Advantage, Mom Maureen O'Brien, 2016-01-25 This book was created with today's busy parent in mind. It was written by a mom (of twins), no less!) who also happens to have a degree in child development. With a keen eye and sense of humor, she tackles topics from discipline to manners, from sleep habits to screen time. The 20 lessons are deliberately brief, practical and focused on everyday dilemmas. they cover a wide age span - from tots to preteens. There's no need to read the contents all at once/ just read a section when the spirit moves you! Whether you are a first-time mom or an experienced one, you're sure to find a nugget of wisdom that will work to your advantage as a parent.

**Alignment** Robert S. Kaplan, David P. Norton, 2006-02-23 Most organizations consist of multiple business and support units, each populated by highly trained, experienced executives. But often the efforts of individual units are not coordinated, resulting in conflicts, lost opportunities, and diminished performance. Robert S. Kaplan and David P. Norton argue that the responsibility for this critical alignment lies with corporate headquarters. In this book, the authors apply their revolutionary Balanced Scorecard management system to corporate-level strategy, revealing how highly successful enterprises achieve powerful synergies by explicitly defining corporate headquarters' role in setting, coordinating, and overseeing organizational strategy. Based on extensive field research in organizations worldwide, Alignment shows how companies can build an enterprise-level Strategy Map and Balanced Scorecard that clearly articulate the "enterprise value proposition": how the enterprise creates value above that achieved by individual business units operating alone. The book provides case studies, actionable frameworks, and sample scorecards that show how to align business and support units, boards of directors, and external partners with the corporate strategy and create a

governance process that will ensure that alignment is sustained. The next breakthrough in strategy execution from the field's premier thinkers, *Alignment* shows how today's companies can unlock unrealized value from enterprise synergies.

*Corporate-Level Strategy* Michael Goold, Andrew Campbell, Marcus Alexander, 1994-09-09 Advance praise for *Corporate-Level Strategy*. At last a book that cuts through all the corporate jargon and academic generalizations to answer the question 'Does the corporate parent create or destroy value for the organization?' The authors suggest a simple yet compelling framework for making this determination. Must reading for students and practitioners alike. -Robert Cizik Chairman and Chief Executive Officer Cooper Industries In an era when the role of corporate-level management is quite justifiably being questioned and challenged, it is refreshing to find a book that clearly shows how parent companies can add rather than destroy value in their businesses. As we would expect of these world class authorities, Goold, Campbell, and Alexander have leveraged their fascinating research findings into an eminently readable and highly practical book. -Chris Bartlett Professor Harvard Business School A vital and deeply researched contribution to thinking about corporate strategy. -Gary Hamel London Business School I am very impressed by the extensive work on which this book is based, and by the concept of parenting advantage that it puts forward. -Yasutaka Obayashi Senior General Manager, Corporate Strategy Canon Great companies grow, they don't just cut. With breakups and restructuring done, corporate parenting is coming back. Goold, Campbell, and Alexander have produced a comprehensive and intelligent book which should become a standard guide on the subject. -Tom Hout Vice President The Boston Consulting Group A perceptive and valuable insight into an often underestimated area of strategy. This book clearly demonstrates the importance of parenting to the longer term development and prosperity of multibusiness companies. -

Alan R. Jackson Chief Executive, BTR I am glad someone has so well and so fully shed light on this important body of thinking. -Sigurd Reinton Director, McKinsey & Company, 1981-1988
