Human Dimension and Interior Space Julius Panero,Martin Zelnik,2014-01-21 The study of human body measurements on a comparative basis is known as anthropometrics. Its applicability to the design process is seen in the physical fit, or interface, between the human body and the various components of interior space. Human Dimension and Interior Space is the first major anthropometrically based reference book of design standards for use by all those involved with the physical planning and detailing of interiors, including interior designers, architects, furniture designers, builders, industrial designers, and students of design. The use of anthropometric data, although no substitute for good design or sound professional judgment should be viewed as one of the many tools required in the design process. This comprehensive overview of anthropometrics consists of three parts. The first part deals with the theory and application of anthropometrics and includes a special section dealing with physically disabled and elderly people. It provides the designer with the fundamentals of anthropometrics and a basic understanding of how interior

design standards are established. The second part contains easy-to-read, illustrated anthropometric tables, which provide the most current data available on human body size, organized by age and percentile groupings. Also included is data relative to the range of joint motion and body sizes of children. The third part contains hundreds of dimensioned drawings, illustrating in plan and section the proper anthropometrically based relationship between user and space. The types of spaces range from residential and commercial to recreational and institutional, and all dimensions include metric conversions. In the Epilogue, the authors challenge the interior design profession, the building industry, and the furniture manufacturer to seriously explore the problem of adjustability in design. They expose the fallacy of designing to accommodate the so-called average man, who, in fact, does not exist. Using government data, including studies prepared by Dr. Howard Stoudt, Dr. Albert Damon, and Dr. Ross McFarland, formerly of the Harvard School of Public Health, and Jean Roberts of the U.S. Public Health Service, Panero and Zelnik have devised a system of interior design reference standards, easily understood through a series of charts and situation drawings. With *Human Dimension and Interior Space*, these standards are now accessible to all designers of interior environments.

Modigliani Unmasked Mason Klein, 2017-01-01 An illuminating study of Amedeo Modigliani's early drawings and how they reflect the artist's conception of identity One of the great artists of the 20th century, Amedeo Modigliani (1884-1920) is celebrated for revolutionizing modern portraiture, particularly in his later paintings and sculpture. *Modigliani Unmasked* examines the artist's rarely seen early works on paper, offering revelatory insights into his artistic sensibilities and concerns as he developed his signature

style of graceful, elongated figures. An Italian Sephardic Jew working in turn-of-the-century Paris, Modigliani embraced his status as an outsider, and his early drawings show a marked awareness of the role of ethnicity and race within society. Placing these drawings within the context of the artist's larger oeuvre, Mason Klein reveals how Modigliani's preoccupation with identity spurred the artist to reconceive the modern portrait, arguing that Modigliani ultimately came to think of identity as beyond national or cultural boundaries. Lavishly illustrated with the artist's paintings and over one hundred drawings collected by Dr. Paul Alexandre, Modigliani's close friend and first patron, this book provides an engaging and long overdue analysis of Modigliani's early body of work on paper.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a

travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Design Dictionary Michael Erlhoff, Timothy Marshall, 2008-01-01 This dictionary provides a stimulating and categorical foundation for a serious international discourse on design. It is a handbook for everyone concerned with design in career or education, who is interested in it, enjoys it, and wishes to understand it. 110 authors from Japan, Austria, England, Germany, Australia, Switzerland, the Netherlands, the United States, and elsewhere have written original articles for this design dictionary. Their cultural differences provide perspectives for a shared understanding of central design categories and communicating about design. The volume includes both the terms in use in current discussions, some of which are still relatively new, as well as classics of design discourse. A practical book, both scholarly and ideal for browsing and reading at leisure.

Automotive Systems G.K. Awari, V.S. Kumbhar, R.B. Tirpude, 2021-01-26 This book introduces the principles and practices in automotive systems, including modern automotive systems that incorporate the latest trends in the automobile industry. The fifteen chapters present new and innovative methods to master the complexities of the vehicle of the future. Topics like vehicle classification, structure and layouts, engines, transmissions, braking, suspension and steering are illustrated with modern concepts, such as battery-electric, hybrid electric and fuel cell vehicles and vehicle maintenance practices. Each chapter is supported with examples, illustrative figures, multiple-choice questions and review questions. Aimed at senior undergraduate and graduate students in automotive/automobile engineering, mechanical engineering, electronics engineering, this book covers the following: Construction and working details of all modern as well as fundamental automotive systems Complexities of operation and assembly of various

parts of automotive systems in a simplified manner Handling of automotive systems and integration of various components for smooth functioning of the vehicle Modern topics such as battery-electric, hybrid electric and fuel cell vehicles Illustrative examples, figures, multiple-choice questions and review questions at the end of each chapter

Multimodal Texts from Around the World W. Bowcher, 2012-07-24 A first in multimodal/multisemiotic discourse studies this collection of original articles by international scholars focuses primarily on texts from non-English speaking contexts. Grenada International Monetary Fund, 1995-07-20 This paper describes economic developments in Grenada during the 1990s. The weak growth performance since 1990 reflected largely a continuous contraction in agricultural output, which declined each year from 1989 to 1993. The construction industry experienced a major contraction in 1992 owing to the sharp fall in public investment. In 1993, output declined in the mining and quarrying, construction, and manufacturing sectors as well as in agriculture. In contrast, the hotel and restaurant sector has exhibited strong growth since the late 1980s, with real value added growing by 13.8 percent, on average, each year since 1989.

Why We Fight William J. Bennett, 2002-05-14 The events of September 11, 2001, were an unforgettable tragedy, but they also revealed that the spirit of America is strong and undiminished. Not since the shocking attack on Pearl Harbor has the nation pulled together with such unity and purpose, resolving to endure whatever hardships may be necessary to win the war on terror. We were united in the defense of and belief in our country. It truly brought out the best in our national character. But a small group of influential public intellectuals, writers, members of the media, and academics were not part of this unified response. They still preached the same self-doubt about America and her traditions that have

steadily undermined our national confidence and resolve in recent decades. Within days of the attacks this debilitating mindset was in evidence, as influential figures rushed to point the finger at America and decry what they were sure would be our murderous and indiscriminate reaction. While most Americans remain confident of the justice and appropriateness of our military response in Afghanistan, these vocal critics have caused some to wonder whether we brought the attacks on ourselves because of our foreign policy, our popular culture, or our support for Israel. As we enter the next phase of what will undoubtedly be a protracted and dangerous struggle--a war unlike any other in our history--it is more important than ever to respond to these doubts and objections and to preserve the patriotic ardor seen in the wake of September 11. In clear, compelling, straightforward language, William Bennett takes up and refutes the many myths and misconceptions about America's character and role in world affairs that have become fashionable among our nation's elites. The morning of September 12 dawned with a stunning moral clarity that has guided the actions of many Americans, both her leaders and her citizens. Bennett seeks to preserve that clarity in order to ensure that our national resolve does not falter in this difficult and necessary war.
