The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

I'm from the Government and I'm Here to Kill You David T. Hardy, 2017-10-10 Gallup recently found that 49 percent of Americans believe that the government poses “an immediate threat to the rights and freedoms of ordinary citizens.” I'm from the Government and I'm Here to Kill You, written by a former federal attorney, shows that even the 49 percent have no idea how bad things really are. Rights and freedoms are not the only things at stake; all too often government imperils the very lives of those it supposedly serves. Federal employees have, with legal impunity, blown up a town and killed six hundred people, released staggering amounts of radioactive contamination and lied about the resulting cancer, allowed people to die of an easily treated disease in order to study their deaths, and run guns to Mexican

drug cartels in hopes of expanding agency powers. Law enforcement leaders have ordered their subordinates to commit murder. Medical administrators have “cooked the books” and allowed patients to die, while raking in plump bonuses. Federal prosecutors have sent Americans to prison while concealing evidence that proved their innocence. I’m from the Government documents how we came to this pass: American courts misconstrued and expanded the old legal concept of sovereign immunity, “the king can do no wrong.” When Congress attempted to allow suits against the government, the legislators used vague language that the courts construed to block most lawsuits. The result is a legal system that allows official negligence to escape legal consequences and paradoxically punishes an agency if it tries to secure public safety. I’m from the Government ends with proposals for legal reforms that will hold the government and its servants accountable when they inflict harm on Americans.

Young House Love Sherry Petersik, John Petersik, 2015-07-14 This New York Times bestselling book is filled with hundreds of fun, deceptively simple, budget-friendly ideas for sprucing up your home. Learn to trick out a thrift-store mirror, spice up plain old roller shades, hack your Ikea table to create three distinct looks, and so much more.

House of Hits Andy Bradley, Roger Wood, 2010-04-01 Founded in a working-class neighborhood in southeast Houston in 1941, Gold Star/SugarHill Recording Studios is a major independent studio that has produced a multitude of influential hit records in an astonishingly diverse range of genres. Its roster of recorded musicians includes Lightnin’ Hopkins, George Jones, Willie Nelson, Bobby “Blue” Bland, Junior Parker, Clifton Chenier, Sir Douglas Quintet, 13th Floor Elevators, Freddy Fender, Kinky Friedman, Ray Benson, Guy Clark, Lucinda Williams, Beyoncé and Destiny’s Child, and many, many more. In *House of Hits*, Andy Bradley and Roger Wood chronicle the fascinating history of Gold Star/SugarHill, telling a story that effectively covers the postwar popular music industry. They describe how Houston’s lack of zoning ordinances allowed founder Bill Quinn’s house studio to grow into a large studio complex, just as SugarHill’s willingness to transcend musical boundaries transformed it into one of the most storied recording enterprises in America. The authors offer behind-the-scenes accounts of numerous hit recordings, spiced with anecdotes from studio insiders and musicians who recorded at SugarHill. Bradley and Wood also place significant emphasis on the role of technology in shaping the music and the evolution of the music business. They include in-depth biographies of regional stars and analysis of the various styles of music they represent, as well as a list of all of Gold Star/SugarHill’s recordings that made the Billboard charts and extensive selected historical discographies of the studio’s recordings.

Women, Music and Leadership Helen Rusak, 2023-08-01 *Women, Music and Leadership* offers a wide-ranging survey of women in musical leadership and their experiences, highlighting women’s achievements and considering how they negotiate the challenges of the leadership space in music. Women have always participated in music as performers, teachers, composers and professionals, but remain underrepresented in leadership positions. Covering women’s leadership across a wide variety of roles and musical genres, this book addresses women in classical music, gospel, blues, jazz, popular music, electronic

music and non-Western musical contexts, and considers women working as composers, as conductors, and in music management and the music business. Each chapter includes several case studies of women's careers, exploring their groundbreaking contributions to music and the challenges they faced as leaders. Connecting management theory and leadership research with feminist musicology, this book paints a new picture of women's major contributions as leaders in music and their ongoing struggles for equity. It will be relevant to students and scholars in arts and music management, as well as all those studying music, gender or leadership, and women music professionals.

8 Days Jule Selbo,2023-12-06 Sometimes it's unclear who deserves a favor... Despite her life-changing injury, Dee Rommel is as determined and scrappy as ever. Still adjusting to her new life working for her godfather, private investigator Gordy Greer, Dee is ready to try out her hi-tech running blade, returning to the annual 10K competition. A mysterious car crashes and burns in the middle of Portland, Maine's Casco Bay Bridge. A young, once-sex-trafficked woman is killed and Dee finds herself protecting orphaned Yuusuf, a high school valedictorian who may be able to point to the murderer. When a toxic web of crime is revealed, both traditional and extended family dynamics are in play, as well as greed and ambition. Old relationships haunt Dee when nothing or no one is as they seem. She has only 8 days to keep her pursuit of justice in play, fighting for her allies and her own life.

Microorganisms in Home and Indoor Work Environments Brian Flannigan, Robert A. Samson, J. David Miller, 2016-04-19 In 2007, scientists estimated the direct cost of diseases associated with mould and dampness on the US population to be in the range of 4 billion dollars, and the indirect costs of lost work and school days are gauged even higher. The US Centers for Disease Control recently concluded that elimination of moisture and mouldy materials in the home definitively results in improved health. Unfortunately, problems of accurate assessment and precise identification plague the full understanding of the effects of mould on human health. Addressing exposure assessment and identification, *Microorganisms in Home and Indoor Work Environments: Diversity, Health Impacts, Investigation, and Control*, Second Edition discusses the methodology for conducting investigations on indoor environments, including details on key fungi and actinobacteria, and reflects advances in predicting their occurrence in buildings in various parts of the world. Beginning with a review of types of microorganisms in outdoor and indoor air, their growth and control in home and work environments, and their role in respiratory disease, this second edition presents new studies on pollen and its allergenic effects, the mechanistic basis for the effects of toxins and inflammatory agents on lung biology, and the use of molecular methods for determining microbial contaminants. On the practical side, this edition examines remediation, control, and quality assurance; occupational exposures in a wide range of environments; and infectious fungi and bacterial endotoxins in the built environment. Bringing together the state-of-the-science in this health-critical field, this accurate and timely book offers researchers, public health officials, and industrial hygienists crucial information on specific microorganisms in the built environment, along with current measurement and assessment solutions to clean up indoor air and keep residents and workers healthy in the future.
