Benjamin H. Barton

Working Alternatives John C. Seitz, Dr. Christine Firer Hinze, 2020-07-07 *Working Alternatives* explores economic life from a humanistic and multidisciplinary perspective, with a particular eye on religions' implications in practices of work, management, supply, production, remuneration, and exchange. Its contributors draw upon historical, ethical, business, and theological conversations considering the sources of economic sustainability and justice. The essays in this book—from scholars of business, religious ethics, and history—offer readers practical understanding and analytical leverage over these pressing issues. Modern Catholic social teaching—a 125-year-old effort to apply Christian thinking about the implications of faith for social, political, and economic circumstances—provides the key springboard for these discussions. Contributors: Gerald J. Beyer, Alison Collis Greene, Kathleen Holscher, Michael Naughton, Michael Pirson, Nicholas Rademacher, Vincent Stanley, Sandra Sullivan-Dunbar, Kirsten Swinth, Sandra Waddock

Web Writing Jack Dougherty, Tennyson O'Donnell, 2015-04-21 The essays in *Web Writing* respond to contemporary debates over the proper role of the Internet in higher education, steering a middle course between polarized attitudes that often dominate the conversation. The authors argue for the wise integration of web tools into what the liberal arts does best: writing across the curriculum. All academic disciplines value clear and compelling prose, whether that prose comes in the shape of a persuasive essay, scientific report, or creative expression. The act of writing visually demonstrates how we think in original and critical ways and in ways that are deeper than those that can be taught or assessed by a computer. Furthermore, learning to write well requires engaged readers who encourage and challenge us to revise our muddled first drafts and craft more distinctive and informed points of view. Indeed, a new generation of web-based tools for authoring, annotating, editing, and

publishing can dramatically enrich the writing process, but doing so requires liberal arts educators to rethink why and how we teach this skill, and to question those who blindly call for embracing or rejecting technology.

AI and the Future of Banking Tony Boobier, 2020-04-06 An industry-specific guide to the applications of Advanced Analytics and AI to the banking industry Artificial Intelligence (AI) technologies help organisations to get smarter and more effective over time - ultimately responding to, learning from and interacting with human voices. It is predicted that by 2020, half of all businesses will be using these intelligent, self-learning systems. Across its entire breadth and depth, the banking industry is at the forefront of investigating Advanced Analytics and AI technology for use in a broad range of applications, such as customer analytics and providing wealth advice for clients. *AI and the Future of Banking* provides new and established banking industry professionals with the essential information on the implications of data and analytics on their roles, responsibilities and personal career development. Unlike existing books on the subject which tend to be overly technical and complex, this accessible, reader-friendly guide is designed to be easily understood by any banking professional with limited or no IT background. Chapters focus on practical guidance on the use of analytics to improve operational effectiveness, customer retention and finance and risk management. Theory and published case studies are clearly explained, whilst considerations such as operating costs, regulation and market saturation are discussed in real-world context. Written by a recognised expert in AI and Advanced Analytics, this book: Explores the numerous applications for Advanced Analytics and AI in various areas of banking and finance Offers advice on the most effective ways to integrate AI into existing bank ecosystems Suggests alternative and complementary visions for the future of banking, addressing issues like branch transformation, new models of universal

banking and 'debranding' Explains the concept of 'Open Banking,' which securely shares information without needing to reveal passwords Addresses the development of leadership relative to AI adoption in the banking industry AI and the Future of Banking is an informative and up-to-date resource for bank executives and managers, new entrants to the banking industry, financial technology and financial services practitioners and students in postgraduate finance and banking courses.

The Student Newspaper Survival Guide Rachele

Kanigel,2011-09-07 The Student Newspaper Survival Guide has been extensively updated to cover recent developments in online publishing, social media, mobile journalism, and multimedia storytelling; at the same time, it continues to serve as an essential reference on all aspects of producing a student publication. Updated and expanded to discuss many of the changes in the field of journalism and in college newspapers, with two new chapters to enhance the focus on online journalism and technology Emphasis on Web-first publishing and covering breaking news as it happens, including a new section on mobile journalism Guides student journalists through the intricate, multi-step process of producing a student newspaper including the challenges of reporting, writing, editing, designing, and publishing campus newspapers and websites Chapters include discussion questions, exercises, sample projects, checklists, tips from professionals, sample forms, story ideas, and scenarios for discussion Fresh, new, full color examples from award winning college newspapers around North America Essential reading for student reporters, editors, page designers, photographers, webmasters, and advertising sales representatives

Oxford English for Academic Purposes Intermediate Student Book (B1+) Edward de Chazal,John Hughes,2015-08-13 Oxford English for Academic Purposes offers a specialist course covering listening, speaking and reading in key areas of academic life such as lectures, presentations and textbooks. The course is consistent

with levels A2 to C2 of the Common European Frame of Reference for the teaching of foreign languages.

The Academic Librarian in the Digital Age Tom

Diamond, 2020-08-24 As new technology and opportunities emerge through the revolutionary impacts of the digital age, the function of libraries and librarians and how they provide services to constituents is rapidly changing. The impact of new technology touches everything from libraries' organizational structures, business models, and workflow processes, to position descriptions and the creation of new positions. As libraries are required to make operational adjustments to meet the growing technological demands of libraries' customer bases and provide these services, librarians must be flexible in adapting to this fast-moving environment. This volume shares the unique perspectives and experiences of librarians on the front lines of this technological transformation. The essays within provide details of both the practical applications of surviving, adapting, and growing when confronted with changing roles and responsibilities, as well as a big picture perspective of the changing roles impacting libraries and librarians. This book strives to be a valuable tool for librarians involved in public and technical services, digital humanities, virtual and augmented reality, government documents, information technology, and scholarly communication.

The Great Mistake Christopher Newfield, 2016-11-15 A powerful, hopeful critique of the unnecessary death spiral of higher education, *The Great Mistake* is essential reading for those who wonder why students have been paying more to get less and for everyone who cares about the role the higher education system plays in improving the lives of average Americans.--Helen Small, author of *The Value of the Humanities* Los Angeles Review of Books

Fighting Political Gridlock David J. Toscano, 2021-09-07 In this profoundly polarized era, the nation has been transfixed on

the politics of Washington and its seemingly impenetrable gridlock. Many of the decisions that truly affect people's lives, however, are being made not on the federal level but in the states. Faced with Washington's political standoff, state governments are taking action on numerous vital issues, often impacting citizens and their communities far more than the decision makers in D.C. Despite this, few Americans really understand their state governments or the issues they address. In *Fighting Political Gridlock*, David Toscano reveals how the states are working around the impasse in Washington and how their work is increasingly shaping society. Long a central figure in one of the most important legislative bodies in the nation, the Virginia House of Delegates, Toscano brings a unique expertise to this urgent and timely discussion. Beginning with an analysis of state responses to COVID-19, including the processes and consequences of declaring states of emergency, he goes on to detail how various states are attacking issues in different ways—from education and voting to criminal justice and climate change—and provides a broad overview of how state actions affect our system of federalism. Toscano concludes with a call to action and civic engagement, including suggestions for how citizens and public officials can revitalize American democracy.

Asians Wear Clothes on the Internet Minh-Ha T.

Pham, 2015-10-21 In the first ever book devoted to a critical investigation of the personal style blogosphere, Minh-Ha T. Pham examines the phenomenal rise of elite Asian bloggers who have made a career of posting photographs of themselves wearing clothes on the Internet. Pham understands their online activities as “taste work” practices that generate myriad forms of capital for superbloggers and the brands they feature. A multifaceted and detailed analysis, *Asians Wear Clothes on the Internet* addresses questions concerning the status and meaning of “Asian taste” in the early twenty-first century, the kinds of cultural and economic work Asian tastes do, and the fashion public and

industry's appetite for certain kinds of racialized eliteness. Situating blogging within the historical context of gendered and racialized fashion work while being attentive to the broader cultural, technological, and economic shifts in global consumer capitalism, *Asians Wear Clothes on the Internet* has profound implications for understanding the changing and enduring dynamics of race, gender, and class in shaping some of the most popular work practices and spaces of the digital fashion media economy.

Choices in Relationships David Knox, Caroline Schacht, I. Joyce Chang, 2023-02-22 *Choices in Relationships* takes readers through the lifespan of relationships, marriages, and families, and utilizes research to help them make deliberate, informed choices in their interpersonal relationships. Drawing on extensive research, authors David Knox, Caroline Schacht, and I. Joyce Chang challenge students to think critically about the choice-making process, consider the consequences involved with choices, view situations in a positive light, and understand that not making a choice is a choice after all. The Fourteenth Edition features over 1000 new citations, increased emphasis and discussion of diversity and inclusion throughout each chapter, and the impact of the COVID-19 pandemic on individuals, couples, and families. This title is accompanied by a complete teaching and learning package. Contact your SAGE representative to request a demo. Learning Platform / Courseware SAGE Vantage is an intuitive learning platform that integrates quality SAGE textbook content with assignable multimedia activities and auto-graded assessments to drive student engagement and ensure accountability. 10th Anniversary Edition The Life You Can Save Peter Singer, 2019-12-01 In this Tenth Anniversary Edition of *The Life You Can Save*, Peter Singer brings his landmark book up to date. In addition to restating his compelling arguments about how we should respond to extreme poverty, he examines the progress we are making and recounts how the first edition transformed the lives both of readers and the people they helped. Learn how you can be part of the solution, doing good for others while adding fulfillment to your own life.

Teaching Science Students to Communicate: A Practical Guide Susan Rowland, Louise Kuchel, 2023-04-25 This highly-readable book addresses how to teach effective communication in science. The first part of the book provides accessible context and theory about communicating science well, and is written by experts. The second part focuses on the practice of teaching communication in science, with 'nuts and bolts' lesson plans direct from the pens of practitioners. The book includes over 50 practice chapters, each focusing on one or more short teaching activities to target a specific aspect of communication, such as writing, speaking and listening. Implementing the activities is made easy with class run sheets, tips and tricks for instructors, signposts to related exercises and theory chapters, and further resources. Theory chapters help build instructor confidence and knowledge on the topic of communicating science. The teaching exercises can be used with science students at all levels of education in any discipline and curriculum – the only limitation is a wish to learn to communicate better! Targeted at science faculty members, this book aims to improve and enrich

communication teaching within the science curriculum, so that science graduates can communicate better as professionals in their discipline and future workplace.

An Ed-Tech Tragedy? UNESCO, West, Mark, 2023-09-08

Web Programming with HTML5, CSS, and JavaScript

Dean, 2018-01-19 Web Programming with HTML5, CSS, and JavaScript is written for the undergraduate, client-side web programming course. It covers the three client-side technologies (HTML5, CSS, and JavaScript) in depth, with no dependence on server-side technologies.

Code Red E.J. Dionne, Jr., 2020-02-04 An exquisitely timed book ... Code Red is a worthwhile exploration of the shared goals (and shared enemies) that unite moderates and progressives. But more than that, it is a sharp reminder that the common ground on which Dionne built his career has been badly eroded, with little prospect that it will soon be restored.” —The New York Times Book Review New York Times bestselling author and Washington Post columnist E. J. Dionne, Jr. sounds the alarm in Code Red, calling for an alliance between progressives and moderates to seize the moment and restore hope to America’s future for the 2020 presidential election. Will progressives and moderates feud while America burns? Or will these natural allies take advantage of the greatest opportunity since the New Deal Era to strengthen American democracy, foster social justice, and turn back the threats of the Trump Era? The United States stands at a crossroads. Broad and principled opposition to Donald Trump’s presidency has drawn millions of previously disengaged citizens to the public square and to the ballot boxes. This inspired and growing activism for social and political change hasn’t been seen since the days of Franklin Roosevelt’s New Deal policies and the Progressive and Civil Rights movements. But if progressives and moderates are unable—and unwilling—to overcome their differences, they could not only enable Trump to prevail again but also squander an occasion for launching a new era of reform. In

Code Red, award-winning journalist E. J. Dionne, Jr., calls for a shared commitment to decency and a politics focused on freedom, fairness, and the future, encouraging progressives and moderates to explore common ground and expand the unity that brought about Democrat victories in the 2018 elections. He offers a unifying model for furthering progress with a Politics of Remedy, Dignity, and More: one that solves problems, resolve disputes, and moves forward; that sits at the heart of the demands for justice by both long-marginalized and recently-displaced groups; and that posits a positive future for Americans with more covered by health insurance, more with decent wages, more with good schools, more security from gun violence, more action to roll back climate change. Breaking through the partisan noise and cutting against conventional wisdom to provide a realistic look at political possibilities, Dionne offers a strategy for progressives and moderates to think more clearly and accept the responsibilities that history now imposes on them. Because at this point in our national story, change can't wait.

Positioning English for Specific Purposes in an English Language Teaching Context Nadežda Stojković, 2019-01-18

With the unrelenting spread of globalization, the English language has been firmly established as the Lingua Franca. Now more than ever, the importance of learning English is paramount within nearly all professional and educational sectors. English for Specific Purposes (ESP) has long been accepted as an effective method for teaching English as a foreign language. In recent years, it has experienced an increasing presence in secondary and tertiary education across the globe. This is predominantly due to its learner-centered approach that focuses on developing linguistic competence in the student's specific discipline, may that be academics, business or tourism, for example. Positioning English for Specific Purposes in an English Language Teaching Context attempts to present and define the relevance and scope of ESP within English Language teaching. From mobile phones as

educational tools to the language needs of medical students, the contributors to this volume examine and propose different epistemological and methodological aspects of ESP teaching. Its unique approach to ESP marks this volume out as an important and necessary contribution to existing ESP literature, and one that will be of use to both researchers and practitioners of ESP.

Top Five Regrets of the Dying Bronnie Ware, 2019-08-13
Revised edition of the best-selling memoir that has been read by over a million people worldwide with translations in 29 languages. After too many years of unfulfilling work, Bronnie Ware began searching for a job with heart. Despite having no formal qualifications or previous experience in the field, she found herself working in palliative care. During the time she spent tending to those who were dying, Bronnie's life was transformed. Later, she wrote an Internet blog post, outlining the most common regrets that the people she had cared for had expressed. The post gained so much momentum that it was viewed by more than three million readers worldwide in its first year. At the request of many, Bronnie subsequently wrote a book, *The Top Five Regrets of the Dying*, to share her story. Bronnie has had a colourful and diverse life. By applying the lessons of those nearing their death to her own life, she developed an understanding that it is possible for everyone, if we make the right choices, to die with peace of mind. In this revised edition of the best-selling memoir that has been read by over a million people worldwide, with translations in 29 languages, Bronnie expresses how significant these regrets are and how we can positively address these issues while we still have the time. *The Top Five Regrets of the Dying* gives hope for a better world. It is a courageous, life-changing book that will leave you feeling more compassionate and inspired to live the life you are truly here to live.

The Spirituality of the English and American Deists Joseph Waligore, 2023-01-15
The English and American deists rejected

Christianity, which they believed portrayed God as cruel. In *The Spirituality of the English and American Deists*, Waligore shows how the deists were the first group of modern thinkers who were spiritual but not religious.

Glass Half Full Benjamin H. Barton, 2015-05-15 The hits keep coming for the American legal profession. Law schools are churning out too many graduates, depressing wages, and constricting the hiring market. Big Law firms are crumbling, as the relentless pursuit of profits corrodes their core business model. Modern technology can now handle routine legal tasks like drafting incorporation papers and wills, reducing the need to hire lawyers; tort reform and other regulations on litigation have had the same effect. As in all areas of today's economy, there are some big winners; the rest struggle to find work, or decide to leave the field altogether, which leaves fewer options for consumers who cannot afford to pay for Big Law. It would be easy to look at these enormous challenges and see only a bleak future, but Ben Barton instead sees cause for optimism. Taking the long view, from the legal Wild West of the mid-nineteenth century to the post-lawyer bubble society of the future, he offers a close analysis of the legal market to predict how lawyerly creativity and entrepreneurialism can save the profession. In every seemingly negative development, there is an upside. The trend towards depressed wages and computerized legal work is good for middle class consumers who have not been able to afford a lawyer for years. The surfeit of law school students will correct itself as the law becomes a less attractive and lucrative profession. As Big Law shrinks, so will the pernicious influence of billable hours, which incentivize lawyers to spend as long as possible on every task, rather than seeking efficiency and economy. Lawyers will devote their time to work that is much more challenging and meaningful. None of this will happen without serious upheaval, but all of it will ultimately restore the health of the faltering profession. A unique contribution to our understanding of the

legal crisis, the unconventional wisdom of Glass Half Full gives cause for hope in what appears to be a hopeless situation.

Second Class No Longer Phillip L. Beukema, 2023-10-19 No one could have predicted thirty years ago that online learning would become such a key facet of our educational landscape in nearly every corner of the world. Online teaching and learning have evolved rapidly and far more widely than imaginable, accompanied by huge impacts on business, society, and our entire educational enterprise. Drawing on his extensive experience in online teaching at both the graduate and undergraduate level as well as his 25 years in higher ed administration, the author paints a global picture of the evolution of online education. He describes how one country after another has witnessed the astonishing growth of online degrees and “microcredentials” of all kinds. Along the way, he dispels the myths and misperceptions that have grown up around online learning. With incisive analysis built on solid data, the author demonstrates that online programs are no longer regarded as second class but in fact are fully in the mainstream of higher education. Not only that but he predicts that, by 2030, they will become the gold standard by which the more traditional degrees will be judged.

Unveiling the Magic of Words: A Overview of "**Options University Blog 10**"

In a world defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their capability to kindle emotions, provoke contemplation, and ignite transformative change is really awe-inspiring. Enter the realm of "**Options University Blog 10**," a mesmerizing literary masterpiece penned with a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique,

we shall delve in to the book is central themes, examine its distinctive writing style, and assess its profound effect on the souls of its readers.
