Coordinated Portfolio investment Survey International Monetary Fund, 1997-01-01 This paper presents a coordinated portfolio investment survey guide provided to assist national compilers in the conduct of the Coordinated Portfolio Investment Survey, conducted under the auspices of the IMF with reference to the year-end 1997. The guide covers a variety of conceptual issues that a country must address when conducting a survey. It also covers the practical issues associated with preparing for a national survey. These include setting a timetable, taking account of the legal and confidentiality issues raised, developing a mailing list, and maintaining quality control checks.

The New Silk Road Becomes the World Land-Bridge Helga Zepp-LaRouche, Michael O. Billington, Ramtanu Maitra, Dennis Small, Bruce Director, Jason Ross, Paul Gallagher, Hussein Askary, Rachel Douglas, Benjamin Deniston, 2014-12 EIR RELEASES ROAD-MAP TO THE NEW WORLD ECONOMIC ORDER: THE NEW SILK ROAD BECOMES THE WORLD LAND-BRIDGE EIR's comprehensive study of the progress of the Eurasian Land-Bridge project which Lyndon and Helga LaRouche have championed for over 20 years, has finally been completed. The official release date is Dec. 1. The 374-page report, entitled *The New Silk Road Becomes the World Land-Bridge*, 'is nothing less than a conceptual, and often physical, road-map' to a New World Economic Order. This path is currently being charted by the nations of the BRICS (Brazil, Russia, India, China, and South Africa), who are leading a dynamic of global optimism toward real economic development, complete with new credit institutions and major high-technology projects for uplifting all mankind. After an introduction by Helga Zepp-LaRouche, the report lays out the Metrics of Progress, based on the economic scientific principles developed by renowned physical economist Lyndon LaRouche. It then proceeds region by region, beginning with China and Russia, to present the stunning progress, and plans, which have been made toward the Eurasian Land-Bridge design that the Chinese government laid out in 1996, and other nations have begun to rally behind in recent years. The report, complete with many full-color maps of its featured development corridors, is available in paperback for \$50 and hard cover bound for \$75.

Global Corruption Report 2004 Transparency International, 2004 Compiled by the world's leading independent anti-corruption organisation, this work provides a comprehensive overview of corruption around the globe. The special focus of this report is political corruption.

Global Corruption Report: Climate Change Transparency International, 2013-11-26 The global response to climate change will demand unprecedented international cooperation, deep economic transformation and resource transfers at a significant scale. Corruption threatens to jeopardise these efforts. Transparency International's Global Corruption Report: Climate Change is the first publication to comprehensively explore such corruption risks. More than fifty leading experts and practitioners contribute, covering four key areas: governance: investigating major

governance challenges towards tackling climate change mitigating climate change: reducing greenhouse gas emissions with transparency and accountability adapting to climate change: identifying corruption risks in climate-proofing development, financing and implementation of adaptation forestry governance: responding to the corruption challenges plaguing the forestry sector, and how these challenges need to be integrated into current international strategies to halt deforestation and promote reforestation. The Global Corruption Report: Climate Change provides essential policy analysis to help policy-makers, practitioners and other stakeholders understand these risks and develop effective responses at a critical point in time when the main architecture for climate governance is being developed.

Energy, Environment and Sustainable Development Mohammad Aslam Uqaili, Khanji Harijan, 2011-10-14 New information and strategies for managing the energy crisis from the perspective of growing economies are presented. Numerous case studies illustrate the particular challenges that developing countries, many of which are faced with insufficient resources, encounter. As a result, many unique strategies to the problems of energy management and conservation, environmental engineering, clean technologies, biological and chemical waste treatment and waste management have been developed.

Performance Accountability and Combating Corruption Anwar Shah, 2007 Performance based oversight and accountability can serve as an important antidote to government corruption, inefficiency, and waste. This volume provides an analytical framework and operational approaches needed for the implementation of results-based accountability. The volume makes a major contribution to the literature on public management and evaluation. Major subject areas covered in this book include: performance based accountability, e-government, network solutions to performance measurement and improvement; institutions of accountability in governance; legal and institutional framework to hold government to account; fighting corruption; external accountability; ensuring integrity of revenue administration; the role of supreme audit institutions on detecting fraud and corruption; and the role of parliamentary budget offices and public accounts committees.

I-CONnect-Clough Center 2019 Global Review of Constitutional Law Richard Albert, David Landau, Pietro Faraguna, Simon Drugda, 2020-11-25 Welcome to the fourth edition of the I-CONnect-Clough Center Global Review of Constitutional Law. We were unsure whether the worldwide public health emergency would permit its publication. We are therefore immensely grateful to our dedicated team of collaborators for making this possible. The Global Review was born in 2017, with the publication of the 2016 Global Review. Our articulated goal at that time remains the same today: to offer readers systemic knowledge about jurisdiction-specific constitutional law that has previously been limited mainly to local networks. The Global Review seeks to increase the base of knowledge upon which scholars and judges can draw; we do this by making public law developments around the world available to all in an easily digestible format. Our ambition is to make our vast world smaller, more familiar, and more accessible. This year the Global Review features over 70 jurisdictions. We continue to grow, slowly but steadily. With the help of our current roster of contributors and with new interest from our readers and others, we hope every year to continue to expand our coverage of the world.

Pakistan's Enduring Challenges C. Christine Fair, Sarah J. Watson, 2015-03-18 From the start of the U.S. war in Afghanistan in 2001 to the withdrawal of U.S. troops in 2014, Pakistan's military cooperation was critical to the United States. Yet Pakistani politics remain a source of anxiety for American policymakers. Despite some progress

toward democratic consolidation over the last ten years, Pakistan's military still asserts power over the country's elected government. Pakistan's western regions remain largely ungoverned and home to the last remnants of al-Qaeda's original leadership as well as multiple militant groups that have declared war on the Pakistani state. The country's economy is in shambles, and continuing tensions with India endanger efforts to bring a durable peace to a region haunted by the distant threat of nuclear war. Pakistan's Enduring Challenges surveys the political and economic landscape of Pakistan in the wake of U.S. military withdrawal. Experts in the domestic and international affairs of the region consider the country's prospects from a variety of angles, including security issues and nuclear posture, relations with Afghanistan, India, and the United States, Pakistan's Islamist movements, and the CIA's use of drone warfare in Pakistan's tribal areas. This timely volume offers a concise, accessible, and expert guide to the currents that will shape the country's future. Contributors: Christopher Clary, C. Christine Fair, Daveed Gartenstein-Ross, Karl Kaltenthaler, Feisal Khan, William J. Miller, Aparna Pande, Paul Staniland, Stephen Tankel, Tara Vassefi, Sarah J. Watson, Joshua T. White, Huma Yusef.

Public Expenditure Analysis World Bank, 2005 Focuses on the public sector in developing countries. Provides tools of analysis for discovering equity in tax burdens as well as in public spending and judging government performance in its role in safeguarding the interests of the poor and disadvantaged. Outlines a framework for a rights-based approach to citizen empowerment - in other words, creating an institutional design with appropriate rules, restraints, and incentives to make the public sector responsive and accountable to an average voter.

Citizen-Centered Governance Anwar Shah, Matthew Andrews, 2007-03 The development literature is replete with failed attempts to reform public sector governance in developing countries. This book, written by Matthew Andrews and Anwar Shah, argues that technocratic approaches to public sector reform are unlikely to succeed in the future as well. Instead citizen empowerment through a rights-based approach to demand accountability from their governments and a results-based culture of governance holds significant potential for success. The authors present a comprehensive framework to accomplish these goals through institutional reforms, and they highlight examples from international practices in which elements of such approaches have been implemented. This important new series represents a response to several independent evaluations in recent years that have argued that development practitioners and policy makers dealing with public sector reforms in developing countries and, indeed, anyone with a concern for effective public governance could benefit from a synthesis of newer perspectives on public sector reforms. This series distills current wisdom and presents tools of analysis for improving the efficiency, equity, and efficacy of the public sector. Leading public policy experts and practitioners have contributed to the series.

Local Governance in Industrial Countries Anwar Shah, 2006 The information revolution, in recent years, has worked as a catalyst to create a globalized yet localized world with local governments playing an ever-increasing role in the domestic and global economy. How these governments will be able to shoulder their responsibilities' especially the delivery of local services more effectively is the concern of this book. The book, edited by Anwar Shah, provides a comparative perspective on international practices in local governance and draws lessons from these experiences to guide future reform. Case studies include the following countries: Argentina, B.

Budgeting and Budgetary Institutions Anwar Shah, 2007 Budgeting and budgetary institutions play a critical role in resource allocation, government accountability, and improved fiscal and social outcomes. This volume distills lessons from practices in designing better fiscal institutions, citizen friendly budgets, and open and transparent processes of budget preparation and execution. It also highlights newer concepts of performance budgeting, accrual

accounting, activity based costing, and the use of information and communication technology in budgeting. These tools of analysis are supplemented by a review of budgeting in post-conflict countries and two country case studies on the reform of budgeting systems.

2016 Global Review of Constitutional Law Richard Albert, 2017

A Glass Half Full Sanjay Kathuria, 2018-09-07 Trade has played a critical role in global poverty reduction. In harnessing the potential of trade, some of the most successful countries have developed strong trade relationships with their neighbors. However, many South Asian countries have trade regimes that often offset the positive impact of geography and proximity. This report documents systematically the gaps between current and potential trade in South Asia and addresses important specific barriers that have held trade back. These barriers include tariffs and paratariffs, real and perceived nontariff barriers, connectivity costs, and the broader trust deficit. This policy-focused report unpacks these critical barriers to effective trade integration in South Asia through four in-depth studies that produce new, detailed, on-the-ground knowledge. Three of the studies are based on extensive stakeholder consultations. Two also rely on tailored surveys. The fourth study, on tariffs, benefits from new data on paratariffs. The report also marshals new evidence showing how trading regimes in South Asia discriminate against each other. Given the South Asian context, incremental, yet concrete steps aimed at tapping the potential of deeper integration are appropriate. The report has been drafted in this spirit. It offers precise, actionable policy recommendations that could help achieve measurable progress in key areas of trade and integration that would be to the advantage of all countries in the region.

Public Services Delivery World Bank, 2005 This publication sets out a framework for analysing the performance of governments in developing countries, looking at the government as a whole and at local and municipal levels, and focusing on individual sectors that form the core of essential government services, such as health, education, welfare, waste disposal, and infrastructure. It draws lessons from performance measurement systems in a range of industrial countries to identify good practice around the world in improving public sector governance, combating corruption and making services work for poor people.

Local Budgeting Anwar Shah, 2007 Local budgeting serves important functions that include setting priorities, planning, financial control over inputs, management of operations and accountability to citizens. These objectives give rise to technical and policy issues that require open discussion and debate. The format of the budget document can facilitate this debate. This book provides a comprehensive treatment of all aspects of local budgeting needed to develop sound fiscal administration at the local level. Topics covered include fiscal administration, forecasting, fiscal discipline, fiscal transparency, integrity of revenue administration, budget formats, and processes including performance budgeting, and capital budgeting.

Changing India Manmohan Singh, 2019 This set of five volumes documents the life and work of Manmohan Singh, an academic, a policymaker, and a politician who has had a deep impact on India and its economy. The volumes offer his selected speeches, articles, and interviews, starting from the 1950s, when he was in the academia, through the 1980s and 1990s, when he was India's finance minister, to 2004-14, when he was the prime minister of India. Manmohan Singh's writings reflect on the reforms that transformed the Indian economy and lay the foundations for a stronger medium-term growth story than the kind that India had witnessed in the preceding 44 years since Independence. The five volumes bring together Singh's essays and speeches on various subjects- economic reforms, India's export trends and the prospects for self-sustained growth, trade and development, and international economic order and equity in development.
