Internet Explorer Construction Kit For Dummies Clayton Walnum,2004-10-27 You've heard the saying, "If you want something done right, do it yourself." Actually, most Internet browsers are done right. Chances are, you're comfortable with yours. Yet, you may want to build your own. You don't have to start from scratch—you can start with the Browser Construction Kit on the CD-ROM that comes with Internet Explorer Construction Kit for Dummies. Best of all, there's no programming required. Whether you personalize your browser or build one just for your business, you can include features and functions not available with traditional browsers, including: Log file: a list of all Web sites visited Alarm: an audible or popup alarm that signals the end of the time period used with the countdown timer Lock: prevents the custom browser from further browsing Approved list: list of Web sites to which browsing is limited Spy: screen captures taken once a minute Popular sites: a list of the most-visited sites You can make your browser G-rated. You even have everything you need to create a browser with themed graphics, choosing from animal, art, music, sea, sports, or more. Have fun creating your own personalized, custom-built browser. Practicing Presence Lisa J. Lucas,2017 Most teachers enter the field of education to make a difference in children's lives. But many end up, as author Dr. Lisa Lucas puts it, tired, wired, and running in circles. This leads to many new teachers abandoning the profession or to burnout among veteran teachers. In Practicing Presence: Simple Self-Care Strategies for Teachers, Dr. Lucas invites the reader to learn how to fully inhabit the present moment. Written in an informal, conversational tone, Practicing Presence is filled with ideas, exercises, checklists, personal anecdotes, and practices you can use to reframe and establish a mindset that will enhance your focus and engagement in the classroom. With approximately 50% of new teachers leaving the education field before they hit the 5-year mark, it is more important than ever for educators to prioritize their self-care. Each chapter of Practicing Presence includes self-care strategies that explore how to self-regulate, nurture self-acceptance, and promote compassion. Inside you'll find: Quotes and affirmations throughout the texts Scientific research and reflections on how these theories and practices can apply to your own life Paths to Mindful Teaching and how to integrate into your daily life Additional resources and online content to further support your practice When teachers care for themselves deeply and deliberately, they are better able to care for the people that matter most in their lives--their students, friends, and families. Practicing Presence focuses not on doing, but rather on being present in the life of the classroom.

Five Design-Sheets: Creative Design and Sketching for Computing and Visualisation Jonathan C. Roberts,Christopher J. Headleand,Panagiotis D. Ritsos,2017-05-28 This book describes a structured sketching methodology to help you create alternative

design ideas and sketch them on paper. The Five Design-Sheet method acts as a check-list of tasks, to help you think through the problem, create new ideas and to reflect upon the suitability of each idea. To complement the FdS method, we present practical sketching techniques, discuss problem solving, consider professional and ethical issues of designing interfaces, and work through many examples. Five Design-Sheets: Creative Design and Sketching for Computing and Visualization is useful for designers of computer interfaces, or researchers needing to explore alternative solutions in any field. It is written for anyone who is studying on a computing course and needs to design a computing-interface or create a well-structured design chapter for their dissertation, for example. We do acknowledge that throughout this book we focus on the creation of interactive software tools, and use the case study of building data-visualization tools. We have however, tried to keep the techniques general enough such that it is beneficial for a wide range of people, with different challenges and different situations, and for different applications.
