Risk Assessment in Air Traffic Management Javier Alberto Pérez Castán,Álvaro Rodríguez Sanz,2020-03-18 One of the most complex challenges for the future of aviation is to ensure a safe integration of the expected air traffic demand. Air traffic is expected to almost double its current value in 20 years, which cannot be managed without the development and implementation of a safe air traffic management (ATM) system. In ATM, risk assessment is a crucial cornerstone to validate the operation of air traffic flows, airport processes, or navigation accuracy. This book tries to be a focal point and motivate further research by encompassing crosswise and widespread knowledge about this critical and exciting issue by bringing to light the different purposes and methods developed for risk assessment in ATM.

Fashion History Linda Welters,Abby Lillethun,2018-02-08 Fashion History: A Global View proposes a new perspective on fashion history. Arguing that fashion has occurred in cultures beyond the West throughout history, this groundbreaking book explores the geographic places and historical spaces that have been largely neglected by contemporary fashion studies, bringing them together for the first time. Reversing the dominant narrative that privileges Western Europe in the history of dress, Welters and Lillethun adopt a cross-cultural approach to explore a vast array of cultures around the globe. They explore key issues affecting fashion systems, ranging from innovation, production and consumption to identity formation and the effects of colonization. Case studies include the cross-cultural trade of silk textiles in Central Asia, the indigenous dress of the Americas and of Hawai'i, the cosmetics of the Tang Dynasty in China, and stylistic innovation in sub-Saharan Africa. Examining the new lessons that can be deciphered from archaeological findings and theoretical advancements, the book shows that fashion history should be understood as a global phenomenon, originating well before and beyond the fourteenth century European court, which is continually, and erroneously, cited as fashion's birthplace. Providing a fresh framework for fashion history scholarship, Fashion History: A Global View will inspire inclusive dress narratives for students and scholars of fashion, anthropology, and cultural studies.

Solidarity David Featherstone,2012-07-12 Despite the frequency with which the word 'solidarity' is invoked the concept itself has rarely been subjected to close scrutiny. In this original and stereotype-busting work, David Featherstone helps redress this imbalance through an innovative combination of archival research, activist testimonies and first-hand involvement with political movements. Presenting a variety of case studies, from anti-slavery and anti-fascist organizing to climate change activism and the boycotts of Coca-Cola, Featherstone unearths international forms of solidarity that are all too often marginalized by nation-centred histories of the left and social movements. Timely and wide-ranging, this is a fascinating investigation of an increasingly vital subject.
