Real Art! Douglas Brenner, Nancy Stahl, 2004 Yes you can! Give the gift of art. Give the gift of creativity. Give the gift of fun. Because now we can all paint with the best of them. Drawn from the annals of America's fondly remembered pastimes, Real Art! is an all-new, cleverly designed paint by number kit and the coolest gift of the season. Open the box and discover everything an artist needs to create a gallery of paintings suitable for framing--ten white canvas boards, 18 oversized pots of acrylic paint, and two brushes, one narrow and one medium. The images, newly created by artist Nancy Stahl, are iconic: a still life of luscious pears. A clipper ship in full sail. Tropical parrots in a study of exuberant hue. The geisha. The bustling street scene. And two bona fide masterpieces: van Gogh's Sunflowers and, yes, the Mona Lisa. Plus, pulling the full experience together is a 64-page full-color book of history, appreciation, and instruction. Illustrated throughout, it traces the canon of PBN subjects and artists, including the original brouhaha

over its place in the culture; and provides a how-to-paint primer-- including how to improvise, from choosing a varied color palette to leaving parts of the canvas blank, à la Warhol; plus tips on displaying your work and, ultimately, becoming a PBN collector.

Paint, Oil and Drug Review , 1909

How to See Color and Paint It Arthur Stern, 1984 Learn to see and mix any color with extraordinary precision! Many painters don't paint what they see, but what they expect to see, what they think they see, what they remember, or what they imagine things are supposed to look like. Since the mind stands in the way of the eye, the purpose of this revolutionary book is to train you to paint what your eye actually sees. Arthur Stern claims that color is key to painting what you see. After working with three generations of students, he developed a program of 22 painting projects that teach the artist to observe, identify, mix, match, and paint the

colors of the world with remarkable accuracy. Using a painting knife and oil paint, you learn to analyze every painting subject as a series of distinct color areas—called color spots—and place each spot on the canvas as a unique and vivid mixture. The fundamental lesson of the book is that if you put the right color spot in the right place, you create a realistic image of form, space, surface texture, atmosphere, light, and shade. As you follow the painting projects in this book, you'll make the dramatic discovery that everything in nature is filled with luminous color. You'll learn to see glowing color in the blackest shadow and the whitest linen. You'll learn when a green can appear red; how to use paint to replicate metal, glass, wood, paper, porcelain, and other opaque, transparent, or textured surfaces. Before long, you'll be seeing a multitude of colors in a slice of bread, apples and oranges, and a mass of green leaves. You'll learn how to paint quickly enough to capture a live still life—a flower that moves and slowly dies as you paint it. You'll even practice with a setup outdoors to see how sunlight and skylight affect color. *How to See Color and Paint* It is a must for beginners and a valuable asset for intermediate artists who want to develop a more subtle perception of color. A final section contains beautiful paintings of many subjects that have grown out of projects and

ideas taught in this book. 130 color plates; 40 black & white illustrations

Sometimes I Paint Cecil Moody, 2012 To paint one's life would

be impossible. To paint a vision of a past, and of a present time, can be done by anyone; even if it is only a point, a spot, a moment, a fragment of one's life, a memory painted on the format of a reverie. A reverie is usually considered to be a happy daydream of a memory. However, in one's subconscious bank of memories, there lie mountains and valleys of pictures both wonderfully happy as well as some that are quite sad.....even some that are excruciatingly painful. On paper or canvas, one can choose which pictures to paint. In sleeping dreams and in daydreams, one has no choice in the selection of subjects which come brushing across one's mind. I wish to dedicate this little book of my paintings to my family and friends who have appreciated my efforts, even if they might not have enjoyed viewing them, and especially to my son-in-law, Chris, who has been constant in his encouragement of my continued efforts to paint.
