Making Sculpture from Scrap Metal Peter Parkinson, 2015-09-30 Transforming unlikely pieces of scrap metal into significant works of art - giving new life to things we throw away - is an accessible, creative and fulfilling activity. This book describes and illustrates the concerns and techniques involved in making this kind of sculpture, looking behind the work at the richness and diversity of an area of sculpture that deserves to be far better known. Topics covered include the role and purpose of sculpture, the particular qualities of sculpture made from scrap metal and the practical processes

involved in its making. It also covers sources of scrap metal, identifying metals, reviewing metalworking techniques, creative approaches, different types of sculpture, and the making, finishing and installation of pieces of sculpture. This book will be of great interest to blacksmiths, sculptors and metalworkers and is beautifully illustrated with 108 colour photographs from work by professional sculptors and students, showcasing a range of different approaches.

Creating Memory John Warkentin,2010 Toronto has over 600 public outdoor sculptures, works of art that provide a sense of the rich variety of life and work in the city, its peoples, cultures and aspirations. Interest in commissioning public sculpture began slowly in the nineteenth and early twentieth century, but increased rapidly after the 1950s.This is a book about the sculptures and how they disclose the city to itself. *Creating Memory's* two introductory sections examine the factors behind this expansion over time and the changes in style as one generation of sculptors succeeded another. It looks at the reasons behind the changes as sculptures were conceived, sculpted and erected. More than 10 categories of sculptures are defined and discussed, including Founding the City, Natural Environment, Immigration, Ethnic Groups, Economic Activities, Disaster and Calamity, War And Conflict, Leaders, Ordinary Citizens, Community Life, and Works of the Imagination.

Washington Sculpture James M. Goode, 2009-02-23 This sweeping study takes readers on a fascinating tour of Washington, D.C.'s monuments, statues, headstones, and memorials. James M. Goode canvasses more than 500 sculptural pieces, often overlooked by residents and visitors, and presents critical discussions and detailed histories of each work. The result is a graphic history of the cultural, political, and military contributions of America's greatest leaders. *Washington Sculpture* revises and updates Goode's classic 1974 book *The Outdoor Sculpture of Washington, D.C.*, expanding its survey to include pieces found in nearby Maryland and Virginia, unusual cemetery sculpture, and monuments recently erected on the National Mall—the National WWII Memorial, the Korean War Veterans Memorial, the Vietnam Veterans Memorial, and the Franklin Delano Roosevelt Memorial. Chapters explore the city's fourteen neighborhoods as well as the Maryland and Virginia suburbs. Both a guide for visitors and a reference for serious historians, *Washington Sculpture* offers the most comprehensive examination of urban sculpture in the nation's capital.
