions, he could see into the Manor gardens. Not what they were - not by a long chalk. Mind you, it was only fair to admit they were still a bit short-handed, and you had to take the dry summer into account, but these young fellows ought to have made a better job of it than that. When he was a young chap, he had to move at double their pace. No slipping off when the clock struck for him. Hours he'd spent watering when the sun was off the borders. But not today. That meant overtime, and where was the money to pay for that? So the old garden wasn't what it had been when he was in charge. Everything was different to what it was in his day. They earned more money, and that was only right. But the more they got, the less they seemed to care. You had to be

proud of a garden to do any good with it. Gardening was a whole-time ob, like the cows or the sheep. Cows had to be milked, whatever happened; and who thought of stopping in bed when the sheep were lambing? In a garden, you had to work with the seasons. There were slack times, when you could take an easy with a pipe behind the tool shed, but when the grass started growing and the weeds were getting on top of you, there was an end to all that nonsense Hours he'd spent watering. But these young fel lowm.. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
