*Religion in Museums* Gretchen Buggeln,Crispin Paine,S. Brent Plate,2017-02-23 Bringing together scholars and practitioners from North America, Europe, Russia, and Australia, this pioneering volume provides a global survey of how museums address religion and charts a course for future research and interpretation. Contributors from a variety of disciplines and institutions explore the work of museums from many perspectives, including cultural studies, religious studies, and visual and material culture. Most museums throughout the world – whether art, archaeology, anthropology or history museums – include religious objects, and an increasing number are beginning to address religion as a major category of human identity. With rising museum attendance and the increasingly complex role of religion in social and geopolitical realities, this work of stewardship and interpretation is urgent and important. *Religion in Museums* is divided into six sections: museum buildings, reception, objects, collecting and research, interpretation of objects and exhibitions, and the representation of religion in different types of museums. Topics covered include repatriation, conservation, architectural design, exhibition, heritage, missionary collections, curation, collections and display, and the visitor's experience. Case studies provide comprehensive coverage and range from museums devoted specifically to the diversity of religious traditions, such as the State Museum of the History of Religion in St Petersburg, to exhibitions centered on religion at secular museums, such as Hajj: Journey to the Heart of Islam, at the British Museum.

**Clothing the Past: Surviving Garments from Early Medieval to Early Modern Western Europe** Elizabeth Coatsworth,Gale Owen-Crocker,2018-02-12 One hundred surviving garments are discussed with colour plates. Ranging from high art to homely, some are associated with known persons, others are anonymous, yet their histories – of recycling, repairing, augmenting – illuminate times when textile was handmade and precious.

*The Bible in the Armenian Tradition* Vrej Nersessian,2001 The Bible in the Armenian Tradition provides a concise historical account of the development of the Bible in Armenia and the illustrative traditions that are represented in surviving codices. The author focuses on the origins of the first translations of the Bible into Armenian in the fourth century, which inspired the Armenian alphabet itself. A range of beautiful Armenian Bible manuscripts from collections throughout the world are illustrated in full color and compared with western Bible illuminations. Later printed Armenian Bibles are also examined in detail, revealing fascinating examples of religious differences between the Armenian and the Catholic Christian traditions. This survey of Armenian Bible history is an important reference for biblical scholars and anyone with an interest in the history of Christianity.

**Treasures from the Ark** Vrej Nersessian,2001-06-21 Armenia was the first country to recognize Christianity as the official state religion in 301 AD, twelve years before Constantine's decree granting tolerance to Christianity within the Roman Empire. Ever since, Armenia has claimed the privilege of being the first Christian nation, and the wealth of Christian art produced in Armenia since then is testimony to the fundamental importance of the Christian faith to the Armenian people. This extensive new survey of Armenian Christian art, published to accompany a major exhibition at The British Library, celebrates the Christian art tradition in Armenia during the last 1700 years. The extraordinary quality and range of Armenian art which is documented includes sculpture, metalwork, textiles, ceramics, wood carvings and illuminated manuscripts and has been drawn together from collections throughout the world—many of the examples have never before been seen outside Armenia. In his authoritative text, Dr. Vrej Nersessian, Curator at The British Library, charts the development of Christianity in Armenia. This fascinating history is essential to an understanding of the art and religious tradition of Armenia, a country in which the sense of the sacred extends well beyond the purely religious, infiltrating the entire fabric of Armenian affairs to create a fascinating culture. This sumptuously illustrated book will be of immense value to anyone with an interest in Byzantine art and culture, the history of Christianity and the history of Armenia and the Middle Orient.

"The" Reign of Henry VIII from His Accession to the Death of Wolsey John Sherren Brewer,1884

Religious Objects in Museums Crispin Paine,2020-05-14 In the past, museums often changed the meaning of icons or statues of deities from sacred to aesthetic, or used them to declare the superiority of Western society, or simply as cultural and historical evidence. The last generation has seen faith groups demanding to control 'their' objects, and curators recognising that objects can only be understood within their original religious context. In recent years there has been an explosion of interest in the role religion plays in museums, with major exhibitions highlighting the religious as well as the historical nature of objects.Using examples from all over the world, Religious Objects in Museums is the first book to examine how religious objects are transformed when they enter the museum, and how they affect curators and visitors. It examines the full range of meanings that religious objects may bear - as scientific specimen, sacred icon, work of art, or historical record. Showing how objects may be used to argue a point, tell a story or promote a cause, may be worshipped, ignored, or seen as dangerous or unlucky, this highly accessible book is an essential introduction to the subject.

**Anglo-Saxon Prognostics, 900-1100** László Sándor Chardonnens,2007 This book offers an analysis of the status and function of the Anglo-Saxon prognostics in their manuscript context, a study of their introduction to and transmission in Anglo-Saxon England, and, for the first time, a comprehensive edition of prognostics in Old English and Latin.

Poems Before Congress Elizabeth Barrett Browning,1860

**The Cross-Border Connection** Roger Waldinger,2015-01-05 International migration presents the human face of globalization. Roger Waldinger addresses a paradox at its core: emigrants departing one society become immigrants in another, tying those two societies together. He explains how interconnections between place of origin and destination are built and maintained and why they eventually fall apart.

**'Ifric's Letter to the Monks of Eynsham** Christopher A. Jones,2007-01-18 Though best known today for his Old English homilies, the Anglo-Saxon scholar Ælfric also composed, in a letter to his fellow monks, a set of Latin liturgical instructions that offer a rare glimpse of what ordinary monks were expected to know and do. This book contains a new edition of the Latin text with a critical apparatus, and the only complete English translation. Commentary and substantial introductory chapters establish the letter's exceptional importance for our understanding of late Anglo-Saxon monasticism and liturgy.

**Knowledge and Text Production in an Age of Print: China, 900-1400** ,2011-02-17 The essays in this volume seek to flesh out the diversity of Chinese textual production during the period spanning the tenth and fourteenth centuries when printing became a widely used technology.

**Religion, Media and Culture: A Reader** Gordon Lynch,Jolyon Mitchell,Anna Strhan,2012-02-13 This Reader brings together a selection of key writings to explore the relationship between religion, media and cultures of everyday life. It provides an overview of the main debates and developments in this growing field, focusing on four major themes: Religion, spirituality and consumer culture Media and the transformation of religion The sacred senses: visual, material and audio culture Religion, and the ethics of media and culture. This collection is an invaluable resource for students, academics and researchers wanting a deeper understanding of religion and contemporary culture.

*Russia and Nationalism in Central Asia* Teresa Rakowska-Harmstone, George Washington University. Institute for Sino-Soviet Studies, 1970

*The Crimean Tatars* Brian Glyn Williams, 2001-01-01 This volume provides the most up-to-date analysis of the ethnic cleansing of the Crimean Tatars, their exile in Central Asia and their struggle to return to the Crimean homeland. It also traces the formation of this diaspora nation from Mongol times to the collapse of the Soviet Union. A theme which emerges through the work is the gradual construction of the Crimea as a national homeland by its indigenous Tatar population. It ends with a discussion of the post-Soviet repatriation of the Crimean Tatars to their Russified homeland and the social, emotional and identity problems involved.

**Sacred Objects in Secular Spaces** Bruce M. Sullivan, 2015-10-22 We have long recognized that many objects in museums were originally on display in temples, shrines, or monasteries, and were religiously significant to the communities that created and used them. How, though, are such objects to be understood, described, exhibited, and handled now that they are in museums? Are they still sacred objects, or formerly sacred objects that are now art objects, or are they simultaneously objects of religious and artistic significance, depending on who is viewing the object? These objects not only raise questions about their own identities, but also about the ways we understand the religious traditions in which these objects were created and which they represent in museums today. Bringing together religious studies scholars and museum curators, *Sacred Objects in Secular Spaces* is the first volume to focus on Asian religions in relation to these questions. The contributors analyze an array of issues related to the exhibition in museums of objects of religious significance from Hindu, Buddhist, and Sikh traditions. The *livest?* of objects are considered, along with the categories of *sacred?* and *profane?*, *religious?* and *secular?*. As interest in material manifestations of religious ideas and practices continues to grow, *Sacred Objects in Secular Spaces* is a much-needed contribution to religious and Asian studies, anthropology of religion and museums studies.

**Global Migrants, Local Culture** Laura Tabili, 2011-04-05 Employing the first analysis of the entire population of any British town, this book examines how overseas migrants affected society and culture in South Shields near Newcastle-upon-Tyne. Resituating Britain within global processes of migration and cultural change, it recasts British society pre-1940 as culturally and racially dynamic and diverse.

*Refugees and Cultural Transfer to Britain* Stefan Manz, Panikos Panayi, 2013-10-18 This book is the first to focus specifically upon the relationship between refugees and intercultural transfer over an extensive period of time. Since circa 1830, a series of groups have made their way to Britain, beginning with exiles from the failed European revolutions of the mid-nineteenth century and ending with refugees who have increasingly come from beyond Europe. The book addresses four specific questions. First, what roles have individuals or groups of refugees played in cultural and political transfers to Britain since 1830? Second, can we identify a novel form of cultural production which differs from that in the homeland? Third, to what extent has dissemination within and transformation of the receiving culture occurred? Fourth, to what extent do refugee groups, themselves, undergo a process of cultural restructuring? The coverage of the individual essays ranges from high culture, through politics and everyday practices. The volume moves away from general perceptions of refugees as 'problem groups' and rather focuses on the way they have shaped, and indeed enriched, British cultural and political life. This book was previously published as a special issue of *Immigrants and Minorities*.

*Historical Perspectives on the American Economy* Robert Whaples, Dianne C. Betts, 1995-05-26 This book is a student reader of the key topics in American economic history.

**Medieval Dress and Textiles in Britain** Louise Sylvester, Mark C. Chambers, Gale R. Owen-Crocker, 2014 A vital sourcebook for information on clothing and textiles in the middle ages, containing many previously unprinted documents.
