Comparison between Internet Fax Services Dr. Hidaia Mahmood Alassouli,2021-04-18 Internet faxing uses the same principles as facsimile transmission, but it uses a Web interface instead of a fax machine. It can be a flexible, inexpensive option for transmitting documents. Internet fax services usually assign a fax number to each person who signs up for the service. people can send faxes to this number, and customers can send faxes via e-mail without using a fax machine. To send a fax through an Internet fax service: • The sender attaches a document to an e-mail message. The document can be a scan of a paper document, or it can be created in a program like Microsoft Word. • The sender addresses the message to the recipient's fax number, followed by the name of the faxing service (for example: 18005551234@emailfaxes.com). • The service translates the attachment so that a fax machine can read it. • The service sends the data across the phone line. • The recipient's fax machine decodes the data and prints the fax. To receive a document from a traditional fax machine through an Internet fax service: • The sender dials the fax number that the service has assigned to the recipient. • The fax machine translates the data and transmits it over the phone line. • The service receives the data, translates it into an image file and sends the image to the recipient's e-mail address. • The recipient opens the em-ail message and the attachment and views the file. As getting cheap internet fax service is important, I tried to look for cheap internet fax service that can fax to any country worldwide and can also use PayPal as it is safe payment than credit card. Unfortunately, I could not find cheap fax service for international destination. All internet fax services offer only cheap services to the free zones countries such as usa and Canada. I could not find cheap service to international destinations. Maybe the best of my search for faxing to international destination was FAX.PLUS that allows also paypal. But when I tried to subscribe to basic plane using paypal, paypal asked me to give them permission to access my registered credit card, and I refused that and so I could not subscribe. I will divide web sites that I had look to their internet fax services in the following groups 1-Part1: Websites that accepts paypal payments and supports faxing to international countries. Some of these are: · Gotfreefax · fax.to · Faxfresh · PamFax.biz · Faxzero · FAX.PLUS 2-Part2: Websites that accepts only credit/debit card payments and supports faxing to international countries · Hellofax · J2 global services vendors. It includes Metrofax, myfax, smartfax, efax, trustfax, rapidfax and fax.com 3-Part3: Websites that supports faxing to usa and Canada only • Nextiva • FAXAGE • FAXBetter In this report, I will compare the internet fax services according to the cost for sending fax to United Arab Emirate. Técnicas de Investigación en Investigación Privada José Manuel Ferro Veiga,2020-01-29 ¡A qué padre de adolescente no se le ha pasado alguna vez por la cabeza que le gustaría vigilar por una rendija a su hijo cuando está fuera de casa! Además, siguen muchas las personas que ante sospechas de infidelidad de su pareja no dejan de preguntarse dónde estará ella o él en cada momento y con qué compañía. Estos podrían ser dos situaciones típicas en las que podríamos pensar a la hora de hablar de los servicios de un detective privado. El descubrimiento de ‘líos’ más o menos amorosos o el espionaje a un hijo son, sin embargo, clichés que representan tan sólo en una pequeña parte la labor que ejercen este tipo de profesionales. La evolución de la sociedad, en la que la información fiable y de primera mano se ha convertido en un bien más que preciado, ha procurado un incremento en la demanda de prestaciones de agencias de investigación privada. La demanda de servicios de investigación privada es cada vez más habitual ante las nuevas necesidades de empresas y particulares. Contratar los servicios de un detective o de una agencia de investigación privada no es barato. Con todo, hablar de unos precios medios para este tipo de prestaciones no es cosa fácil, ya que el presupuesto depende mucho de la política de la agencia a la que se acuda, de las características y dificultades que entrañe cada caso particular, y del material que el cliente desee obtener o los servicios adicionales con los que quiera contar. Como norma general, cuando el cliente expone su caso, la agencia le asesora sobre lo que pueda necesitar y acuerda con él un presupuesto inicial por escrito. En este presupuesto se tienen en cuenta el tiempo por el que se contrata el servicio, las características del mismo y los materiales adicionales (fotografías, vídeos...) al consabido informe escrito donde se detallan las gestiones practicadas y los resultados obtenidos que el cliente desee que se le faciliten. Sin embargo, una investigación que en un principio parece sencilla puede complicarse durante su transcurso y alargarse si el cliente decide continuar con el consecuente incremento de la suma a abonar. Aunque no es la práctica habitual, hay agencias que trabajan con un presupuesto cerrado por caso, independientemente de lo que ésta finalmente llegue a durar. Los honorarios para los servicios de vigilancia y control de comportamientos en general, y los de búsquedas y localizaciones, rondan los 70 euros la hora. Estas tarifas se incrementarían en un 50% si se trabaja de noche o en días festivos. A esto habría que añadir, en su caso, los gastos derivados de desplazamientos, hospedajes y dietas, alquiler de vehículos o material gráfico (fotografías y vídeos), entre otros. Y por supuesto, el IVA. En los casos de investigaciones que entrañen una especial dificultad, es habitual que las partes acuerden otras tarifas de mutuo acuerdo. El precio de otro tipo de prestaciones, como la elaboración de informes prelaborales, financieros (sobre solvencia, localización de bienes...), o de arrendamientos (duplicidad de domicilios, dedicación del inmueble...) se establece a partir de los 800 euros. El importe se incrementa hasta los 1.000 euros si se trata de informes personales. Servicios más sofisticados, como los

relacionados con la seguridad electrónica, no bajan de los 1.500 euros. Se trata, en estos casos, de detectar escuchas clandestinas, ambientales o telefónicas, u otro tipo de dispositivos de observación y control. Es habitual que un detective acuda a un juicio para ratificarse o testificar, ya que sus informes son oficialmente considerados periciales y los propios investigadores privados, testigos, debido a su labor directa, en primera persona, a la hora de obtener los resultados y hacer la peritación. Hay que tener en cuenta que en el 90% de los casos, las pruebas de las investigaciones se presentan en un juicio. Los honorarios son, en este caso, de 180 euros por detective sin IVA. Las anteriores no son más que tarifas orientativas que las agencias pueden tratar de mejorar para ofrecer opciones más competitivas, siendo ésta la práctica habitual. Por ejemplo, se puede ofertar un 2×1. Es habitual vender un servicio de investigación como si lo estuviera haciendo una persona, aunque en realidad la lleven a cabo dos, o realizar contraofertas que mejoren las condiciones de la competencia. En el caso de clientes particulares, el pago de los servicios se hace, en su mayor parte, por adelantado. Se les pide una provisión de fondos inicial de entre el 50% y el 75% del total, según el caso. Esta práctica se explica por el creciente nivel de morosidad en nuestro país. En el caso de empresas, cuando los servicios prestados son más habituales y continuados, el funcionamiento es diferente. Se suele trabajar con convenios por los que la entidad contratante se compromete a abonar cada cierto tiempo (por ejemplo, a final de cada mes) las gestiones realizadas en ese período. Por lo tanto, como norma general, pagan a trabajo vencido. Pese a las grandes sumas de dinero invertidas en una investigación, siempre se debe contar con la posibilidad de no dar con el objetivo. Un detective no puede asegurar al cliente que de una investigación se deriven los resultados esperados, sencillamente porque no depende enteramente de él. Es la propia investigación, el servicio prestado, lo que el cliente paga, no el hecho de llegar a determinado objetivo, además, sobre la peligrosidad de dejarse llevar por promesas que no se pueden cumplir: “si alguien asegura que va a conseguir un objetivo en un determinado periodo de tiempo, está engañando, porque es algo que no está en sus manos”. De hecho, el documento de encargo de prestación de servicios, el contrato que firman tanto la agencia como el cliente, debe incluir una cláusula en la que claramente se libera a la agencia de esta responsabilidad, y el cliente debe ser informado sobre ello. Lo único que se garantiza al cliente es que durante el tiempo que contrate a una agencia, ésta hará las gestiones necesarias para averiguar lo que se le ha pedido.
