New York Magazine ,1996-04-22 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

Copyright and the Music Marketplace United States United States Copyright Office,2015-12-21 The Copyright Office has previously highlighted the outmoded rules for the licensing of musical works and sound recordings as an area in significant need of reform. Moreover, the Office has underscored the need for a comprehensive approach to copyright review and revision generally. This is especially true in the case of music licensing the problems in the music marketplace need to be evaluated as a whole, rather than as isolated or individual concerns of particular stakeholders.

Collective Genius Linda A. Hill,Greg Brandeau,Emily Truelove,Kent Lineback,2014-05-13 Why can some organizations innovate time and again, while most cannot? You might think the key to innovation is attracting exceptional creative talent. Or making the right investments. Or breaking down organizational silos. All of these things may help—but there’s only one way to ensure sustained innovation: you need to lead it—and with a special kind of leadership. Collective Genius shows you how. Preeminent leadership scholar Linda Hill, along with former Pixar tech wizard Greg Brandeau, MIT researcher Emily Truelove, and Being the Boss coauthor Kent Lineback, found among leaders a widely shared, and mistaken, assumption: that a “good” leader in all other respects would also be an effective leader of innovation. The truth is, leading innovation takes a distinctive kind of leadership, one that unleashes and harnesses the “collective genius” of the people in the organization. Using vivid stories of individual leaders at companies like Volkswagen, Google, eBay, and Pfizer, as well as nonprofits and international government agencies, the authors show how successful leaders of innovation don’t create a vision and try to make innovation happen themselves. Rather, they create and sustain a culture where innovation is allowed to happen again and again—an environment where people are both willing and able to do the hard work that innovative problem solving requires. Collective Genius will not only inspire you; it will give you the concrete, practical guidance you need to build innovation into the fabric of your business.

Knight Bob Knight,Bob Hammel,2002-03-26 Bob Knight was a head coach in college basketball at twenty-four, coach of an unbeaten NCAA champion at thirty-five, coach of the last amateur team to win the Olympic men's basketball gold medal at forty-three, and out of a job at not quite sixty. His shock, disappointment and anger over Indiana University's manner of firing a twenty-nine-year employee comes through clearly in his account of his last turbulent year there. And it is his account. Few people in sports have had more books written about them. This is the first by Bob Knight - one of the most literate, candid, quoted and outspoken men in American public life telling in this first-person account of his full, rich life. Much of that life has been in basketball, most of it because of basketball, but it also has brought him forward as a coach who has proved academic responsibility and production of championship college athletic teams not only can co-exist but should. His excitement as things start anew for him at Texas Tech is matched here by his characteristic frankness and remarkable recollection of a life he clearly has enjoyed. You'll see why, as he tells story after story - some delightful, some hilarious, some poignant, none of them dull. Knight, as a sophomore front-line reserve on the Ohio State team that won the NCAA championship, became the first man to play on and coach a championship team when he led his 1975-76 Indiana team to a 32-0 season that was capped by an 86-68 victory over Michigan in the NCAA championship game at Philadelphia. His Indiana teams in 1980-81 and 1986-87 also won NCAA titles, making him one of just four coaches in history to win as many as three championships. Twenty-six years later, the 1975-76 Indiana team still stands as the last unbeaten team in major- college men's basketball. Knight's coaching career includes six seasons at Army, where his teams - during the years when the Vietnam War made recruiting for West Point difficult - won 102 games and lost 50. He is one of five coaches who have won seven hundred games, and the only coach whose teams have won championships in the NCAA tournament, the National Invitation Tournament, the Olympic Games and the Pan American Games. During all that he has been at the heart of more controversies while running a winning and squeaky-clean program than any coach of any sport any time or anywhere. His excitement as things start anew for him is matched here by his candor and remarkable recollection of a life he clearly has enjoyed. You'll see why, with story after story - some delightful, some hilarious, some poignant, none of them dull: the story of Bob Knight's life.

The Effortless Experience Matthew Dixon,Nick Toman,Rick DeLisi,2013-09-12 Everyone knows that the best way to create customer loyalty is with service so good, so over the top, that it surprises and delights. But what if everyone is wrong? In their acclaimed bestseller *The Challenger Sale*, Matthew Dixon and his colleagues at CEB busted many longstanding myths about sales. Now they’ve turned their research and analysis to a new vital business subject—customer loyalty—with a new book that turns the conventional wisdom on its head. The idea that companies must delight customers by exceeding service expectations is so entrenched that managers rarely even question it. They devote untold time, energy, and resources to trying to dazzle people and inspire their undying loyalty. Yet CEB’s careful research over five years and tens of thousands of respondents proves that the “dazzle factor” is wildly overrated—it simply doesn’t predict repeat sales, share of wallet, or positive word-of-mouth. The reality: Loyalty is driven by how well a company delivers on its basic promises and solves day-to-day problems, not on how spectacular its service experience might be. Most customers don’t want to be “wowed”; they want an effortless experience. And they are far more likely to punish you for bad service than to reward you for good service. If you put on your customer hat rather than your manager or marketer hat, this makes a lot of sense. What do you really want from your cable company, a free month of HBO when it screws up or a fast, painless restoration of your connection? What about your bank—do you want free cookies and a cheerful smile, even a personal relationship with your teller? Or just a quick in-and-out transaction and an easy way to get a refund when it accidentally overcharges on fees? *The Effortless Experience* takes readers on a fascinating journey deep inside the customer experience to reveal what really makes customers loyal—and disloyal. The authors lay out the four key pillars of a low-effort customer experience, along the way delivering robust data, shocking insights and profiles of companies that are already using the principles revealed by CEB’s research, with great results. And they include many tools and templates you can start applying right away to improve service, reduce costs, decrease customer churn, and ultimately generate the elusive loyalty that the “dazzle factor” fails to deliver. The rewards are there for the taking, and the pathway to achieving them is now clearly marked.

Led Zeppelin All the Songs Jean-Michel Guesdon,Philippe Margotin,2018-10-23 Take a deep dive into the innovative recording history of Led Zeppelin, in this newest addition to the fan-favorite All the Songs series. Fifty years after their first practice in a Soho basement, Led Zeppelin continues to fascinate new generations of listeners. While their legendary back-stage debauchery has been written about extensively in other books, All the Songs is all about the music, detailing the studio magic and inspiration that made all nine albums go platinum, including Led Zeppelin IV which was certified x23 platinum and has sold more than 37 million copies worldwide. Studio stories will include their productive time at Headley Grange in Wales, a poorly-heated former poorhouse where they recorded parts of Led Zeppelin III, Led Zeppelin IV, Houses of the Holy and Physical Graffiti. And how the first album was recorded in three weeks but their second took six months, done while the band was on a world tour. They carried the masters of the recording session in a steamer trunk wherever they went. Out of these chaotic sessions came the Whole Lotta Love, which was finished in New York with Hendrix engineer Eddie Kramer helping create the psychedelic middle part, as well as The Lemon Song, which was cut live in the studio. Page worked feverishly with Kramer to mix the LP on a primitive 12-channel Altec board in a two-day span. Fans will also learn the genesis of their lyrics, the inspiration for their album covers, the instruments used, and the contributions of engineers such as Andy Johns, who helped create the iconic drum sound on When the Levee Breaks by recording Bonham at the bottom of a stairwell.
