The iPhone Photography Book Scott Kelby,2021-02-05 **Learn to take great photos with your iPhone—the camera you always have with you!**

Imagine if someone took the same photographic techniques, principles, and tools used by high-end and professional photographers, but applied them to shooting with an iPhone. Imagine the type of images you'd be able to create using those same ideas. Well, finally, somebody has.

The world's #1 best-selling photography techniques author is about to break all the rules as he shows you how to apply the same techniques today's top pro photographers use to make stunning images. You're going to learn exactly how to use these techniques to create images that people will just not believe you could actually take with a phone (but with the quality of the iPhone's camera, you absolutely can!).

Scott leaves all the techno-speak behind and, instead, treats the whole book as if it were just you and he out on a shoot with your iPhones, using his trademark casual, plain-English writing style to help you unlock the power of your iPhone to make the type of pictures you never thought could be done with a phone. You'll learn:

- Which tools to use to make pro-quality portraits in any lighting situation.
- How to create stunning landscape shots that people will swear you took with an expensive DSLR or mirrorless camera.
- Proven posing techniques that flatter your subject and make anyone you photograph look their very best in every shot.
- How to organize and edit your photos like a pro!
- The pros' top tips for making amazing shots of everything from flowers to product shots, from food photography to travel shots, and everything in between.

Each page covers a single concept, a single tool, or a trick to take your iPhone photography from snapshots to shots that will make your friends and family say, "Wait...you took this?!"

Jesus Imandars and Christ Bhaktas Jonas Adelin Jørgensen,2008 The massive changes of Christianity during the 20th century raise the perennial question about its identity in a new, radical form. The author addresses the question of identity and asks how globalisation, religious pluralism, and the polycentric nature of Christianity affect Christian self-identification and theological reflection. First, religious life and theological reflection among believers in Jesus from Muslim and Hindu background in South Asia is presented in two empirical studies. Secondly, the findings are analysed and interpreted within a broad theoretical framework, drawing on models for syncretistic processes from history of religions, cultural anthropology, and Christian theology. Finally, the study concludes with a systematic-theological perspective on the interreligious hermeneutics underlying the changes of Christianity and discusses how interreligious hermeneutics might inform missiology as well as Christian theologies of religions and how this might challenge our understanding of the church's nature and mission. In conclusion, it is argued that a global, polycentric Christianity can be interpreted as fellowship created by the Spirit and centred on Christ.
