*Regional Economic Outlook, April 2015, Sub-Saharan Africa* International Monetary Fund. African Dept.,2015-04-28 The sharp decline in oil and other commodity prices have adversely impacted sub-Saharan Africa. Nevertheless, the region is projected to register another year of solid economic performance. In South Africa, however, growth is expected to remain lackluster, while in Guinea, Liberia, and Sierra Leone the Ebola outbreak continues to exact a heavy economic and social toll. This report also considers how sub-Saharan Africa can harness the demographic dividend from an unprecedented increase in the working age population, as well as the strength of the region's integration into global value chains.

**The Twelve-Note Music of Anton Webern** Kathryn Bailey,1991 This important new study reassesses the position of Anton Webern in twentieth-century music. The twelve-note

method of composition adopted by Anton Webern had profound consequences for composers of the next generation such as Stockhausen and Boulez, who saw Webern's music as revolutionary. In her detailed analyses, however, Professor Bailey demonstrates a fundamentally traditional aspect to Webern's creativity, when describing his own music. Professor Bailey analyses all Webern's twelve-note works (from Op. 17 to Op. 31) i.e. the instrumental and vocal music written between 1924 and 1943. These analyses draw on sketch material recently made available at the Paul Sacher Foundation in Basel and include transcriptions of little-known drafts and sketches. A most valuable aspect of the book is the inclusion in appendices of such materials as a complete explanation of the row content of each work, the correct prime form of each of the rows from Op. 20 onwards, with a matrix constructed for each, and exhaustive row analyses.

*Cross-Border Investing* Julia Djarova, 2004-03-31 Cross-Border Investing: The Case of Central and Eastern Europe offers a view that reflects two main hypotheses: -You cannot understand foreign direct investment (FDI) trends and developments unless you understand the company's motives to invest, -You cannot understand a company's cross-border investment decision-making unless you understand what the investment area offers. This is the reason why this text builds up a relationship between the world of companies' decision-makers and that of the policy makers in the public sector. It does so by linking the business processes to the factors that together constitute the location profile of a country or a

region. Based on more than 15 years of practical experience as well as research in the field of FDI, Dr Julia Djarova offers a Cross-Border Investment Model to describe the logic behind the decision-making process concerning foreign investments made by companies. The model is illustrated by a number of case studies of multinationals.
