Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Women and Money a Practical Guide to Estate Planning Patricia M. Annino, 2011-04-05 Women control 75 percent of the total personal wealth in the United States today, fill more than half

the jobs, earn more than half the college degrees, and make up the fastest growing sector of new business owners. Yet most American women have not taken steps to put the legal mechanisms in place through estate planning to protect their assets, their families and themselves. This book is for you. *Women and Money, A Practical Guide to Estate Planning* is an exhortation, a resource, and a trusted companion. Written by attorney Patricia Annino, who has been advising both men and women about estate planning for more than two decades, the book makes a complicated process easily accessible to readers by explaining away the legal jargon, bringing the issues to life with real life stories, and addressing the concerns of women in all age and economic groups. The first time a new mother leaves her baby with a sitter, she leaves detailed instructions. Estate planning is a way to leave instructions for a lifetime, a way to make sure that if anything ever happens to you, the person you want to take care of your children will do so, your directions will determine the care they will be given, and your finances will be great enough to cover all costs. This is a book for women with significant assets and women with concerns about their financial futures, women with elderly parents and women with special needs children, single, married, divorced, widowed, and remarrying women. In short, this is a book for you and for any woman who wants to control her own financial destiny, protect herself and protect those she cares about most.

It's More Than Money Patricia Annino, 2014-04-09 *It's More Than Money: Protect Your Legacy* Is each generation of your family aware of the family brand - the foundational values you want them all to share? Have you discussed the objectives- in business or philanthropy or investments or family activities- that will translate these values into a family plan? Do you have the enabling structure (legal estate planning and business documents, financial investments and team of advisors) in place to carry out the plan? Most families cannot answer yes to all these questions. Directed at

the Captain of the Ship the head of the family, but written in a way that is accessible to all interested family members, Its' More than Money explains how to: * Focus on what your values are. *Align those values with your goals. *Work with your team of advisors to put in place the legal documents and financial framework that wil.. *Protect you, yoru family, your charities and your legacy. This is both a how to do it blueprint and a handbook designed to provoke family discussion, understanding and unity.

Hidden Agendas Jane Kelsey,2013-05-01 'Forget the label "free trade agreement". The TPPA, under negotiation between New Zealand, the USA and ten other countries, is a direct assault on our right to decide our own future.' In this hard-hitting BWB Text, Professor Jane Kelsey picks apart the current negotiations surrounding the proposed Trans-Pacific Partnership Agreement (TPPA) and comes to some disturbing conclusions. Such a treaty, she says in this new work, has little credible economic rationale but could have potentially dangerous effects on our ability to decide for ourselves how we address the economic, environmental, social and Treaty challenges of the twenty-first century. At a time of constitutional review, the secrecy surrounding the TPPA negotiations raises hard questions about the future shape of New Zealand.

Notes from the Hyena's Belly Nega Mezlekia,2015-04-07 In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist

junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, *Notes from the Hyena's Belly* offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.

Angels and Demons in Art Rosa Giorgi, 2005 This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the *Guide to Imagery* series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, *Angels and Demons in Art* will delight readers with an interest in art or religious symbolism.

The Dog Exercising Machine Edward De Bono,1971 What is a dog exercising machine? Ask a child - your own or someone else's - to draw one. If you're Edward de Bono, or a truly serious parent, look at the resulting drawing carefully, and you will see how a child's mind copes with a problem, without the stifling restrictions of adult knowledge and experience to guide it along familiar paths of logic and reason to a stereotyped solution or none at all.--Cover.
