Striking Succulent Gardens Gabriel

Frank, 2021-01-26 Design a succulent garden of your own, with inspiration, advice, and instructional step-by-step projects for container gardens, small-space gardens, mixed gardens, and more. You can't help but be mesmerized by the eye-catching geometric forms and jewel-toned colors of succulents. But how do you grow these beauties in your own garden? One of the only books dedicated to succulent garden design, *Striking Succulent Gardens* is a stylish, modern gardening book for beginners and enthusiasts alike. Known for his colorful approach and bold use of varied textures and shapes, garden designer Gabriel Frank offers practical ideas, simple concepts, stunning full-color photography, step-by-step instructions for a dozen different gardens, plant recommendations, basic succulent care, and an inspired approach to creating living art in your own garden. For those in colder climates, there is a list of cold-hardy succulents and advice for bringing container gardens indoors for the winter, making succulent gardens achievable no matter where you live. Tough, water-wise, wildly popular, and nearly indestructible, succulents will transform your outdoor space, providing gardens of every size with minimal maintenance and maximum impact.

Creating Memory John Warkentin, 2010 Toronto has over 600 public outdoor sculptures, works of art that provide a sense of the rich variety of life and work in the city, its peoples, cultures and aspirations. Interest in commissioning public sculpture began slowly in the nineteenth and early twentieth century, but increased rapidly after the 1950s. This is a book about the sculptures and how they disclose the city to itself. *Creating Memory's* two introductory sections examine the factors behind this

expansion over time and the changes in style as one generation of sculptors succeeded another. It looks at the reasons behind the changes as sculptures were conceived, sculpted and erected. More than 10 categories of sculptures are defined and discussed, including Founding the City, Natural Environment, Immigration, Ethnic Groups, Economic Activities, Disaster and Calamity, War And Conflict, Leaders, Ordinary Citizens, Community Life, and Works of the Imagination.

Making Sculpture from Scrap Metal Peter Parkinson, 2015-09-30
Transforming unlikely pieces of scrap metal into significant works of art - giving new life to

things we throw away - is an accessible, creative and fulfilling activity. This book describes and illustrates the concerns and techniques involved in making this kind of sculpture, looking behind the work at the richness and diversity of an area of sculpture that deserves to be far better known. Topics covered include the role and purpose of sculpture, the particular qualities of sculpture made from scrap metal and the practical processes involved in its making. It also covers sources of scrap metal, identifying metals, reviewing metalworking techniques, creative approaches, different types of sculpture, and the making, finishing and installation of pieces of sculpture. This book will be of great interest to blacksmiths, sculptors and metalworkers and is beautifully illustrated with 108 colour photographs from work by professional sculptors and students, showcasing a range of different approaches.

Lives Shaped by Steel Nancy B. Zastrow,2004-01-01 Metal art can bring life to its surroundings. A gate or railing may so perfectly adorn a garden or building that the place would seem bare and ordinary without it. This book is about that kind of metal and the artists who dream it and create it. Interviews with over 40 artists tell how they started, what inspires them, and how they approach their work.

Zinc Sculpture in America, 1850-1950 Carol A.

Grissom, 2009 Introduced in the United States as a new material for statuary in the mid-nineteenth century, zinc has properties that allowed replication at low cost. It was used to produce modestly priced serial sculpture displayed throughout the nation on fountains, public monuments, and war memorials. Imitative finishes created the illusion of more costly bronze, stone, or polychrome wood. This first comprehensive overview of American zinc sculpture is interdisciplinary, engaging aspects of art history, popular culture, local history, technology, and art conservation. Included is a generously illustrated catalogue presenting more than eight hundred statues organized by type: trade figures and Indians, gods and goddesses, fountain figures, animals, famous men, military figures, firemen, cemetery memorials, and religious subjects. The compilation of data on these statues will be valuable to scholars, filling the current void in research libraries. The author's experience as a conservator will also make this an essential resource for historic preservationists seeking to repair statues now damaged by years of outdoor exposure. This book has 555 illustrations, 354 of which are in color. Carol Grissom is Senior Objects Conservator at the Smithsonian's Museum Conservation Institute.

New York Magazine ,1983-07-18 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

Midnight in the Garden of Good and Evil John Berendt,1994-01-13 NATIONAL BESTSELLER • A modern classic of true crime, set in a most beguiling Southern city—now in a 30th anniversary edition with a new afterword by the author “Elegant and wicked . . . might be the first true-crime book that makes the reader want to book a bed and breakfast for an extended weekend at the scene of the crime.”—The New York Times Book Review Shots rang out in Savannah’s grandest mansion in the misty, early morning hours of May 2, 1981. Was it murder or self-defense? For nearly a decade, the shooting and its aftermath reverberated throughout this hauntingly beautiful city of moss-hung oaks and shaded squares. In this sharply observed, suspenseful, and witty narrative, John Berendt skillfully interweaves a hugely entertaining first-person account of life in this isolated remnant of the Old South with the unpredictable twists and turns of a

landmark murder case. It is a spellbinding story peopled by a gallery of remarkable characters: the well-bred society ladies of the Married Woman's Card Club; the turbulent young gigolo; the hapless recluse who owns a bottle of poison so powerful it could kill every man, woman, and child in Savannah; the aging and profane Southern belle who is the "soul of pampered self-absorption"; the uproariously funny drag queen; the acerbic and arrogant antiques dealer; the sweet-talking, piano-playing con artist; young people dancing the minuet at the black debutante ball; and Minerva, the voodoo priestess who works her magic in the graveyard at midnight. These and other Savannahians act as a Greek chorus, with Berendt revealing the alliances, hostilities, and intrigues that thrive in a town where everyone knows everyone else. Brilliantly conceived and masterfully written, *Midnight in the Garden of Good and Evil* is a sublime and seductive reading experience.
