Minor Histories Mike Kelley, 2004-02-06 The second volume of writings by Los Angeles artist Mike Kelley, focusing on his own work. What John C. Welchman calls the blazing network of focused confluences from which Mike Kelley's styles are generated is on display in all its diversity in this second volume of the artist's writings. The first volume, *Foul Perfection*, contained thematic essays and writings about other artists; this collection concentrates on Kelley's own work, ranging from texts in voices that grew out of scripts for performance pieces to expository critical and autobiographical writings. *Minor Histories* organizes Kelley's writings into five sections. Statements consists of twenty pieces produced between 1984 and 2002 (most of which were written to accompany exhibitions), including *Ajax*, which draws on Homer, Colgate- Palmolive, and Longinus to present its eponymous hero; *Some Aesthetic High Points*, an exercise in autobiography that counters the standard artist bio included in catalogs and press releases; and a sequence of creative writings that use mass cultural tropes in concert with high art mannerisms—approximating in prose the visual styles that characterize Kelley's artwork. Video Statements and Proposals are introductions to videos made by Kelley and other artists, including Paul McCarthy and Bob Flanagan and Sheree Rose. Image-Texts offers writings that accompany or are part of artworks and installations. This section includes *A Stopgap Measure*, Kelley's zestful millennial essay in social satire, and *Meet John Doe*, a collage of appropriated texts. Architecture features an discussion of Kelley's Educational Complex (1995) and an interview in which he reflects on the role of architecture in his work. Finally, *Ufology* considers the aesthetics and sexuality of space as manifested by UFO sightings and abduction scenarios.

Betrays and Treason Nachman Ben-yehuda, 2018-03-08 In *Betrays and Treason* Nachman Ben-Yehuda identifies the

universal structure of betrayals as the violation of trust and loyalty and charts the different manifestations and constructions of these violations, all within numerous cases across time, place, and cultures. Betrayals do not just lie in the eyes of the beholder, completely relative. While the very idea of betrayals is a social construct, underlying it is a universal structure of violations of both trust and loyalty. Whenever this structure materializes, the label betrayal is invoked and applied.

Foul Perfection Mike Kelley, 2003-06-20
Critical writings and commentary by the Los Angeles based artist Mike Kelley. The work of artist Mike Kelley (b. 1954) embraces performance, installation, drawing, painting, video, and sculpture. Drawing distinctively on high art and vernacular traditions, including historical research, popular culture, and psychology, Kelley came to prominence in the 1980s with a series of sculptures composed of craft materials. His

recent work offers dialogues with architecture and with repressed memory syndrome, and a sustained inquiry into his own aesthetic and social history. The subjects on which Kelley has written are as varied as his artistic media. They include the work of fellow artists, sound, caricature, the uncanny, UFOlogy, and gender-bending. This book offers a diverse collection of Kelley's writings from the last twenty-five years. It contains major critical texts on art, film, and the wider culture, including his piece on the aesthetic he calls urban Gothic. It also contains essays, mostly commissioned for exhibition catalogs and journals, on the artists and groups David Askevold, Öyvind Fahlström, Douglas Huebler, John Miller, Survival Research Laboratories, and Paul Thek, among others. Kelley's voices are passionate, analytic, and ironic, and his critical intelligence is leavened with touches of whimsy.

Vintage Views Along the West Michigan Pike M. Christine Byron, Thomas R. Wilson, 2011 *Vintage Views Along the West Pike: From Sand Trails to US-31* is a pictorial history of Michigan's most famous road. The historic West Michigan Pike, originally M-11, was the first continuous, improved road between Michigan City and Mackinaw City. This route along the Lake Michigan coast opened West Michigan to automobile travel and tourism. The book depicts the adventure and romance of motoring on Michigan's most prominent early highway. Vintage postcards, photographs, maps, and ephemera illustrate this journey as you time-travel through the beautiful West Michigan landscape and quaint towns to hotels and cabins, tourist camps and state parks, and other stops along the road.

Radical Scavenger(s) Barry Schwabsky, 1994

The Annenbergs John E. Cooney, 1982 This is the colorful and dramatic biography of two of America's most controversial entrepreneurs: Moses Louis Annenberg, 'the racing wire king, ' who built his fortune in racketeering, invested it in publishing, and lost much of it in the biggest tax evasion case in United States history; and his son, Walter, launcher of TV Guide and Seventeen magazines and former ambassador to Great Britain.--Jacket.

Losing Legitimacy Gary Lafree, 2018-02-02 In the past fifty years, street crime rates in America have increased eightfold. These increases were historically patterned, were often very rapid, and had a disproportionate impact on African Americans. Much of the crime explosion took place in a space of just ten years beginning in the early 1960s. Common explanations based on biological impulses, psychological drives, or slow-moving social indicators cannot explain the speed or timing of these changes or their disproportionate impact on racial minorities. Using unique data that span half a century, Gary LaFree argues that social institutions are the key to understanding the U.S. crime wave. Crime increased along with growing political distrust, economic stress, and family disintegration. These changes were especially pronounced for racial minorities. American society responded by investing more in criminal justice, education, and welfare institutions. Stabilization of traditional social institutions and the effects of new institutional spending account for the modest crime declines of the 1990s.

Antineoplastons Burzynski Research Institute,1988

Critical Perspectives on Health Care Bridey Heing,2019 In the United States, the healthcare debate has swirled for decades as politicians, pundits, and citizens try to find a solution to the ongoing question of how best to meet the public's need for quality medical care at affordable prices. The introduction of new programs over the course of the twentieth and twenty-first centuries set a precedent for minimum levels of care. Despite these programs, millions remain uninsured across the country. This collection of essays will interrogate the debate on healthcare, providing students with a wide-ranging look at the competing ideas, policies, and viewpoints that intersect on this important issue.

Berlin 1961 Frederick Kempe,2011-05-10 In June 1961, Nikita Khrushchev called Berlin the most dangerous place on earth. He knew what he was talking about. Much has been written about the Cuban Missile Crisis a year later, but the Berlin Crisis of 1961 was more decisive in shaping the Cold War-and more perilous. It was in that hot summer that the Berlin Wall was constructed, which

would divide the world for another twenty-eight years. Then two months later, and for the first time in history, American and Soviet fighting men and tanks stood arrayed against each other, only yards apart. One mistake, one nervous soldier, one overzealous commander-and the tripwire would be sprung for a war that could go nuclear in a heartbeat. On one side was a young, untested U.S. president still reeling from the Bay of Pigs disaster and a humiliating summit meeting that left him grasping for ways to respond. It would add up to be one of the worst first-year foreign policy performances of any modern president. On the other side, a Soviet premier hemmed in by the Chinese, East Germans, and hardliners in his own government. With an all-important Party Congress approaching, he knew Berlin meant the difference not only for the Kremlin's hold on its empire-but for his own hold on the Kremlin. Neither man really understood the other, both tried cynically to manipulate events. And so, week by week, they crept closer to the brink. Based on a wealth of new documents and interviews, filled with fresh-sometimes startling-insights, written with immediacy and drama, Berlin 1961 is an extraordinary look at key events of the twentieth century, with powerful applications to these early years of the twenty-first. Includes photographs

Applied Fish Pharmacology K.M. Treves-Brown,2013-04-18 As aquaculture continues to expand there is a need for greater knowledge of medicinal treatments both for the prevention and treatment of disease and for the economic husbandry of fish. This book, the first of its kind, is written for a worldwide readership. It is a reference manual for anyone involved in the selection of medicines for administration to fish. It will also be useful to administrators concerned with the legal control of aquaculture. The first part covers issues which affect all medicine's methods of administering drugs to fish, the various aspects of safety and the

relevant legislation in countries with important aquacultural industries. Subsequent parts review the range of available medicinal substances and present current knowledge of the pharmacology and methods of use for each. Particular attention is given to safety issues - for the fish, for the person administering the medicine, for the consumer of medicated fish and for the environment.

The Cuban Missile Crisis Don Munton, David A. Welch, 2012
In *The Cuban Missile Crisis: A Concise History*, Second Edition, Don Munton and David A. Welch distill the best current scholarship on the Cuban missile crisis into a brief and accessible narrative history. The authors draw on newly available documents to provide a comprehensive treatment of its causes, events, consequences, and significance. Stressing the importance of context in relation to the genesis, conduct, and resolution of the crisis, Munton and Welch examine events from the U.S., Soviet, and Cuban angles, revealing the vital role that differences in national perspectives played at every stage. While the book provides a concise, up-to-date look at this pivotal event, it also notes gaps and mysteries in the historical record and highlights important persistent interpretive disputes. The authors provide a detailed guide to relevant literature and film for those who wish to explore further. Commemorating the 50th anniversary of the crisis, this revised and updated edition of *The Cuban Missile Crisis* is ideal for undergraduate courses on the 1960s, U.S. foreign policy, the Cold War, twentieth-century world history, and comparative foreign policy.
