Dates A. Manickavasagan, M. Mohamed Essa, E. Sukumar, 2012-04-20 Of the many varieties of date palms, the species *Phoenix dactylifera* Linn. is cultivated extensively and traded and consumed worldwide. *Dates: Production, Processing, Food, and Medicinal Values* draws from a broad spectrum of contributors to present a comprehensive survey of this particular species. The book explores a range of essential facets of what many consider to be a wonder plant—from its cultivation to its potential for medicinal purposes. Divided into four parts, the book begins by examining cultural practices and their implications for date quality. The contributors discuss tissue culture studies, farm water management, mechanization approaches in pollination and harvesting operations, and marketing aspects. The second section focuses on postharvest operations such as drying and explores alternatives for methyl bromide fumigation and value-added products. It also reviews biofuel production from by-products and discusses the issue of waste generated from industry. The third part of the book highlights the physical, chemical, and structural characteristics of dates. It reviews fermentative products that use dates as substrate, discusses the fruits as a substitute for added sugar in food, and explores date palm feeding to livestock. The final section discusses the possibilities for nutritional and medicinal use and reviews the use of dates in indigenous medicine. Exploring essential properties and agricultural implications, this volume is a reliable resource for understanding the many aspects of the *Phoenix dactylifera* Linn.

Ezekiel 38-48 Stephen L. Cook,2018-01-01 A fresh interpretation of the final major sections of the Hebrew book of Ezekiel, chapters 38-48 Stephen L. Cook offers an accessible translation and interpretation of the final sections of Ezekiel. These chapters, the most challenging texts of scripture, describe the end-time assault of Gog of Magog on Israel and provide an incredible visionary tour of God's utopian temple. Following the approach of Moshe Greenberg, the author of the preceding Anchor Yale Bible commentaries on Ezekiel, this volume grounds interpretation of the book in an intimate acquaintance with Ezekiel's source materials, its particular patterns of composition and rhetoric, and the general learned, priestly workings of the Ezekiel school. The commentary honors Greenberg's legacy by including insights from traditional Jewish commentators, such as Rashi, Kimhi, and Eliezer of Beaugency. In contrast to preceding commentaries, the book devotes special attention to the Zadokite idea of an indwelling, anthropomorphic body of God, and the enlivening effect on people and land of that indwelling.
