Truth and Rumors Bill Brioux, 2007-12-30 When you first heard it, you couldn't believe it: Jerry Mathers, from TV's Leave It To Beaver, had been killed in Vietnam. Then word came that Abe Vigoda, the actor who played the curmudgeonly cop Fish on Barney Miller, was dead; and that Mikey, who would eat anything as the Life Cereal tyke,

had eaten too many Pop Rocks and exploded. Besides exposing us to things we couldn't otherwise believe, television can convince us of things that never actually happened. But how did these outrageous TV legends get started? How did they spread from classrooms to boardrooms across North America and beyond? And, most important, what do these rumors, so quickly transformed into facts and common knowledge, reveal about our relationship to reality through the medium of television? Put in other words, what exactly is it that were doing when were dealing in these fabulous rumors—are we chasing after surprising truths or simply more incredible entertainment? To take one telling example: Jerry Mathers was not actually killed in Vietnam—but the basic sense of this lie wasn't far removed from the emotions factually expressed in the two-page spread of the faces of the dead in Time magazine. In the course of this compelling work—which is supplemented with interviews with many of the people implicated in these rumors—author Bill Brioux exposes the reality behind the many stories that currently circulate in our culture. Through these stories (both true and false), he sheds a revealing light on just what role these rumors play in contemporary society—and what role our society plays in regard to these rumors as well.

Glued to the Set Steven D. Stark, 1998 Call it literate fun. Ranging from the 1940's to the 1990's and focusing on 60 programs that will surprise you, Stark comments on TV history in a smart, pithy voice and reveals how as a nation we've moved from Lucy and Ricky to Roseanne and Dan; from Howdy Doody to Sesame Street -- and what that says about us. You may think you know television -- but when Steven Stark is finished pushing your buttons with fighting words and brilliant insights, you'll see what television has done to us as a nation in a whole new way. From Beaver to Roseanne, Ed Sullivan to Oprah, Monday Night Football to MTV, Stark takes us on a guided tour of the tube, providing startling revelations about the power of its sixty most important shows and events in the history of television. He catches in bright focus a hilarious, strange, and compelling image of ourselves as reflected on the small screen, and he shows us, with striking logic, the awesome power of television over our future and our fate.

**The Speed Traders: An Insider's Look at the New High-Frequency Trading Phenomenon That is Transforming the Investing World** Edgar

Perez, 2011-05-06 The secrets of high-frequency trading revealed! "Edgar's book is fantastic . . . I recommend it highly." —Bart Chilton, Commissioner, United States Commodity Futures Trading Commission (CFTC) "I have interviewed the most successful high-frequency traders in New York and Chicago, but I have learned so much more by reading Perez's book. He covers the most relevant

topics we need to know today and tomorrow.” —Mark Abeshouse, Chairman, Augustus Capital “Alternating between an annotated timeline of the development of high-frequency trading and interviews with top high-frequency traders, Perez illuminates the world of speed. All in all, an enlightening book.” —Brenda Jubin, contributor to Seeking Alpha “This is a comprehensive and compelling summary of the trading industry in general, as well as high-frequency trading. If you are interested in this field or of knowing a critical component of all future markets—read this book.” —Paul Dowding, Managing Director, Meridian Equity Partners “Very timely, covers the 2010 Flash Crash and the current high-frequency trading environment.” —Patrick Sweeney, Vice President, JP Morgan Chase “There is a new day in trading and speed is the key. Edgar Perez is the poster child.” —Eugene Steele, Managing Partner, Trading Rooms World Wide About the Book: High-frequency traders have been called many things—from masters of the universe and market pioneers to exploiters, computer geeks, and even predators. Everyone in the business of investing has an opinion of speed traders, but how many really understand how they operate? The shadow people of the investing world, today’s high-frequency traders have decidedly kept a low profile—until now. In *The Speed Traders*, Edgar Perez, founder of the prestigious business networking community Golden Networking, opens the door to the secretive world of high-frequency trading (HFT). Inside, prominent figures of HFT drop their guard and speak with unprecedented candidness about their trade. Perez begins with an overview of computerized trading, which formally began on February 8, 1971, when NASDAQ launched the world’s first electronic market with 2,500 over-the-counter stocks and which has evolved into the present-day practice of making multiple trades in a matter

of microseconds. He then picks the brains of today's top players. Manoj Narang (Tradeworx), Peter van Kleef (Lakeview Arbitrage), and Aaron Lebovitz (Infinium Capital Management) are just a few of the luminaries who decided to break their silence and speak openly to Perez. Virtually all of the expertise available from the world of speed trading is packed into these pages. You'll get insight from HFT's most influential trailblazers on the important issues, including: The basics of launching an HFT platform The important role speed traders play in providing market liquidity The real story behind the "flash crash" of May 2010 Emerging global HFT markets M&A and consolidation among the world's biggest exchanges The Speed Traders is the most comprehensive, revealing work available on the most important development in trading in generations. High-frequency trading will no doubt play an ever larger role as computer technology advances and the global exchanges embrace fast electronic access. Essential reading for regulators and investors alike, The Speed Traders explains everything there is to know about how today's high-frequency traders make millions—one cent at a time.

**Spy Television** Wesley Britton, 2004-01-30 For half a century, television spies have been trained professionals, reluctant heroes, housewives, businessmen, criminals, and

comedians. They have by turns been glamorous, campy, reflective, sexy, and aloof. This is the first book-length treatment of one of TV's oldest and most fascinating genres. Britton's comprehensive guide provides readers, from casual viewers to die-hard fans, with behind-the-scenes stories to this notable segment of television entertainment. From the early 1960s, in which television spies were used essentially as anti-Communist propaganda, through the subsequent years that both built upon and parodied this model, and finally to today's gadget-laden world of murky motives and complex global politics, spy television has served as much more than mere escapism. From the beginning, television spies opened doors for new kinds of heroes. Women quickly took center stage alongside men, and minority leads in spy programs paved the way for other kinds of roles on the small screen. For half a century, television spies have been trained professionals, reluctant heroes, housewives, businessmen, criminals, and comedians. They have by turns been glamorous, campy, reflective, sexy, and aloof. This is the first book-length treatment of one of TV's oldest and most fascinating genres.

**Crime Television** Douglas M. Snauffer, 2006-09-30

Crime dramas have been a staple of the television landscape since the advent of the medium. Along with comedies and soap operas, the police procedural made an easy transition from radio to TV, and starting with *Dragnet* in 1952, quickly became one of the most popular genres. Crime television has proven to be a fascinating reflection of changes and developments in the culture at large. In the '50s and early '60s, the square-jawed, just-the-facts detectives of *The Untouchables* and *The FBI* put police work in the best light possible. As the '60s gave way to the '70s, however, the depictions gained more subtle shading,

and *The Streets of San Francisco*, *The Rockford Files*, and *Baretta* offered conflicted heroes in more complex worlds. This trend has of course continued in more recent decades, with Steven Bochco's dramas seeking a new realism through frank depictions of language and sexuality on television. In chronicling these developments and illustrating how the genre has reflected our ideas of crime and crime solving through the decades, author Douglas Snauffer provides essential reading for any fan. This work provides a comprehensive history of detective and police shows on television, with, among other elements, production histories of seminal programs, and interviews with some of the most important writers and producers of crime television. Besides the shows listed above, this volume will also discuss such programs as: *Peter Gunn*, *The Mod Squad*, *Hawaii Five-O*, *Columbo*, *Starsky and Hutch*, *Charlie's Angels*, *Magnum P.I.*, *Miami Vice*, *T.J. Hooker*, *Remington Steele*, *Cagney and Lacey*, *Murder, She Wrote*, *The Commish*, *Homicide: Life on the Street*, *Monk*, and many more.

*Big Pictures on the Small Screen* Alvin H.

Marill, 2007-10-30 In the 1960s, US networks began to commission feature-length dramas expressly for television, and the genres that became known as *Movies Made for Television* and the mini-series emerged. This volume covers the important landmarks in the genre, from the earliest TV movies, through *Roots*, to *Rome*.
