Pharmacology for the Primary Care Provider - E-Book Marilyn Winterton Edmunds,Maren Stewart Mayhew,2009-02-26 Written by and for nurse practitioners, this practical textbook focuses on what primary care providers need to learn and practice drug therapy. With an overall emphasis on patient teaching and health promotion, you will learn how to provide effective patient teaching about medications and how to gain patient compliance. Drug coverage focuses on "key drugs rather than "prototype drugs, so you can find important information about the most commonly used drugs rather than the first drug in each class. You will also find discussions on the legal and professional issues unique to nurse practitioners and other primary care providers. The 3rd edition also features an expanded emphasis on established clinical practice guidelines and evidence-based practice, plus two new chapters that cover drugs for ADHD and drugs for dementia. UNIQUE! Written specifically for nurse practitioners with an overall emphasis on patient teaching and health promotion. UNIQUE! Covers specific topics such as prescriptive authority, role implementation, and writing prescriptions. Presents comprehensive coverage of the drugs most commonly prescribed in – and the issues most relevant to – primary care practice. UNIQUE! Identifies the Top 200 drugs in chapter openers with a special icon and covers them in-depth to familiarize you with the most important, need-to-know drug information. Uses a consistent heading scheme for each prototype drug discussion to make it easier to learn and understand key concepts. Includes an introductory chapter on "Design and Implementation of Patient Education that highlights content on patient teaching and compliance. Includes specific "Patient Education sections in each drug chapter. Provides extensive coverage of drug therapy for special populations to alert you to special considerations based on age, pregnancy, race and other factors. A separate chapter on "Complementary and Alternative Therapies discusses the available complementary and alternative modalities, including detailed information on actions, uses, and interactions of commonly used herbs. Drug Overview tables at the beginning of each chapter outline the classifications of drugs discussed and provide a handy reference of drug classes and subclasses, generic names, and trade names. Clinical Alerts highlight essential information that primary care providers must remember in order to avoid serious problems, including cautions for prescribing, information about drug interactions, or warnings about particularly ominous adverse effects. An entire unit covers drugs for health promotion to introduce you to drugs commonly seen in outpatient primary care settings and to prepare you for practice in a society increasingly focused on health promotion and disease prevention. Includes separate chapters on Immunizations and Biologicals, Weight Management, Smoking Cessation, Vitamins and Minerals, Over-the-Counter Medications, and Complementary and Alternative Therapies.

Bio-gas Plants at the Village Level T. K. Moulik,Uma K. Srivastava,1975 Survey of the economic viability of producing fuel gas from organic refuse.

Zoological Catalogue of Australia G. Cassis,Gordon F. Gross,2002 The infraorder Pentatomomorpha is the subject of the second volume in the Zoological Catalogue of Australia series dealing with the true bugs (the suborder Heteroptera). It includes the bark bugs, stilt bugs, seed bugs, cotton stainers, burrowing bugs, shield bugs and stink bugs. Many of these species are of significant economic importance both as pests and as natural enemies of other insect pests. In this catalogue, the authors propose a new classification for the Australian Heteroptera based on the most recent developments in heteropterology worldwide. The proposed classification departs significantly from all previous treatment of the Australian fauna. There is a comprehensive treatment of the classification and nomenclature of the Australian species and a thorough review of the literature concerned with the higher classification of the Pentatomomorpha. The volume gives detailed information on the distribution and ecology of each species and features the first in depth listing of their host associations, including a significant accounting of the plant associations. All species and generic synonymies are given, including extra-limital synonyms, along with detailed type specimen data. Features * Provides a new classification for the Australian Heteroptera, reflecting the most recent developments in Heteropterology worldwide * Covers 34 families, 439 genera and 1179 species * Completes the work for the Australian Heteroptera, complementing volume 27.3A * Includes comprehensive synonymous and bibliographic listings and detailed distribution information * Gives the first listing of the host plants of the Pentatomomorpha in Australia * Sample

Collision of Empires A. D. Harvey,1993-07-01 The only previous war to match the world wars of the twentieth century in scale and impact was the French War of 1793-1815. This book is the first book to compare these conflicts, which together shaped the history of the modern world. A.D. Harvey relates the causes, conduct and outcome of these wars to the fundamental nature of the societies which fought them. Political decisions, economic power and social attitudes interfaced with the

demands of military technology to determine the outcome of each case. Britain is the centre of focus, but is seen against a background of the other combatants. Harvey's ability to make large-scale generalisations is backed up by a wealth of fascinating and carefully documented detail, making this outstanding and exceptionally well-written book a pleasure to read. The author has tackled a huge subject and has not been afraid to face up to either its complexities or its implications. By asking new questions and using a range of unfamiliar sources this book provides an unusually profound analysis not only of these wars but also of the nature of modern society and of our understanding of the past.
