*Creating Signature Stories* David Aaker, 2018-01-02 “All marketers should heed [the] advice” of this brand marketing guru in his latest book on digital storytelling.” —Joseph V. Tripodi, former Chief Marketing Officer, Subway and Coca-Cola Stories are orders of magnitude which are more effective than facts at achieving attention, persuading, being remembered, and inspiring involvement. Signature stories? intriguing, authentic, and involving narratives? apply the power of stories to communicate a strategic message. Marketing professionals, coping with the digital revolution and the need to have their strategic message heard internally and externally, are realizing that a digital strategy revolves around content and that content is stories. *Creating Signature Stories* shows organizations how to introduce storytelling into their strategic messaging, and guides organizations to find, or even create, signature stories and leverage them over time. With case studies built into every chapter, organizations will realize the power of storytelling to energize readers, gain visibility, persuade audiences, and inspire action.

*The Art of Strategy: A Game Theorist's Guide to Success in Business and Life* Avinash K. Dixit, Barry J. Nalebuff, 2010-01-04 “I am hard pressed to think of another book that can match the combination of practical insights and reading enjoyment.”—Steven Levitt Game theory means rigorous strategic thinking. It’s the art of anticipating your opponent’s next moves, knowing full well that your rival is trying to do the same thing to you. Though parts of game theory involve simple common sense, much is counterintuitive, and it can only be mastered by developing a new way of seeing the world. Using a diverse array of rich case studies—from pop culture, TV, movies, sports, politics, and history—the authors show how nearly every business and personal interaction has a game-theory component to it. Mastering game theory will make you more successful in business and life, and this lively book is the key to that mastery.

**The Future of the Bamiyan Buddha Statues** Masanori Nagaoka,2020-12-07 This Open Access book explores heritage conservation ethics of post conflict and provides an important historical record of the possible reconstruction of the Bamiyan Buddha statues, which was inscribed in the UNESCO World Heritage List in Danger in 2003 as “Cultural Landscape and Archaeological Remains of the Bamiyan Valley”. With the condition that most surface of the original fragments of the Buddha statues were lost due to acts of deliberate destruction, this publication explores a reference point for conservation practitioners and policy makers around the world as they consider how to respond to on-going acts of destruction of cultural heritage. Whilst there has been an emerging debate to the ethics and nature of heritage reconstruction, this volume provides a plethora of ideas and approaches concerning the future treatment of the Bamiyan Buddha statues. It also addresses a number of fundamental questions on potential heritage reconstruction: how it will be done; who will decide; and what it should be done for. Moreover when it comes to the inscribed World Heritage properties, how can reconstructed heritage using non-original materials be considered to retain authenticity? With a view to serving as a precedent for potential decisions taken elsewhere in the world for cultural properties impacted by acts of violence and destruction, this volume introduces academic researches, experiences and observations of heritage conservation theory and practice of heritage reconstruction. It also addresses the issue not merely from the point of a material conservation philosophy but within the context of holistic strategies for the protection of human rights and promotion of peace building.
