The White Coat Investor James M. Dahle, 2014-01 Written by a practicing emergency physician, The White Coat Investor is a high-yield manual that specifically deals with the financial issues facing medical students, residents, physicians, dentists, and similar high-income professionals. Doctors are highly-educated and extensively trained at making difficult diagnoses and performing life saving procedures. However, they receive little to no training in business, personal finance, investing, insurance, taxes, estate planning, and asset protection. This book fills in the gaps and will teach you to use your high income to escape

from your student loans, provide for your family, build wealth, and stop getting ripped off by unscrupulous financial professionals. Straight talk and clear explanations allow the book to be easily digested by a novice to the subject matter yet the book also contains advanced concepts specific to physicians you won't find in other financial books. This book will teach you how to: Graduate from medical school with as little debt as possible Escape from student loans within two to five years of residency graduation Purchase the right types and amounts of insurance Decide when to buy a house and how much to spend on it Learn to invest in a sensible, low-cost and effective manner with or without the assistance of an advisor Avoid investments which are designed to be sold, not bought Select advisors who give great service and advice at a fair price Become a millionaire within five to ten years of residency graduation Use a Backdoor Roth IRA and Stealth IRA to boost your retirement funds and decrease your taxes Protect your hard-won assets from professional and personal lawsuits Avoid estate taxes, avoid probate, and ensure your children and your money go where you want when you die Minimize your tax burden, keeping more of your hard-earned money Decide between an employee job and an independent contractor job Choose between sole proprietorship, Limited Liability Company, S Corporation, and C Corporation Take a look at the first pages of the book by clicking on the Look Inside feature Praise For The White Coat Investor Much of my financial planning practice is helping doctors to correct mistakes that reading this book would have avoided in the first place. - Allan S. Surveys David Lord,2023-08-17 Participating in paid surveys or focus groups is an easy and convenient way for individuals to share their opinions and experiences with companies. By providing valuable feedback, survey and focus group participants can help shape the products and services that are offered to consumers. Paid surveys are typically conducted online and can take anywhere from a few minutes to a few hours to complete. They may include multiple-choice questions, open-ended questions, or a combination of both. The questions are designed to gather information about a particular product, service, or topic. Survey participants are usually compensated with cash or gift cards for their time and effort.

The Routledge International Handbook of New Critical Race and Whiteness Studies Rikke Andreassen, Catrin Lundström, Suvi Keskinen, Shirley Anne Tate, 2023-06-22
Since its foundation as an academic field in the 1990s, critical race theory has developed enormously and has, among others, been supplemented by and (dis)integrated with critical whiteness studies. At the same time, the field has moved beyond its origins in Anglo-Saxon environments, to be taken up and re-developed in various parts of the world – leading to not only new empirical material but also new theoretical perspectives and analytical approaches. Gathering these new and global perspectives, this book presents a much-needed collection of the various forms, sophisticated theoretical developments and nuanced analyses that the field of critical race and whiteness theories and studies offers today. Organized around the themes of emotions, technologies, consumption, institutions, crisis, identities and on the margin, this presentation of critical race and whiteness theories and

studies in its true interdisciplinary and international form provides the latest empirical and theoretical research, as well as new analytical approaches. Illustrating the strength of the field and embodying its future research directions, The Routledge International Handbook of New Critical Race and Whiteness Studies will appeal to scholars across the social sciences and humanities with interests in race and whiteness.

The Global Lives of German Migrants Marcel

Erlinghagen, Andreas Ette, Norbert F. Schneider, Nils Witte, 2021 Based on the German case, this open access book highlights the increasing flows of migration and the internationalisation of individual life courses. It analyses the experiences of migration across four central domains - employment and income, partners and families, health and wellbeing, as well as friends and social participation - which potentially have far-reaching consequences for social inequalities and life chances. The book showcases results from an innovative probability sample that is representative of German emigrants who recently moved abroad and remigrants who recently returned from abroad and compares their international experiences with the sedentary population in Germany. Stays abroad, whether temporary or permanently, have become the new normal for increasing numbers of people from highly developed welfare states. Unnoticed from mainstream migration studies, these countries are today not only major immigration countries but also important sources of international mobility. By providing an empirically founded prism of the global lives of German migrants, this book is a valuable resource for students and researchers of migration, social inequality, and the life course and provides practitioners with insights into these regularly overlooked

aspects of international migration.

OECD Economic Surveys: Israel 2020 OECD,2020-09-23

The Israeli economy was performing well before the COVID-19 shock but the pandemic is threatening to reverse some of Israel's recent economic achievements, raise poverty and exacerbate wide productivity disparities between its vibrant high-tech sector and lagging sheltered sectors. Lockdown measures and high uncertainty have led to a sharp contraction in output and reduced employment.

Italian Studies on Food and Quality of Life Carolina

Facioni,Gabriele Di Francesco,Paolo Corvo,2022-05-11 The book explores, through a reflection on food, the complexity of the concept of well-being. It starts from the consideration that food is a fundamental element for human well-being, and for well-being of the planet as a whole. Not only does food guarantee the survival of human beings, it is also a cultural expression. With regard to the Italian socio-cultural context, the contributors explore how food relates to aspects such as history, tradition, new food styles, health, and the old and new technologies used to produce food. The studies in the book do not simply analyse indicators to illustrate the Italian situation in the here and now. As part of the tradition of studies on social indicators, they provide valid and well-founded indications to contribute to an improvement in the quality of life for years to come. This work on the theme of food represents a very useful contribution to the general reflection on well-being and its statistical, sociological, and multidisciplinary study, due to the importance historically given to food in Italy and the socio-cultural implications of food in various life contexts.

OECD Urban Studies Housing Affordability in Cities in the Czech Republic OECD,2021-06-23 While the full effects of the COVID-19 crisis on housing affordability in cities in the Czech Republic remain to be seen, the pandemic has

OECD Health Policy Studies Time for Better Care at the End of Life OECD,2023-02-07 With more chronic conditions and an ageing population, a growing share of the population will need end-of-life care, reaching close to 10 million people by 2050. While end-of-life care services help improve quality of life through relieving pain and other symptoms, currently, there are substantial gaps in the provision of services.

Community Engagement in the Online Space Dennis, Michelle, Halbert, James,2023-02-17 Since the advent of the internet, online communities have emerged as a way for users to share their common interests and connect with others with ease. As the possibilities of the online world grew and the COVID-19 pandemic raged across the world, many organizations recognized the utility in not only providing further services online, but also in transitioning operations typically fulfilled in-person to an online space. As society approaches a reality in which most community practices have moved to online spaces, it is essential that community leaders remain knowledgeable on the best practices in cultivating engagement. Community Engagement in the Online Space evaluates key issues and practices pertaining to community engagement in remote settings. It analyzes various community engagement efforts within remote education, online groups, and remote work. This book further reviews the best practices for community engagement and considerations for the optimization of these practices for effective virtual delivery to support emergency environmental challenges, such as pandemic conditions. Covering topics such as community belonging,

global health virtual practicum, and social media engagement, this premier reference source is an excellent resource for program directors, faculty and administrators of both K-12 and higher education, students of higher education, business leaders and executives, IT professionals, online community moderators, librarians, researchers, and academicians.
