Living on the Wind Scott Weidensaul,2000-04-15 Scott Weidensaul follows hawks over the Mexican coastal plains, Bar-tailed Godwits that hitchhike on gale winds 7,000 miles nonstop across the Pacific from Alaska to New Zealand, and the Myriad Songbirds whose numbers have dwindled so dramatically in recent years.

The Peregrine's Journey Madeleine Dunphy,2012-10-24 *The Peregrine's Journey* vividly describes one of the most remarkable feats in the animal kingdom. Beginning in Alaska and ending two months later in Argentina, the peregrine falcon's annual migration is an 8,000-mile flight across the Americas. This beautifully illustrated book allows young readers to follow one bird on its journey. Based on the actual migration of a real bird that was tracked by the U.S. Fish and Wildlife Service, the book is filled with amazing facts about the bird's diet, habits, and navigational abilities, as well as stunning views of the many

habitats the peregrine visits along the way.

Red-Tails in Love Marie Winn,1999-03-30 Updated Edition—Ten Years Later The scene of this enchanting (and true) story is the Ramble, an unknown wilderness deep in the heart of New York's fabled Central Park. There an odd and amiable band of nature lovers devote themselves to observing and protecting the park's rich wildlife. When a pair of red-tailed hawks builds a nest atop a Fifth Avenue apartment house across the street from the model-boat pond, Marie Winn and her fellow Regulars are soon transformed into obsessed hawkwatchers. The hilarious and occasionally heartbreaking saga of Pale Male and his mate as they struggle to raise a family in their unprecedented nest site, and the affectionate portrait of the humans who fall under their spell will delight and inspire readers for years to come.

Backyard Aluminum Casting One Street Components,2014-08-21 Build your own aluminum casting foundry. Cast bicycle shift levers or whatever else you have in mind. Learn to melt and cast scrap aluminum for profit or just for fun. While much of this book discusses the Bike Shift Lever project (read more at OneStreet.org under Programs, One Street Components), readers will learn how to cast just about anything using scrap aluminum and make a profit doing so. In addition to casting, the book also offers guidance on product marketing and sales. Starting with foundry and casting basics, readers learn how to build an inexpensive charcoal-fired furnace using a flowerpot or fired-clay bricks. An entire chapter is dedicated to sorting and melting scrap aluminum so that readers will always have an ample supply of quality metal for casting. The book wraps up with product marketing and sales, using Bike Shift Levers as the example, but showing how any cast aluminum product can be profitably produced in a backyard foundry. In the back of the book, readers will find: a detailed table of aluminum alloys to help them sort their scrap, the design drawings for the Bike Shift Lever. For readers interested in making Bike Shift Levers, they will learn how to become one of our license partners and receive a permanent casting mold that will hold up to many, many castings. License partners are critical to this project as we work to provide affordable, durable, and repairable shift levers to people worldwide who rely on their bicycles everyday. We also offer our license partners ongoing support for foundry solutions, marketing in their area, and bulk purchases of foundry and shift lever supplies. Backyard Aluminum Casting is for anyone who wants to try casting scrap aluminum into Bike Shift Levers or just about anything else that can be made out of aluminum.

Dark Siege Jason McLeod,2012-11-01 You never know what can be lurking in the cemeteries you casually drive by. Such was the case in the Fall of 1993, when Linda McLaughlin and her innocent six-year-old daughter Kelly passed by Easton Connecticut's Union Cemetery. Kelly didn't even know such spirits existed when an apparition materialized and tapped into her consciousness. Nothing could have prepared her for the suffocating terror that she would soon experience when it followed her home. The merciless spirit didn't stop with Kelly. It targeted each and every family member and their friends when they were alone and when they were most vulnerable. Then it targeted the alpha of the family, the wealthy, Real Estate Broker father, who was a natural skeptic and the last person to believe in ghosts. In this tale of real haunting phenomena, a Connecticut Family is plagued by evil spirits who infest their home. Will they ever get their lives back? Will these evil spirits continue to haunt them or will the family find help in ridding them of this terror from beyond the grave? This book explains in detail the process of investigating a 'haunted house' and what can be done about it. It explains the dangers involved with the negative occult and how dabbling in it can summon darkness and ruin into our lives which could last forever despite our every attempt to stop it.
