Autism in the Workplace Amy E. Hurley-Hanson, Cristina M. Giannantonio, Amy Jane Griffiths, 2019-11-15 This book explores the career experiences of Generation A, the half-million individuals with autism spectrum disorder (ASD) who will reach adulthood in the next decade. With Generation A eligible to enter the workforce in unprecedented numbers, research is needed to help individuals, organizations, and educational institutions to work together to create successful work experiences and career outcomes for individuals with ASD. Issues surrounding ASD in the workplace are discussed from individual, organizational, and societal perspectives. This book also examines the stigma of autism and how it may affect the employment and career experiences of individuals with ASD. This timely book provides researchers, practitioners, and employers with empirical data that examines the work and career experiences of individuals with ASD. It offers a framework for organizations committed to hiring individuals with ASD and enhancing their work experiences and career outcomes now and in the future.

The Poetry and Prose of Wang Wei Paul Rouzer, 2020-07-06 Wang Wei has traditionally been considered one of the greatest of Tang dynasty poets, together with Li Bo and Du Fu. This is the first complete translation into English of all of his poems, and also the first substantial translation of a selection of his prose writings. For the first time, readers encountering his work in English translation will get a comprehensive understanding of Wang Wei's range as a poet and prose writer. In spite of the importance of Wang Wei's poetry in the history of Chinese literature, no one has attempted a complete translation of all of his surviving poems;

moreover, even though he was known for his skill in composing prose pieces in the recognized genres of his day (especially as a writer of commissioned compositions), very little of his prose has been translated. This translation will enable students with limited or no knowledge of Chinese to get a full sense of Wang Wei's compositional range. Moreover, since Wang Wei was known for being a devout Buddhist, having the complete poetry available in reliable translation as well as all of the prose that is connected to the Buddhist faith will be useful to students of Chinese religion.

ICU Resource Allocation in the New Millennium David Crippen, 2012-09-14 Intensive care medicine is one of the fastest growing services provided by hospitals and perhaps one of the most expensive. Yet in response to the global financial crisis of the last few years, healthcare funding is slowing or decreasing throughout the world. How we manage health care resources in the intensive care unit (ICU) now and in a future that promises only greater cost constraints is the subject of this book, the third in an informal series of volumes providing a global perspective on difficult issues arising in the ICU. Taking 12 developed countries as their focus, leading experts provide a country-by-country analysis of current ICU resource allocation. A second group of experts use the chapters as a departure point to analyze current ICU resource allocation at the level of the global medical village. The process is repeated, but with an eye toward the future – first country by country, then at the global level – that takes into account initiatives and reforms now underway. A fictional healthcare plan, the “Fair & Equitable Healthcare Plan,” is put forth to address weaknesses in existing approaches, and healthcare experts and ethicists are invited to respond to its often provocative provisions. Itself structured as a dialogue, the book is an excellent way to start or to continue serious discussion about the allocation of ICU healthcare resources now and in the years ahead.

Scrupulosity (al-Wara ') in Early Islam Mateusz Wilk, 2019-12-31 This book aims to discuss religious scrupulousness (al-wara') - an important phenomenon in Islamic spirituality and tradition in the 3rd/9th century. Through the study of hadith compilations devoted to piety the author tries not only to define the concept of scrupulousness itself, but also to present the world of Muslim scholars who composed these collections of traditions. An important aspect of the book will be a discussion of a possible social impact of religious scrupulousness as well as of its cultural context. Thus,

another examined subject will be the link of religious scrupulousness with the Islamic eschatology, as well as with the visions of the Hereafter. On the whole, religious scrupulousness will be analysed as one of the portents of changes occurring in the Islamic society and civilisation in the 3rd/9th century, when new forms of piety are accompanied by apocalyptic fears and anxieties.

Ethnic Identity and Minority Protection Thomas W. Simon, 2012-03-28 In *Ethnic Identity and Minority Protection: Designation, Discrimination, and Brutalization*, Thomas W. Simon examines a new framework for considering ethnic conflicts. In contrast to the more traditional theories of justice, Simon's theory of injustice shifts focus away from group identity toward group harms, effectively making many problems, such as how to define minorities in international law, dramatically more manageable.

Preventing Corporate Accidents R B

Whittingham, 2012-06-25 The passing of the Corporate Manslaughter and Corporate Homicide Bill in the UK and increasing public and investor pressure for good Corporate Governance and Corporate Social Responsibility, means organizations now, more than ever, need to ensure they do all they can to prevent major accidents. However, past experience shows that just implementing safety management systems is not enough and this book makes the case for a more holistic and ethical approach to improving corporate systems as a whole. *Preventing Corporate Accidents* shows how major accidents can result from human error and defects in corporate systems. The book describes accident prevention strategies, from safety culture, safety management systems, foresight and planning to safety regulations, corporate ethics, corporate

social responsibility and the learning organization. Barry Whittingham illustrates with international case studies from various industries how and why these defences have failed in the past, and more importantly, how to strengthen corporate systems to prevent future major accidents. The case studies include: The loss of the space shuttle Columbia Infant heart surgery at Bristol Royal Infirmary The Davis-Besse nuclear power plant incident The fire and explosion at the Conoco-Phillips Humber oil refinery Herald of Free Enterprise and Southall rail accident manslaughter prosecutions This book is essential reading for all those with a professional interest in health and safety management, the control of major risk and accident prevention, in particular for directors, senior managers and health & safety professionals in high-hazard industries and public operations, such as nuclear, chemicals, construction, oil and gas, energy, manufacturing and transportation. Barry Whittingham has worked as a senior manager, design engineer and consultant for the chemical, nuclear, offshore, oil and gas, railway and aviation sectors. He developed a career as a safety consultant specializing in the human factors aspects of accident causation. Barry is a Fellow of the Safety and Reliability Society.
