Run, Rose, Run James Patterson,Dolly Parton,2024-07-23 From America's most beloved superstar and #1 New York Times bestselling author James Patterson comes a thriller about a young singer-songwriter on the rise--and on the run--and determined to do whatever it takes to survive. A new singer arrives in Nashville. She calls herself AnnieLee Keyes, and she has more beauty, talent, and ambition than most -- and a dangerous past that she's running from. Her performance of original songs at open-mic night at the Cat's Paw Saloon downtown transfixes Ethan Blake, back-up musician for country star Ruthanna Ryder. Ruthanna may have retired--for deeply personal reasons--but that doesn't mean she's stopped writing music. Every day, she records songs she'll never release. When Ruthanna hears AnnieLee sing, the legend decides to help the ingenue. But a boost from a mega-star like Ruthanna may spotlight the talented newcomer's secret. Now AnnieLee may not live long enough to realize her dreams of stardom--or for the world to learn her true identity.

Slides for Students Gary D. Fisk,2018-10-16 300 million powerpoint presentations are given daily, yet there is a disconnect between the amazing technology of powerpoint and a mediocre student learning experience. To unleash the full potential of powerpoint presentations, we must do a better job of creating presentations that fit the educational needs of students. Slides for Students does just that.Slides for Students is an open and honest discussion about powerpoint in the classroom. A need exists for thoughtfully designed and implemented classroom instruction that focuses on the learner rather than on the technology. This book was written to translate academic research findings into practical suggestions about powerpoint that educators can use. Divided into two parts, Slides for Students discusses the history of powerpoint, explores academic studies on the topic, and demonstrates how to design slides to best suit educational needs and engage with students to avoid the dreaded death by powerpoint.

The Lost Kitchen Erin French,2017-05-09 An evocative, gorgeous four-season look at cooking in Maine, with 100 recipes No one can bring small-town America to life better than a native. Erin French grew up in Freedom, Maine (population 719), helping her father at the griddle in his diner. An entirely self-taught cook who used cookbooks to form her culinary education, she now helms her restaurant, The Lost Kitchen, in a historic mill in the same town, creating meals that draw locals and visitors from around the world to a dining room that feels like an extension of her home kitchen. The food has been called “brilliant in its simplicity and honesty” by Food & Wine, and it is exactly this pure approach that makes Erin’s cooking so appealing—and so easy to embrace at home. This stunning giftable package features a vellum jacket over a printed cover.

The UNIX-haters Handbook Simson Garfinkel,Daniel Weise,Steven Strassmann,1994 This book is for all people who are forced to use UNIX. It is a humorous book--pure entertainment--that maintains that UNIX is a computer virus with a user interface. It features letters from the thousands posted on the Internet's UNIX-Haters mailing list. It is not a computer handbook, tutorial, or reference. It is a self-help book that will let readers know they are not alone.

Writing Effective Use Cases Alistair Cockburn,2001 This guide will help readers learn how to employ the significant power of use cases to their software development efforts. It provides a practical methodology, presenting key use case concepts.

The Wine Bible Karen MacNeil,2015-10-13 No one can describe a wine like Karen MacNeil. Comprehensive, entertaining, authoritative, and endlessly interesting, The Wine Bible is a lively course from an expert teacher, grounding the reader deeply in the fundamentals—vine-yards and varietals, climate and terroir, the nine attributes of a wine’s greatness—while layering on tips, informative asides, anecdotes, definitions, photographs, maps, labels, and recommended bottles. Discover how to taste with focus and build a wine-tasting memory. The reason behind Champagne’s bubbles. Italy, the place the ancient Greeks called the land of wine. An oak barrel’s effect on flavor. Sherry, the world’s most misunderstood and underappreciated wine. How to match wine with food—and mood. Plus everything else you need to know to buy, store, serve, and enjoy the world’s most captivating beverage.

EPLAN Electric P8 Bernd Gischel,2015-12-07 This reference book, now in its fourth edition, offers a comprehensive introduction to electrical engineering design with EPLAN Electric P8. Based on Version 2.5 of EPLAN Electric P8, this handbook gives you an introduction to the system basics before going into the range of functions offered by EPLAN Electric P8. This book covers topics such as project settings and various user settings, the graphical editor (GED), using navigators, creating reports, parts management, message management, revision management, importing and exporting project data, printing, data backup, editing master data and importing old EPLAN data. It also covers add-ons such as the EPLAN Data Portal. Numerous examples show you the many ways you can use EPLAN Electric P8 and give you ideas of how to best solve everyday tasks. Practical information, such as a step-by-step procedure for creating schematic projects and a chapter with FAQs, is also included. New topics covering Version 2.5 have also been added to this edition such as enhanced terminal functionality, improved structure management, user configurable properties as well as new reporting capabilities. The creation, management and use of macro projects is also covered in this book. The examples used in the book are available online as an EPLAN Electric P8 project.

Paper Engineering and Pop-ups For Dummies Rob Ives,2009-03-03 Paper Engineering & Pop-ups For Dummies covers a wide range of projects, from greeting cards to freestanding models. Understanding Citizen Journalism as Civic Participation Seungahn Nah,Deborah S. Chung,2020-02-17 Understanding Citizen Journalism as Civic Participation re-conceptualizes citizen journalism in the context of Habermas’s theory of the public sphere and communicative action, to examine how citizen journalism practice as civic participation may contribute to a healthier community and democracy in the civil society context. Citizen journalism has garnered growing attention owing to the participation of ordinary citizens in the performance of news production. Drawing on the authors’ decade-long collaboration on citizen journalism scholarship, this book posits a theoretical framework that relies on diverse communication perspectives to understand citizen journalism practice and its democratic consequences. This book will be of great relevance to scholars, researchers, professionals and policy makers working in the field of journalism and media studies, culture studies, and communication studies.

Changing Education Systems Mel Ainscow,Christopher Chapman,Mark Hadfield,2019-10-23 As countries seek to develop their education systems, achieving sustainable improvements amongst students from disadvantaged backgrounds remains a major challenge. This has considerable implications for those in the research community as they seek to influence developments in the field. Drawing on the authors’ extensive experiences as researchers, policy advisers and influencers, Changing Education Systems offers key insights on how to promote equity within education systems.

Exploring three large-scale national reform programmes, the book: Presents a series of propositions that are the basis of a research-based approach to system change Explains the creation of relationships in which academic researchers collaborate in the process of development Considers smaller place-based projects that are set within policy contexts dominated by the idea of market forces as a strategy for improvement Explores the steps needed to overcome locally specific barriers Changing Education Systems is a must-read for policy-makers and practitioners involved in educational reforms, as well as researchers wishing to contribute to and learn from such developments.

Energy and Economic Growth Timothy J. Foxon, 2017-10-18 Access to new sources of energy and their efficient conversion to provide useful work have been key drivers of economic growth since the industrial revolution. Western countries now need to transform their energy systems and move away from the single-minded pursuit of economic growth in order to reduce our carbon emissions, and to allow the environmental space for other countries to develop in a more sustainable way. Achieving this requires understanding of the dynamics of economic and industrial change with appreciation of the dependence of economies on ecological systems. Energy and Economic Growth thus examines the links between three issues: history of energy sources, technologies and uses; ecological challenges associated with the current dominant economic growth paradigm; and the future low carbon energy transition to mitigate human-induced climate change. Providing a historical understanding of the relevant connections between physical, social and economic changes, the book enables the reader to better understand the connection between their own energy use and global economic and environmental systems, and to be able to ask the right questions of our political and business leaders. This is a valuable resource for students, scholars and policy makers with an interest in energy, climate change and economic thinking.

Achieving Financial Stability and Growth in Africa Stephany Griffith-Jones, Ricardo Gottschalk, 2016-03-24 This book explores how the financial system should be regulated and structured to achieve the twin goals of inclusive growth and financial stability, with a focus on African low-income countries (LICs). The subject and content of this book is original in that it attempts to draw on the lessons and radical rethinking on the financial sector in developed and middle income countries, arising in the wake of the international financial crisis. It includes four in-depth country case studies, of Kenya, Ghana, Nigeria and Ethiopia, but also analyses the empirical evidence for Sub-Saharan Africa as a whole, evaluating the relevance (or not) of such major changes for the very different financial sectors and economies in low income countries. Achieving Financial Stability and Growth in Africa has major academic and policy implications, especially for low income countries, but also more generally, on broader issues. These include the desirable size of the financial sector, as well as more specific issues, such as the high cost of borrowing of small and medium enterprises in LICs, and possible measures to reduce it. Highly topical subjects like the appropriate regulation of the financial sector and management of capital flows are discussed in depth. Though drawing on comprehensive reviews of the literature, this volume has the virtue of the large comparative academic and policy experience of researchers, as well as in-depth case studies, that take account of institutional and economic features of low-income countries. Written by senior academics and policy-makers, this book is a must read for those researching or participating in the financial sectors of low-income countries, as well as in developed economies. It is also suitable for those who study political economy and public finance.

Hooked Nir Eyal, 2014-11-04 Revised and Updated, Featuring a New Case Study How do successful companies create products people can't put down? Why do some products capture widespread attention while others flop? What makes us engage with certain products out of sheer habit? Is there a pattern underlying how technologies hook us? Nir Eyal answers these questions (and many more) by explaining the Hook Model—a four-step process embedded into the products of many successful companies to subtly encourage customer behavior. Through consecutive “hook cycles,” these products reach their ultimate goal of bringing users back again and again without depending on costly advertising or aggressive messaging. Hooked

is based on Eyal's years of research, consulting, and practical experience. He wrote the book he wished had been available to him as a start-up founder—not abstract theory, but a how-to guide for building better products. *Hooked* is written for product managers, designers, marketers, start-up founders, and anyone who seeks to understand how products influence our behavior. Eyal provides readers with:

- Practical insights to create user habits that stick.
- Actionable steps for building products people love.
- Fascinating examples from the iPhone to Twitter, Pinterest to the Bible App, and many other habit-forming products.

Acronyms Abbreviations & Terms - A Capability Assurance Job Aid, 2005 The FAAT List is not designed to be an authoritative source, merely a handy reference. Inclusion recognizes terminology existence, not legitimacy. Entries known to be obsolete are included because they may still appear in extant publications and correspondence.
