Julie Leininger Pycior

The Plays of Yasmina Reza on the English and American Stage Amanda

Giguere,2014-01-10 The seven plays to date of Yasmina Reza, one of France's most prominent female playwrights, are popular both in France and abroad. Despite her commercial success, her plays have often been ignored in academic circles, and few scholars have attempted to explore the mechanics of her playwriting. This text seeks to unpack the essentials of Reza's style and to explore each play as a component of Reza's theatrical oeuvre. The result is a fuller understanding of her theatrical poetics and her development as an artist.

Annual Report United States. Congressional-Executive Commission on China,2010

Democratic Renewal and the Mutual Aid Legacy of US Mexicans Julie Leininger

Pycior,2014-06-05 The legacy of the historic mutual aid organizing by US Mexicans, with its emphasis on self-help and community solidarity, continues to inform Mexican American activism and subtly influence a number of major US social movements. In *Democratic Renewal and the Mutual Aid Legacy of US Mexicans*, Julie Leininger Pycior traces the early origins of organizing in the decades following the US-Mexican War, when Mexicans in the Southwest established mutualista associations for their protection. Further, she traces the ways in which these efforts have been invoked by contemporary Latino civil rights leaders. Pycior notes that the Mexican immigrant associations instrumental in the landmark 2006 immigration reform marches echo mutualista societies at their peak in the 1920s. Then Mexican immigrants from San Diego to New York engaged in economic, medical, cultural, educational, and legal aid. This path-breaking study culminates with an examination of Southwest community organizing networks as crucial counterweights to the outsized role of large financial contributions in the democratic political process. It also finds ways in which this community organizing echoes the activity of mutualista groups in the very same neighborhoods a century ago.

Cross-Curricular Dimensions of Language Learning and Teaching Marek Krawiec,2014-06-19

This volume discusses a variety of aspects of cross-curricularity in language learning and teaching. It highlights the multidimensional character of language classes conducted at different educational levels, from pre-school to the university level, and discusses several important issues from a theoretical perspective, providing certain practical solutions and implications to the enumerated problems. The material of the book is divided into four parts, essentially reflecting the main areas of interest here. These parts deal with such notions as language learning and teaching; media in foreign language didactics; art and literature in language education; and (inter-)culturality and cross-curricularity in language learning and teaching. The book will be particularly useful to teacher-practitioners and scholars interested in various forms of integrating the content of different school subjects in language education.

From Corpus to Classroom Anne O'Keeffe,Michael McCarthy,Ronald Carter,2007-05-03

This book summarises and makes accessible recent work in corpus research, focusing on spoken data and on the place of lexis in grammar and discourse.

Handbook of Risk and Crisis Communication Robert L. Heath,H. Dan O'Hair,2020-10-28

The *Handbook of Risk and Crisis Communication* explores the scope and purpose of risk, and its counterpart, crisis, to facilitate the understanding of these issues from conceptual and strategic perspectives. Recognizing that risk is a central feature of our daily lives, found in relationships, organizations, governments, the environment, and a wide variety of interactions, contributors to this volume explore such questions as What is likely to happen, to whom, and with what consequences? To what extent can science and vigilance prevent or mitigate negative outcomes? and What obligation do some segments of local, national, and global populations have to help other segments manage risks?, shedding light on the issues in the quest for definitive answers. The Handbook offers a broad approach to the study of risk and crisis as joint concerns. Chapters explore the reach of crisis and risk communication, define and examine key constructs, and parse the contexts of these vital areas. As a whole, the volume presents a comprehensive array of studies that highlight the standard principles and theories on both topics, serving as the largest effort to date focused on

engaging risk communication discussions in a comprehensive manner. Now available in paperback, the Handbook of Risk and Crisis Communication can be readily used in graduate coursework and individual research programs. With perspectives from psychology, sociology, anthropology, political science, economics, and communication, the Handbook provides vital insights for all disciplines studying risk, and is required reading for scholars and researchers investigating risk and crisis in various contexts.

Bridging Linguistics and Economics Cécile B. Vigouroux, Salikoko S. Mufwene, 2020-03-19 By bridging the gap between linguistics and economics, this book sheds light on a range of mutually valuable topics.

Teaching English with Information Technology David Gordon Smith, Eric Baber, 2005 How to teach English using information technology - for the professional English language teacher. This new practical guide for teachers provides an introduction to, and rationale for, using information technology when teaching English. The book explains how teachers can use e-learning in English language teaching. The topics covered include using email; the importance of the web in ELT (covers websites; using audio and video clips from the web, web activities, webquests and treasure hunts); using CD-ROMs; professional training on the web for online teacher training and online teaching communities; audio- and video-conferencing and text chat; learning management systems; and finally, using standalone software on desktop computers.

Departmental annual report 2010-11 Great Britain: Parliament: House of Commons: Foreign Affairs Committee, 2012-04-13 Despite the impressive performance of the Foreign and Commonwealth Office in representing the UK's interests across the globe with what is, in Governmental terms, a particularly small budget, the Foreign Affairs Committee believes that the FCO is under-funded. This situation has been exacerbated by the Spending Review 2010 and the lack of detail provided by the FCO and the BBC World Service as to exactly how the spending reductions target will be met is disappointing. There are concerns about the steps taken by the FCO to adjust to its reduced budget: reductions in the deployment of UK-based staff overseas and the optimistic planned programme of property sales will have a detrimental impact on the ability of the UK to protect its interests overseas. The establishment of the European External Action Service (EEAS) will place a further strain on the FCO's resources. The Committee welcomes the appointment of Lord Williams of Baglan to the post of International Trustee with responsibility for the BBC World Service, but reiterates its belief that a formal concordat governing the World Service's budget and output should be drawn up setting out the World Service's independence from budgetary pressures elsewhere in the BBC. The budget cuts faced by the British Council will lead to the Council becoming a substantially different organisation by the end of the Spending Review period. The greater emphasis that the British Council will place on commercial activity risks a diminution of the UK's influence and soft power.

A Modular Approach to Testing English Language Skills Roger Hawkey, 2004 Documents the development of the Cambridge ESOL Certificates in English Language Skills (CELS), a suite of modular examinations first offered in 2002. As a context for how CELS was conceived, developed, constructed, validated and managed, the book traces the history of exams which have influenced CELS. The Royal Society of Arts (RSA), later UCLES (University of Cambridge Local Examinations Syndicate) Communicative Use of English as a Foreign Language examinations (CUEFL) was one such influence, as were the Certificates in Communication Skills in English (CCSE), these exams being a development of the CUEFL. The University of Oxford Delegacy of Local Examinations (UODLE) examinations, taken over by UCLES in 1995, were a further influence on CELS. UODLE itself had worked in partnership with the Association of Recognised Language Schools (ARELS) Examinations Trust, the Oxford EFL reading and writing exams for many years offered in tandem with the ARELS Oral English exams.

Language and Journalism John Richardson, 2013-09-13 This book is an indispensable cutting edge book for students and researchers of journalism studies seeking a text that illustrates and applies a range of linguistic and discourse-analytic approaches to the analysis of journalism. While

the form, function and politics of the language of journalism have attracted scholars from a wide range of academic disciplines, too often this analysis has reduced the work of journalists to text-characteristics alone. In contrast, this collection is united by the principle that journalistic discourse is always socially situated and the result of a series of processes – produced by journalists in accordance with particular production techniques and in specific institutional settings – and as such, analysis requires more than the methods offered by linguists. The contributors to this book draw on a range of the most prominent theoretical and methodological approaches to media discourse – including Conversation Analysis, Critical Discourse Analysis, the APPRAISAL framework, Multi-modal Analysis and Rhetoric – in making sense of the language of newspapers (national, local and minority press), television and online journalism. Written in an engaging style by distinguished academic authorities, this book provides a state-of-the-art review of the subject. This book was published as a special issue of *Journalism Studies*.

DK Eyewitness Top 10 Dubai and Abu Dhabi DK Eyewitness, 2019-12-17 Soaring skyscrapers and sumptuous resorts; labyrinthine souks and monumental Mosques; sparkling seas and breathtaking desert - Dubai and Abu Dhabi has it all. Music, Opera, Dance and Drama in Asia, the Pacific and North America, 2000

Language Learning Beyond the Classroom David Nunan, Jack C. Richards, 2015-01-30 This volume presents case studies of language learning beyond the classroom. The studies draw on a wide range of contexts, from North and South America to Europe and the Asia-Pacific region. Each provides principled links between theory, research and practice. While out-of-class learning will not replace the classroom, ultimately all successful learners take control of their own learning. This book shows how teachers can help learners bridge the gap between formal instruction and autonomous language learning. Although English is the primary focus of most chapters, there are studies on a range of other languages including Spanish and Japanese.

Advertising in Developing and Emerging Countries Professor Emmanuel C Alozie, 2012-08-28 This indispensable study offers an in-depth analysis of advertising in developing and emerging economies as they join the global market and seek to improve the socio-economic condition of their citizens. *Advertising in Developing and Emerging Countries* illustrates the challenges and opportunities for advertising in these countries, and explores their critical relationship with developed economies with a multifaceted analysis of the role of advertising in an interdependent global economy. The contributors, academic and professional, with world wide experiences, examine the unique political, cultural and religious systems that affect advertising in a country, in both Western and non-Western contexts, and chart the consequences of its development from democratization to privatization to cultural hegemony. Emmanuel C. Alozie has put together an essential and unique book for scholars and students of public relations, advertising, marketing, media and international studies, as well as practitioners, those teaching and undertaking professional courses, and researchers in this critical field.

Time for Peace Luc Reyhler, 2015-10-01 For building sustainable peace and security, the time is always now. Violence in our world extends beyond armed conflicts: it exists in our social and economic structures, not to mention in our destruction of the environment. How can we build more sustainable development and peace? In this innovative, ambitious book, Dr Luc Reyhler argues that we must drastically change our 'temporament', or the way we deal with time. He surveys the vast temporal landscape, and considers its many dimensions, such as how time relates to emotions, religion and conflict, and how our time horizons affect the natural world. Using examples such as Hurricane Katrina and regime change in Libya, Reyhler shows how time is misused in conflicts - be it the failure to anticipate a disaster, or the manipulation of time to create a false sense of urgency. Ultimately, he proposes a more adaptive attitude to time, so that we can be proactive rather than reactive in our efforts at sustainable development and conflict resolution. Based on Reyhler's 40-year experience in the field, Time for Peace is an original and important contribution to the development and peace research literature.

Contributions to this volume consider the importance of mediation in violent conflict. Practical and applied, this publication will be of interest to scholars, academics, policymakers and practitioners. It was originally published as a special issue of Canadian Foreign Policy Journal.
